"STABLE-PHOS"

Farmers have recently found that if they reinforce their manure with STABLE-PHOS, a high grade super-phosphate, a manure possessing twice the value of the ordinary variety is obtained. C-I-L Stable-phos reduces the leaching of the manures by fixing the Nitrogen which escapes as Ammonia, and it fortifies the manure with that much needed Phosphate, which is usually deficient in Ontario soils. When placed in the gutter, Stable-Phos materially reduces stable odors.

Compound mineral supplement to be added to the feed rations of horses, cows and sheep provides valuable growth and health, producing elements. Increases milk yield in cattle and maintains a sturdy growth of young cattle.

It was established back in 1887, and many a front street awning in Stouffville has been put up by this firm. The Tribune office is one of the places Turner's awnings are in use. The late J. J. Turner who founded the business, learned the sail-making business before he left England to locate in Canada.

Yankee born W. H. Eby who lives on Tenth street can celebrate his 58th wedding anniversary this month, but it will be a quiet affair since his life partner, the former Albertina Vanzant is not in very good health, and never able to be down town. Eby however keeps up a business connection in Toronto, and is a remarkable man, and a true statue of Ucle Sam minus the flowing hair, yet tall and slim and the years do not bend him. Mr. Eby first came to the village about sixty years ago with a medicine toup, and in the town park met his future wife. Just a girl then she was strolling about the grounds with another girl chum later to be Mrs. Hattie Saunders. Mrs. Eby, of course, was born on the Tenth not far from where she now lives in the old Eby home. We extend congratulations to this couple.

Two Letters from the Palace
At least two letters came to Stouffville during 1948 direct from Buckingham Palace, London. Both were directed to Miss Florence Betz, 15-year-old daughter of Mr. and Mrs. Joe Betz, Mongolia, Markham township. Florence first of all forwarded a silk handkerchief to the Princess on the occasion of a birthday last April, and later in the year on the birth of the young Prince a letter of congratulations was sent over the ocean. Again the lady-in-waiting to the Princess acknowledged with thanks the communication from the Stouffville girl.

The Women's Missionary Society of the United Church held their first meeting of 1949 on Thursday afternoon, Jan. 6 in the church. In the absence of the president, Mrs. K. Campbell, Mrs. George Gunn presided. The annual reports were read, and one of the highlights was the treasurer's report (Mrs. F. Button) indicating the allocation of \$450.00 had been reached and also a bale valued at \$475.00 had been sent to aid the needy. Mrs. Woods and Mrs. Ross Winterstein, group leaders for this meeting, took charge. Mrs. Woods led the devotional in a thought provoking study on the aftermath of Christmas, also using the burning candle as a symbol of light following on into the new year. Rev. Mr. Davis spoke briefly on "Post Christmas Meditation" using a line from one of Irving Berlin songs. The song is ended but the melody lives on reminding us of God's Christmas gift to all, and asking the question, "What are we going to do about it, throughout the rest of the year?" Mrs. R. Winterstein very ably reviewed chapter two of the study book "West of the Gorges" which was greatly enjoyed.

The nominating committee presented the slate of officers for installation at the next meeting which are as follows:
