Next year it will form part of the Markham high school district, but no doubt the school will continue to enjoy its own commencement evenings as in former years. Keep the date open for one or both of the evenings, either Thursday or Friday. The spacious hall will enable the program to be carried out free from being presented in cramped quarters, which will add to the presentation.

**"Not in That Box," Said Peter**

A couple of years ago the reeve of Stouffville complained to the two Toronto evening papers about the way wrappings were littered about the station by their carrier agents with the result that the papers provided a box for the carriers to place their wrappings in. This put an end to the complaints of residents against the untidy appearance caused by papers littered about. On Halloween night a gang destroyed the box, and it was reported that Peter Bramwell who is engaged to move the paper when the box is filled, was inside supposed to be guarding the newspaper property. However, on enquiry made by this newspaper Peter properly denied the suggestion that he was even present when the destruction was caused. "I'm in a box all the time, but not that one," said the genial lad who does more tidying up in Stouffville than most of us.
