

VANDORF
(Last Week's News)

Messrs. Basil and Jack Baber attended the Ontario Temperance Federation in Carlton St. United Church, Toronto.

Miss Ruth and Joyce Sleeth visited in Toronto last week. Ruth took part in the musical festival held in Harbord collegiate there.

Mr. Kenneth Switzer and Mr. Samuelson of Longiac, Ont., who have been attending the Canadian Pulp & Paper Association Convention at Montreal called on the former's parents on Saturday.

Mr. and Mrs. A. C. Campbell of Scotland, Ont., were weekend guests at the Switzer home.

The supreme court found Mrs. Electa Cartmell, 27-year-old widowed clothing designer of Hamilton, Ont., "not guilty of manslaughter, but guilty of failing to provide the necessities of life, in the death of her four-month-old infant daughter."

One of the most dramatic incidents in the trial was when her four-year-old daughter, Holly, shown here, was called on for the purpose of showing what a loving mother the accused is.

EVERYTHING BUT THE SQUEAL?..... NOT QUITE

Utilization of livestock by-products is important to all farmers and ranchers. Of the total dollars received by Swift & Company for lambs, 15% to 25% comes from by-products, according to an article in Country Gentlemen. Cattle by-products amount to 10% to 20%. With hogs it is 2% to 5%. When bidding on live animals, Swifts & Company's buyers estimate the yield and grade of edible meat. In their estimate they figure, too, the

value of all by-products, including hides and wool.

Livestock by-products have greatly increased the value of your meat animals. Since earliest times, man has used hides and wool to make clothing. But only in the past half-century has research found the present great variety of uses for by-products. Fats and lanolin from wool, are the bases of many cosmetics, healing creams and beauty aids. Photographic film is coated with a gelatin compound. Other uses of gelatin and glues are almost endless. Animal fats are the main

Haliburton Minister Gives Parishioners 100 New \$5 Bills

There's a young minister in Haliburton, Ontario, who believes in the biblical parable of the talents.

He's Reverend Gordon Smyth, pastor of the Haliburton United Church who last week gave each of the hundred members of his congregation a crisp new five dollar bill. It wasn't exactly a hand-out, it was Reverend Smyth's way of applying the parable of the talents toward raising three thousand dollars for the church's renovation fund by June 20th.

Says Reverend Smyth, "Although the gift was advertised, I am pleased to see it didn't attract any curiosity seekers." He says, "It was not a smart Alex trick," because the money was borrowed from the bank in the minister's name.

The parable of the talents is the story of a wealthy master who gave three servants different sums of money, which they were to use as they saw fit, but to report to the master after a certain time had elapsed and tell how they used the money.

Two of the servants returned with more money than they started out with, but the third man had buried his money and had nothing to show for his time.

Reverend Smyth is hoping that his congregation will follow the example of the first two biblical servants who had doubled their money—and the money he gets back will go toward the church's renovation fund

raw material of toilet soaps.

Life has been lengthened for people with diabetes, anemia and other diseases. They are helped by drugs such as insulin, liver extract, pepsin, adrenalin. These are all made from the glands of livestock. But for the painstaking care of meat packers, these glands would go to waste. This happened during the wartime "black market" in meats, and the supply of insulin ran low.

With the growth of meat-packing plants, the war on waste began in earnest. Science found new ways to use by-products of your animals. Bristles make brushes. Bones make knife handles. Hair makes upholstery padding. Bones, blood and scraps go into animal and poultry feeds. Yes, we find use for every valuable part of cattle, hogs, and lambs.

Each new use for by-products adds value to livestock.....and directly benefits producers.

AUCTION SALE

45 HEAD OF PUREBRED AYRSHIRE & HOLSTEIN CATTLE

Horses, Implements

Case Tractor Model S on Rubber M.H. Corn Blower, Hay & Grain

The undersigned has received instructions to sell by public auction at

LOT 26, CON. S, PICKERING TWP.

TUESDAY, APRIL 20

the following property belonging to

CHAS. C. GOSTICK

HORSES

Registered Clyde Mare, 8 years
Brown Mare, 7 years
Light Horse, aged

CATTLE

Reg. Ayrshire Cow, due sale time
Reg. Ayrshire Cow, full flow, bred Mar. 19

Reg. Ayrshire Heifer, bred Jan. 1
Reg. Ayrshire Cow, bred Dec. 26
Reg. Ayrshire Cow, bred Feb. 12

Reg. Ayrshire Heifer, bred Nov. 18
Reg. Ayrshire Heifer, bred Nov. 12
Reg. Ayrshire Cow, fresh, not bred

Reg. Ayrshire Heifer, not bred, 2 yrs.
2 Reg. Ayrshire Calves, 1 year
3 Reg. Ayrshire Calves, 6 months

Reg. Ayrshire Bull, Hermitage Barger New Sun, 306496, born May 30, 1946. This is an outstanding animal.

Ayrshire Heifer, milking, not bred
Ayrshire Cow, bred Mar. 15
Ayrshire Cow, due time of sale

Ayrshire Cow, milking
Ayrshire Heifer, bred Jan. 2
Ayrshire Heifer, 1 1/2 yrs., not bred

Ayrshire Heifer Calf, year old
Ayrshire Heifer Calf, born in July
Ayrshire Heifer Calf, born in Dec.

Ayrshire Heifer Calf, born in Jan.
Guernsey Cow, due in month
Roan Cow, fresh milking, bred Nov. 3

Red Cow, fresh, not bred
Ayrshire Cow, fresh one month
Holstein Cow, milking, bred in Sept.

Holstein Cow, due time of sale
Black Cow, milking, not bred
Holstein Heifer, 2 yrs., bred Nov. 25

Red Heifer, year old
White Steer, 2 yrs. old
Holstein Heifer Calf, born in July

2 Holstein Heifer Calves, 14 mos.
Red Heifer Calf, 6 weeks old
Red Steer, 2 yrs. old

Reg. Ayrshire Heifer
All heifers are vaccinated and all cattle will be sold subject to blood tests. The above are a choice lot of cattle. Don't miss them.

HAY AND GRAIN

About 30 tons Hay
100 bus. Vickland Oats
50 bus. Mixed Grains
125 bus. Buckwheat
125 bus. Fall Wheat
175 bus. Spring Wheat
40-gal. Barrel Molasses
200 bus. Western Wheat
About 7 feet Ensilage

IMPLEMENTS

Case Model S on rubber with power take-off, in perfect condition
Power Take-off, 10' M.H. Binder, near new

I.H.C. Ace Bottom 3-furrow Plow
Combination Cultivator, Spring & Stiff Tooth, I.H.C., good

M.H. 7 ft. Binder, tractor and horse hitch
13-Disc Seed Drill, I.H.C., good

Mower, Frost & Wood, 5 ft. cut
Hay Rake, I.H.C., 10 ft. 2 Cutters
Sulky M.H. Riding Plow Buggy

M.H. 7A and 7B Single Plows
M.H. Gang Plow Hay Rack
I.H.C. 3 drum Steel Roller

Steel tired Wagon, 16x600 tires, good
Hay Rack Wagon Box
Walking Scuffer Turnip Drill

Root Pulper Fanning Mill
M.H. Blower Cutting Box with distributor pipes complete, in first class condition

5-section Harrows Ditch Scoop
Set Double Disc, near new Pails
Set Disc Harrows, for team

Cream Separator, DeLaval, with motor, complete
2 Colony Houses Suction Pump

Jamesway Brooder Stove, 500 cap.
Manure Spreader, M.H., good
Democrat Wagon, good Sacks

Snow Fence Posts Feed Cart
Cotton Grain Bags 2 Milk Cans
Scalding Trough Strainer

1/2 h.p. Gen. Elec. Motor, 25 cycle
1/4 h.p. Gen. Elec. Motor, 25 cycle
DeLaval Sterilizing Milker with stainless steel palls, complete

Cockshutt Grain 10" Chopper, new
75 ft. Endless Drive Belt, 6"
50 Foot Hay Fork Track
Quantity Rock Elm Plank

Caught Spearing Fish Several Swim to Safety

One man was apprehended and a number of others escaped when Fish and Wildlife Inspector A. Hodgson and Overseer Fred Walton discovered a group spearing fish in the Tolbot River west of Kirkfield last week. Several others in the party swam the river and escaped. Arrested was H. F. Murrie of R.R.1, Argle. He was charged with having fish out of season and in police court was remanded for one week and released on bail of \$100. The accused's car was seized as well as six good sized pickerels, four spears and two lanterns.

Inspector Hodgson stated that he and Overseer Walton came upon the men while driving through that area along the Tolbot River. One man was apprehended but the remainder escaped. A number of them were forced to swim the river to make their get-away. Inspector Hodgson explained that the fish had spawned and then came up to the swift part of the river to "wash off." At this point the fish were very thick on the bottom of the river and were easy prey for the men with spears.

HANDS AT WORK...

LEARNING AERO ENGINE AND AIRFRAME MECHANICS

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security... and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by industry. Veterans receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans off on the road to skilled craftsmanship. Taught to use their hands in general aero engine and airframe work, both on military and civilian aircraft, these veterans may qualify for a Department of Transport license, authorizing them to declare aircraft airworthy. In aircraft manufacturing plants and on flying fields throughout Ontario, these newly-skilled veterans will have the opportunity to apply their talents and training. Their efforts will help to make Ontario a finer place in which to live and will contribute to the welfare and happiness of all her citizens.

AERO ENGINE MECHANICS

H. Parry, 25, of Oshawa, Ontario, a Canadian Army veteran, is shown making an adjustment to the engine of a Cub Trainer. Students work on various types of aircraft ranging from the Cub Trainer to multiple engine military aircraft. Many veterans, trained as ground crew specialists during the war, have chosen to take post-war training in this occupation for which they are particularly suited. For them the transition to peace-time employment has been easier.

THE BREWING INDUSTRY (ONTARIO)

WATCH THE WEIGHT OF OVERSEAS AIR MAIL

DOUBLE the deficiency must be paid by addressee if postage is underpaid. Don't take chances.

One sheet of average, lightweight Air Mail paper, and one lightweight Air Mail envelope, weigh 1/4 ounce or less. The Air Mail rate is 15¢ per 1/4 ounce to Great Britain, Eire and Europe.

Ask at your local Post Office for rates elsewhere... have letters weighed when in doubt.

Issued by authority of Hon. Ernest Bennett, K.C., M.P., Postmaster General
