CROSSES OCEAN THREE TIMES GETS HER MAN

An attractive Dutch girl who figures she'll have to cross the Atlantic three times to get her man is enroute to Europe by plane on the second leg of her long trip to the altar.

Blond 25-year-old Anna Russel left her home in the Netherlands several months ago to come to the United States to marry a G-1 she met in the war.

When she reached his home town of Burlington, Vermont, however, he jilted her. The reason, he said, was "because I was unable to bring my money to the United States."

She was in the U-S on a three-month visitor's visa and she decided to stay put as long as the visa

lasted even if the ex-soldier didn't want her.

Then she met Richard Rogers of Springfield, Vermont. But by the time they decided they were in love, her visa had almost run out.

And there was only one way to fix that. So she left for Amsterdam. She'll put her name on the immigration list again and wait for another visa.

When her turn comes she'll return to the United States and marry Rogers.

80 YEARS AGO

About 80 years ago, when the first canning of fruits and vegetables in Canada was being attempted, canners made their own cans by hand at the rate of about 60 a day for an "expert." Today, according to the American Can Company, an automatic "can line" turns out upwards of 400 tin-plated steel containers a minute, the equivalent of about a quarter of a million in a 10-hour day.

Soot should not be left lying in the furnace during the summer as it will absorb moisture from the air and soon rust the interior.

ENJOYED BY MORE families than any other brand of coffee in the world . . . that's Maxwell House. Because of its extra flavor it's always "Good to the Last Drop!"

Dailies Exaggerate Activities of Toronto "Beanery Gang" At Musselman's Lake

"I think the whole matter is greatly exaggerated," declared Clerk John Crawford after reading a report from a Toronto daily newspaper about alleged activities of the so-called "Beanery" gang at Musselman's Lake.

Mr. Crawford said that after seeing the report, he went to the lake and interviewed several whose names were mentioned only to find that much of the report printed was fictitious. It was said that a man's coat was stolen by the youths and girls, but it turned out that the owner of the coat had walked away from a picnic table and left his coat forgotten. It was recovered. Other instances of wild activity were discounted by Mr. George Davies, Mr. Crawford said. However, with close vigilance of police the teen-agers from Toronto have been shown they must behave themselves at the lakesides, or suffer punishment.
