DION STEEL THRESHERS
The farmer who is considering the purchase of a Threshing Machine should investigate the merits of the DION Thresher before placing an order. Thousands of machines made by Dion Bros. are giving outstanding service in Canada and the United States.

Before leaving the factory each DION Thresher must pass rigid tests to prove its ability to do a real job. DION Threshers embody all modern improvements resulting from constant research. Timken Roller Bearings are used throughout.

DION gets ALL the grain and requires less power. It is a high quality machine—unequalled in principle, design and strength. The same outstanding qualities are embodied in the DION ENSILAGE CUTTER.
