

VITAMINS VITAL FOR CALVES

QUAKER FUL-O-PEP CALF MEAL PELLETS SAVES UP TO 30% ON COST OF RAISING EACH CALF

One pound of Quaker Ful-O-Pep Calf Meal Pellets saves up to 10 pounds of milk in raising calves. Many dairymen find they may save up to 75% of the milk once used in raising calves, a saving of as much as \$30 per calf by feeding the Ful-O-Pep way.

ORDER TODAY FROM

STIVER BROS.

Weekend visitors with Mr. and Mrs. Shupe, and Mrs. Reist, Main street, were Mr. and Mrs. Ernest Steckley, Mr. Wesley Steckley, Mr. and Mrs. Reesor Steckley and daughter Collen.

ENJOYED BY MORE families than any other brand of coffee in the world... that's Maxwell House. Because of its extra flavor it's always "Good to the Last Drop!"

DEMONSTRATION
A demonstration with Rototillers will be conducted by Stouffville Motors on Saturday afternoon of this week, April 17th. An operator from the firm will be on hand to demonstrate this machine.

Gardening is becoming quite popular in town, and several have already planted small plots of vegetables. Remembering they were paying as much as 35c for lettuce a few weeks ago, home owners are going to appreciate their gardens more no doubt.

Local and Personal Happenings

"I just realized that my Tribune has expired, and I hasten to renew as I find it just like a letter from home," writes Mrs. Fred Cleminhage of Fort Erie.

Visitors with Mr. and Mrs. John Lehman, Baker Ave., last week were her sister Mrs. Wiancko, Dr. and Mrs. I. H. Erb, Mr. and Mrs. Geo. Lehman, Mr. and Mrs. Reford Wiancko and two children, also Eldon Wiancko.

Rev. W. A. Hunisett of Toronto was the minister at the Stouffville United Church on Sunday morning, while Rev. Butt of Unionville occupied the pulpit in the evening.

Larry Cleverdon, 8-year-old son of Mr. and Mrs. Bert Cleverdon, 7th concession of Markham, was removed to the Sick Children's Hospital last week, when he sustained a fall in the barn on his father's farm. The lad was removed to hospital when it was thought he might possibly have a fractured skull. Dr. S. S. Ball attended the injured lad.

Mr. John F. Clark, Horticultural Fieldman and Mr. O. M. McKillop, Inspector of Public Schools, along with E. R. Good, president of the local Horticulture Society, made a tour last Thursday of the rural Public Schools of York County to further interest them in the competition of the beautification of their building and grounds. It will be remembered that Bloomington school won the prize last year in this district, which makes them eligible for the Provincial contest.

Next Wednesday, April 21st, will be the final lecture in connection with the First Aid and Home Nursing Class being conducted by Mrs. Rusk, R.N., under the auspices of the Women's Institute which has proved to be very instructive and of great benefit to those who have attended. Every member who registered is urged to be present as each person is entitled to submit a question or questions which will be dealt with. Afternoon tea will be served by the committee who have been in charge and they would be very pleased to see very one present.

Anxious about Hall Suggestion
The Tribune has frequently been approached by members of the Women's Institute enquiring as to when the council intend to make repairs to the municipal hall that would among other things enlarge the small hall upstairs and make it more accommodating for public use. The matter is in the hands of the property committee, who report difficulty in getting any plan. Flat roof over the council chambers is well worn, and the suggestion has been that the higher roof be carried back over the council room thus remedying the defect of the council roof and at the same time enlarging the hall space by double its present size. It is a matter for the council to struggle with, and try to bring plans to a maturity even if the work is not accomplished at once. Ninety per cent of the public meetings could be accommodated nicely in this building if the hall space were enlarged while putting a new roof on the council chambers.

Daylight saving commences on Saturday night, April 24th, at midnight.

Mr. and Mrs. F. C. Rowbotham, Mrs. DeWitt and Joyce motored to Peterboro last week. Mrs. T. W. Klinck returned with them to her home on O'Brien Ave. after spending six months with her daughter and son-in-law, Mr. and Mrs. Milton Clark.

Mrs. Sam Anderson, Stouffville, unfortunately missed the chance of a lifetime last week, when she was called by telephone on the now famous "Treasure Trail" radio program. Mrs. Anderson stood a chance to win \$1000 had her letter contained the proper chewing gum wrapper. Mrs. Anderson did receive a cash consolation prize.

An interesting ceremony took place at the regular meeting of the Stouffville Lions Club on Monday night in the local High School, when Lion James Porter was presented with a handsome wrist watch, suitably engraved, as a token of esteem from the Club since moving to his new residence in Newcastle. Mr. Porter was a resident of Stouffville for the last nine and a half years, and treasurer of the Lions Club where he was a most energetic member. Lion Norman Baker made the presentation on behalf of the Lions Club.

Our west end resident, William Risebrough was removed to the Brierbush Hospital on Sunday in Good's ambulance, and Mrs. Risebrough is being nursed at home by Mrs. Nighswander. When two elderly people like this become ill at the same time it rather complicates matters, especially in cases like this where Mr. and Mrs. Risebrough did their own housework up to the time of their illness.

The Easter Thank-offering meeting of the W.M.S. of the United Church was held on Thursday afternoon in the church, when visiting organizations from Stouffville and neighboring communities were welcomed by the president, Mrs. K. Campbell. Mrs. Clayton Baker led as the basis of her talk, "God's love as shown in Christian living", followed by prayer by Mrs. D. J. Williamson. A terse definition of Christian Stewardship, "How you live from day to day, and what you do with what you have", was incorporated in a paper on that subject, read by Mrs. B. Sanders. Mrs. McConnachie sang a very appropriate solo. Mrs. Lang, the speaker of the afternoon, gave a very informative address on the effects of alcohol on the brain. 1st, when taken in small quantities, it slows down the time of reaction as seen in driving a car; 2nd, drunkenness, as seen when one is unable to control the movements of the body; 3rd, Dead drunk, as seen when completely helpless. Modern science proves the evil effects on the moral as well as on the physical. The increase in the consumption of intoxicants in Ontario and in Canada is appalling and presents a challenge to all Christian women. Mrs. M. Harris moved a vote of thanks to those taking part and the meeting was closed with prayer after which a social hour and refreshments were enjoyed in the basement. This meeting was planned and carried out by the group of which Mrs. B. Sanders and Mrs. D. Davis are the leaders.—Com.

Watch the advs. for weekly specials. The local merchants give you good leads.

Mr. and Mrs. Murray Dunkeld and family were Sunday guests with Mr. and Mrs. L. Wagg at Udora.

Mrs. Mary Sellers, Main St., was removed to the Brierbush Hospital last week, threatened with pneumonia. Mrs. Sellers moved to Stouffville from Brown's Corners only a short time ago, and purchased the former David Snider home.

Friends will be interested to learn that Mr. and Mrs. Chas. Webster and Judy, former residents, are now in California. The family made the trip south with relatives who were making the trip for health reasons.

See Slides in Gardening

This is your invitation to attend the next Horticultural meeting which is to be held in the United Church basement at 8 o'clock on Tuesday, April 20. Lantern slides on "Gardening" will be shown by Mr. Robt. Little of Richmond Hill, the District President. The Provincial President, Mr. Percy Bone of Thornhill, will also be present. Local talent will be on hand to make a real evening's entertainment for those attending. Have you made sure your name has been sent in for your premium, if not, phone M. Mertens, secretary, at once.

Rules for Cyclists

It would appear that many youths who ride on bicycles are not aware that it is unlawful to ride on the sidewalks. During the winter season a concession is made but with spring and good roads the place for bicycles is on the road and not on the sidewalks. Too many cyclists race along the sidewalk at too fast a speed. One would expect that in view of the fact they have not the right to ride on the walks, they would be doubly cautious when infringing on the law. However, too many do not see it that way, and become a menace to pedestrians.

WEDDINGS

EMPRINGHAM—HOOVER

Snapdragons, stocks and ferns decorated the Markham United Missionary Church for the marriage last Saturday of Margaret Jean Hoover, only daughter of Mr. and Mrs. Arthur Hoover, to John Bruce Empringham, son of Mr. and Mrs. David Empringham, Gormley. Rev. S. S. Shantz officiated. Mrs. Hawkins played the wedding music. During the signing of the register Miss Marion Cruickshank of Toronto, cousin of the groom, sang "O Perfect Love."

The bride, given in marriage by her father, was gowned in ivory slipper satin with fitted bodice, sweetheart neckline and full skirt forming a slight train. Her circular fingertip veil was held by a coronet of orange blossoms. She wore a double strand of pearls and carried red roses, baby's breath and fern. Her only attendant, Mrs. Harold Badgerow, wore a gown of powder blue with matching headdress and mitts. She carried pink roses. Robert Neil of Unionville was best man and the ushers were Carl Hoover, brother of the bride, and Harry Empringham, brother of the groom. At the reception at the bride's home about fifty guests were received by the bride's mother wearing powder blue crepe with navy accessories and the groom's mother, assisted, wearing figured silk jersey with black accessories. Both wore a corsage of pink roses. For travelling the bride chose a pale blue dressmaker suit, with brown accessories and corsage of red roses. On their return the couple will reside at Gormley.

E. A. Grubin, R.O., Optometrist, will be at his office in Stouffville on Monday, April 19th.

Mr. Lloyd Tudor of Carlton Place has taken an office position with the Stouffville Co-Operative.

The sap pails are all packed away again now that the season is over for another year. Local run this year is estimated at only 50 per cent of normal, and in some cases it wasn't that good. \$5.00 per gallon slacked the demand which is generally greater than the supply in any case for local syrup.

Mr. Ken Fraser, recent resident on Rose avenue won a suit of clothes and a couple men's fine shirts on a quiz contest by Sheriff's Fun Parade heard over the radio. These are gifts that any man would appreciate and the insurance man at the south end of O'Brien avenue must be very happy.

Hope to Hold the Tax Rate Stable

Municipal tax rates over the province of Ontario have risen this year on an average of five mills. Notwithstanding, the rate in Stouffville may remain much the same as last year, but this is not certain, since the rate will not be struck for a couple of months, before which time the school estimates will be received. This is something the council have no control over, and the Board of Education has only nominal control. Salaries and other fixed charges are on the upswing, and must keep pace with other schools in the province if we are to retain the high standard of teachers that the Board endeavours to retain. Nevertheless, increases established for the next school year do not become effective until September, hence can only affect the tax rate over a period of four months in 1948, and are therefore not believed to be of any serious effect on the rate to be struck for the current year.

Getting Restless to Paint?

It just isn't a good idea to start outside painting the first warm, sunny day—whether we are painting the back fence, the wall of a house, the window frames or the front porch, says the Paint Journal. One day of bright weather after all the snow and rain of the last few months isn't enough to dry out the wood to be painted. Curb that impatience to get going until several sunny days in a row have had a chance to do their work—otherwise, that new paint is going to go over wood that still contains moisture which eventually will have to force its way out and quite likely will ruin the painting job.

The Editor's Mail

Dear Editor,
The hall shortage is still acute in Stouffville, and the fact was demonstrated again last week, when no less than three meetings were called for the municipal building on the same evening, all by civic bodies. Comments were anything but flattering for council as to why the improvements to the present municipal building proposed so many times, are not attended to. It was pointed out by members of the local Athletic Club, the Board of Education and Lions Club, who were the groups all trying to meet in the inadequate quarters provided by this so-called municipal hall, that the roof is continually leaking, the front view is anything but attractive, and the whole thing is entirely too cramped. Costs are higher than they were ten years ago when the job should have been undertaken, granted, but this excuse for council laxness is beginning to wear out.
