**1100th Pelt Ends Bounty Hastings Woman on Kill**

Mrs. Sarah Lee of Hastings is a kindly, little woman with a ready grin and a good word for everyone. But don't let that fool you; she draws a mean bead with her .32 calibre rifle as foxes and bears in her part of the country can testify. And if ammunition fails she can turn a stout stick into a trusty weapon as well.

Although a resident of Hastings, Mrs. Lee spends a good deal of her time on the 9th Line of Dummer township, where her husband owns a woodlot; and there is plenty of hunting.

Last week, the last on which fox bounties were payable in Peterborough county, she came into the office of the County Clerk and Treasurer to put in a claim for three foxes.

When asked if the three foxes were killed by her husband she assured the Clerk they were not. She shot two of them, she said, and the other one she clubbed to death with a stick when she found it in her hen-house.

The element of surprise was substantially heightened when she casually mentioned that she had also shot two bears this winter,

and had a lifetime total of four. Bounty Paid on 1100

Since the County began paying a \$3 bounty on January 1 more than 1100 pelts have been brought into the office of the County Clerk and Treasurer. As adjacent counties had discontinued paying the bounty on foxes in February, the Peterborough County Council decided to follow suit at the end of March.

On the last day 122 pelts were brought in. Cecil F. Hayes of Peterborough headed the list with 12 which he had shot in Otonabee and Asphodel; H. Hamilton of Havelock and Everett Sedgwick of Asphodel both shot 10.

**TORONTO FAST TIME TO START APRIL 24**

Toronto's daylight saving time this year will begin Sunday, April 24, and will continue until Nov. 27—two months longer than last year.

The city properties department said the extension of time over last year's dates of end of April to the end of September, is being instituted to effect a hydro saving next fall.

Daylight saving came into effect in Britain last week when the clocks were put forward one hour. It is expected that Markham,

**Dirt Farmer's Cow Smashes Records**

The thrill of a lifetime came to Jack Wauchope, young York County dirt farmer, when one of his Holstein cows, Daisy, completed an official test that far surpasses any record ever made by any animal of any breed anywhere in the world on twice-a-day milking. Lynnden Hartog Daisy, to give her her official name, produced in 365 days as a six-year-old 1324 lbs. butterfat from 28,422 lbs. milk, average test 4.66 per cent butterfat. The record was made under the supervision of the Dominion Department of Agriculture.

"Daisy" far exceeded the previous World Record on twice-a-day milking of 1139 lbs. butterfat made in 1947 by another Canadian Holstein, O.H.H. Abbecker Darkness owned by the Ontario Hospital, Hamilton, Ontario, boosting the record by 183 lbs. In fact no Holstein in the world has ever beaten her record even on three times-a-day milking. During her best day on test Daisy gave 11 lbs. (41½ quarts).

Jack Wauchope is a modest young man and when interviewed disclaimed any particular credit for Daisy's achievement. However, M. F. Cockburn, Agricultural Representative for York County said, "Whenever a great record such as this is made, the man is equally as important as the cow. I have known Jack Wauchope since he first started Calf Club work fourteen years ago when he was but 12 years old. He is the type of modern young farmer who has taken advantage of the Junior program sponsored by the Ontario Department of Agriculture, thus becoming a better farmer than would otherwise be the case. Jack Wauchope learned how to handle livestock through his Calf Club activities and this record proves that he has applied that knowledge well. He has been a member of either the Woodbridge or Schomberg Calf Clubs for the past fourteen years."

At the annual banquet of the York County Holstein Club held March 31, a silver tray was presented to Jack Wauchope from the Club members in recognition of Daisy's outstanding world record.

The world championship for yearly milk production on twice-a-day milking is still held by Don Crest Peg Top Burke, another Canadian Holstein who made her record of 31,395 lbs. milk containing 1108 lbs. fat in 1945 in the herd of Mrs. Roy Brown, Stouffville.

Raindrops come in virtually all shapes but doughnut.

Stouffville, and all other towns, villages, and many surrounding townships will fall in line with the big city, although there is no advantage to rural places in daylight time, but a lot of inconvenience, especially for farmers.

**An Invitation to All FARMERS**

**Margarine —**

Now that the manufacture and sale of margarine is legal in Canada, quite a few people have tried it out. In fact, with the exception of two classes of people, practically everyone has sampled the butter substitute. The exceptions are those people who don't like margarine, haven't tried it, and don't propose to — and others who haven't been able to buy it yet.

However, the status of the new commodity is still somewhat obscure. Prince Edward Island has placed its own ban on importation and manufacture. British Columbia has a ruling which permits sale of the stuff. And the various other provinces are in diverse stages of consideration of possible restrictions.

Most popular suggestion from the anti-margarine interests is that margarine be made some distinctive color, to differentiate between it and butter. In Ontario, for instance, margarine is colored yellow, and to a casual buyer, looks similar to butter. There is little difference in taste. Suggestions—ranging all the way from its natural color, white, through lemon yellow, pink, green and even brown.

Frankly, the main reason for producing any other color besides white seems to be to discourage the use of margarine in preference to butter. Of course, much to do is being made about the possibility of margarine being sold as butter. However, we frankly don't think anything further is needed to curb this than good stiff legal penalties. Any coloring would tend mainly to reduce the saleability of margarine. Green butter, for instance, would scarcely look very appetizing on the table—and for baking purposes, green cakes or cookies might not be so popular as those sporting the normal color.

In any event, regardless of what restrictions are put on the sale of margarine, it may be taken for granted that there will be a steady fight put up by consumer interests against any new restrictions. The people — particularly those of modest means—are having their first sample of something that looks, tastes and acts like butter—and costs considerably less. And they like it.

On the other hand the sale of margarine could seriously affect one of Canada's main industries, and that is something to think about. Put the dairy farmer on a basis of having to produce below a fair level and the big percentage of our people would suffer. If the dairy farmer cannot make a profit he cannot buy other goods.

**END FOX BOUNTIES**

Up in Peterborough since the beginning of the year hunters have found a bonanza in red fox pelts; but the end has come. On March 31 the county discontinued paying the present \$3 bounty on each pelt brought in. By that time it was expected that more than 1,000 pelts would have been brought in for the bounty money. After that date foxes may be killed but there will be no cash award.

**ATHA NEWS**

Atha extends much sympathy to Mrs. Ralph Nighswander and family in the passing of her daughter, Mrs. Russel Scott, Toronto. Miss Joanne Lamb and Mr. Albert Smalley, Stouffville, were dinner guests of Mr. and Mrs. Fred Draper on Sunday. Congratulations to Mr. Wellington Wideman who celebrated his 87th birthday on April 1st. Mr. and Mrs. Murray Dunkeld and family visited on Saturday evening with Mr. and Mrs. Powell. The Madill brothers entertained friends on Sunday. Mr. Eric Wallace spent the week-end with his parents here. Mr. and Mrs. Ernie Carruthers

and Ruth Ann, also Mrs. Carruthers were dinner guests on Sunday with Mr. and Mrs. Powell. Mr. Hurley and family of Toronto visited one day last week with Mr. and Mrs. A. Draper.

**FINED ON APPLE CHARGE**  
At Bracebridge, Ont., March 11, Bert Edwards, R.R. No. 4, Simcoe, Ont., was fined \$10 and costs for selling apples below the minimum grade requirements. This action was taken under the provisions of the Farm Products Grades and Sales Act of the Ontario Department of Agriculture.

April showers next.

**CASE IMPLEMENTS**

Wynn Bros. Ph. 141 Unionville

We have a full line of new Case Tractors, Disc-Harrows, Spring-tooth Harrows, One-way Plows, Seed Drills, Hammermills, Trailer-wagons, Threshers, Combines. We also have one reconditioned Massey-Harris Tractor, one Allis-Chalmers Tractor, used Binders, Mowers, and 2 used Pick-up Case Balers for sale.

We specialize in general over-all service.

**TAKE IT EASY!**

The New **CHOREMASTER**

Precision Built **GARDEN TRACTOR**  
EASY TO CONTROL  
EASY ON THE BACK  
EASY ON THE POCKETBOOK

● Your achin' back will stop complaining when you get a **CHOREMASTER**. This sensational new power tractor makes child's play out of cultivating and other garden chores. Powered by a rugged 1½ HP motor and perfectly balanced on an easy-riding pneumatic tire, the **CHOREMASTER** saves you years and years of back-breaking labor. When equipped with low-cost attachments, the **CHOREMASTER** cuts weeds, seeds, disc, cultivates, plows snow, bulldozes, etc., and a special attachment converts your own lawn mower into an efficient power mower. Manufactured by Special Products Division, Lodge & Shipley Co., precision machine builders. Call or stop in today, we'll be glad to arrange an eye-opening demonstration of the labor saving **CHOREMASTER** and attachments.
