

### Active Demand for Grain and Young Pigs

Farmers throughout Ontario are waiting for favoring weather conditions for a comparatively early opening of their spring seeding program. Haldimand mentions one field of oats sown in ground that was in good condition. Enquiries for registered seed and also for pasture mixtures are active in York, Ontario, and in fact all over the southern Ontario area.

Some of the seed growers in Ontario county say they are sold out. A typical comment is the Prince Edward report that "demand is keen for seed grain."

Demand for hogs and weanlings is lively across the province. Huron uses the phrase "extremely great" in reference to enquiries for breeding stock and young pigs. Ontario county: "Demand is good for bred sows; little pigs sell at \$12 to \$14 each according to quality." Frontenac: "Very few weanling pigs are being offered for sale, and few are being offered at \$14 to \$15 each, or \$25 a pair."

Flow of sap in the eastern counties ranges from light to fairly heavy. Glengarry says sale of baby chicks is one-third more than a year ago. Creameries in Renfrew have notified farmers that they will not be in a position to accept any second grade cream this year, because second grade butter cannot be sold in competition with margarine. Prince Edward: "Demand is keen for pure bred cattle for export. Price remains about the same."

Cattle have wintered well and fall wheat looks strong. As for farm labor, Wentworth says there is little demand at present, and Durham: "Satisfactory single help seems almost impossible to obtain."

Dundas and Leeds expect a greater flow of milk to cheese factories this season.

### Township of Whitchurch Local Improvement Notice

TAKE NOTICE THAT:

1. The Council of the Corporation of the Township of Whitchurch intends to construct as a local improvement the establishing of a new street being the present right-of-way known as Elm Grove, a section of the old Toronto and York Radial Railway and a part of Fairview Avenue and being the continuation of one right-of-way leading from the road allowance between the First and Second Concessions of the Township of Whitchurch in Township lot 67 westerly through the said Township lot 67 according to Plan 169, 194 and 240 of the Township of Whitchurch to Yonge Street and for the grading, gravelling and improving of the said right-of-way and the installing of culverts and that the Council of the Township intends to define the lands comprising the registered plans numbers 169, 194, 240, 288 and 334 and the Easterly 23 acres of the South half of lot 67 in the First Concession of the Township of Whitchurch as a sectional area in the said Township and intends to specially assess the whole of the cost upon the lands described as aforesaid.

2. The estimated cost of the work is \$5,000.00 of which no part is to be paid by the Corporation. The estimated cost of the said work shall be borne by a special assessment against the said lands to be paid in 10 equal, annual instalments at an estimated mill rate of 4 1/2 mills according to the last revised assessment of the lands comprising the special area.

3. Application will be made by the Corporation to The Ontario Municipal Board for its approval of the undertaking of the said work and any owner may within twenty-one days after the first publication of this notice file with the Board his objection to the said work being undertaken.

4. The said Board may approve of the said work being undertaken but before doing so it may appoint a time and place and any objections to the said work will be considered.

DATED at the Township of Whitchurch this 30th day of March, 1949.

John W. Crawford, Clerk.

### Widow of Former Uxbridge Minister Passes at Peterboro

One of Peterborough's older residents, Mrs. Sarah Moore of 526 Sherbrooke St., died on Tuesday last week at Civic Hospital after a lingering illness. She was in her 84th year.

Mrs. Moore was a well-known teacher, having taught nearly 20 years in Smith and North Monaghan townships.

She was the former Sarah Hamilton, daughter of the late Francis and Jane Hamilton who came to this country from Ireland. Her father before the turn of the century was a shoemaker in Peterborough. Mrs. Moore was born in Peterborough and except for a few years during which she resided in the West and at Uxbridge she lived in Peterborough.

From 1887 to 1891 she taught at the Middleton School in Smith, then she transferred to S.S. No. 2 in North Monaghan.

After teaching there a year she moved with the school to the present location of May's School and taught continuously until 1902.

Ill health forced her to give up teaching for three years and she went West to recuperate. Once recovered she returned to the classroom for another four years (1905-1909). She then retired.

Her husband the late Rev. Dr. James Edward Moore, whose pulpit was the United Church at Uxbridge, died 12 years ago. She was a lifetime member of Mark Street United Church.

### TRACTOR CRUSHES MANVERS FARMER

Bethany, March 28 — Walter Bradley, 53-year-old farmer was almost instantly killed Saturday night when he was crushed under the wheels of a tractor.

He had accompanied his nephew Douglas Logan to Oshawa in the afternoon for a load of steel which they were bringing home on a tractor owned by Mr. Logan and had returned as far as the village of Pontypool. Mr. Bradley had been standing on the side of the tractor, and although complete details are not available, it is believed he fell off. When Mr. Logan missed him he immediately stopped the tractor and walked back a few feet to where Mr. Bradley was lying on the road. Apparently the tractor wheel passed right over his body. He was rushed to the office of Mr. McNeil in Pontypool and was pronounced dead.

Mr. Bradley had farmed in the vicinity of Manvers' Station, Lot 21, Concession 4 of Manvers' Township almost all his life, except during the war years when he was employed at Ajax.

A colossal instance of spring grafting was afforded when Newfoundland was grafted onto the Canadian family tree.

### AUCTION SALE

CARS, WOOD & HOUSEHOLD FURNITURE

The undersigned has received instructions to sell by public auction at

GOODWOOD

Wed., Apr. 27

the following property belonging to the estate of the late

CHARLES WESLEY ALSOP

### VICTORIA SQUARE

Congratulations are extended to Mrs. Annie Mortson who celebrated her eighty-third birthday on April 9th.

On Tuesday evening, April 19th, the Lawn Bowling Club will hold another euchre and crokinole party in the community hall. Ladies please provide lunch.

The regular monthly meeting of the W.A. will be held on Wednesday evening, April 20th, in the Sunday School room. The service will be in charge of Mrs. Snider and her group.

Mrs. I. MacIlmurray and Mr. and Mrs. P. W. Willows spent Sunday with relatives at Uxbridge.

Congratulations are extended to Miss Coral Perkins who won first prize at the Youth for Christ Music Festival at Stouffville on Saturday evening.

Miss C. Heise, Mr. and Mrs. R. Perkins and Coral had Sunday evening dinner with Mr. and Mrs. S. Boynton and family.

Mrs. S. Robb spent a few days last week with friends at Shelburne.

Mr. and Mrs. Pearsall of Shelburne spent the weekend with Mr. and Mrs. S. Robb.

The regular monthly Sunday evening church service will be held on April 17th at 7.30. Special music will be furnished by the Willowdale Male Quartette. There will be other items of special interest.

The regular monthly meeting of the Mission Band will be held in the Sunday School room on Saturday afternoon, April 16th, at 2.30 o'clock. All the boys and girls are invited to attend.

Mrs. Wm. Large of Toronto spent Sunday with her parents, Mr. and Mrs. V. Westbrook.

### PLANT TREES AT SUNNYBROOK

Thirty-five trees have been planted on the grounds of Sunnybrook hospital. The trees were carried with special equipment 28 miles to the grounds. They include 21 sugar pine and three Austrian pine. The maples, two American lindens, six trees range up to 45 feet high.

### BURNED OUT LIGHT TUBES DANGEROUS

The Board of Health has warned users of fluorescent light that when the tube is burned out it should be disposed of by breaking under water. When broken the tubes emit a phosphor which when inhaled can cause chronic lung lesions. A serious skin disease may result if the broken bulb should cut the hands.

In the home used bulbs should be wrapped intact in paper or placed in a cardboard box and put in a rubbish container without breaking. They should not be disposed of in household incinerators, or placed within the reach of children.

### Stouffville Biggest Customer

The Stouffville Hydro Electric System is the largest customer between Toronto and Lindsay taking power from the Ontario Hydro Electric Commission. A recent report issued by the H.E.P.C. indicates the demand for each town and village and reveals that Stouffville draws a monthly demand of over 600 horsepower.

Below are the towns and villages between Toronto and Lindsay on this line of railway with their demand load, and the number of domestic customers:

	Horsepower	Domestic Customers
Stouffville	611	458
Uxbridge	565	478
Markham	529	380
Agincourt	439	184
Cannington	362	279

### MILK PRODUCERS ENJOY ANNUAL BANQUET

Over 200 milk producers and their friends crowded the Buttonville hall Wednesday night last week for the annual banquet and get-together of District No. 6. Al. Harvey provided a host of comic entertainment, and lucky draws added to the interest of the program. Prizes were provided by business men throughout the district.

Chief speaker of the evening was Mr. E. C. Clark of the Milk Foundation League who spoke on "Inter-Relations," pointing out that decline in yields from clover seeds and small fruits is due to lack of pollination through spraying of insects and weeds. He stressed the inter-dependence of nature and human relations in developing a better society. He struck a high note at the conclusion with reference to urban and rural society depending on each other.

The economic security or insecurity of the farming industry the largest in Canada, reacting in their purchasing power which in the final analysis is the welfare of the urban population.

Short addresses relating to the milk industry were given by Earl Kitchen, secretary-manager of the Milk League of Canada, W. Hoyles, president, and W. Wilmot, secretary-manager of Toronto Milk Producers' Association. Mr. Wilmot gave a concise picture of the need for co-operation of all diversified dairy interests in Canada. He passed on the information concerning the new agreement replacing the "Moon Award," and displacing the secondary price for fluid milk used for chocolate milk, butter-milk, and skim milk.

### Village of Stouffville WARNING To Dog Owners

In response to popular demand, the town bylaw forbidding dogs to run at large will be enforced from this date, and dog owners are requested to obey the bylaw by keeping their dogs on leash.

By Order of Council, Ira D. Rusnell, constable. April 1, 1949

...for making aluminum!

**RAIN!** It may sound strange, but it's a fact: Every thing you see made of aluminum was made with raindrops—even the bus for which you scurry to escape the rain!

It's like this: Rain falls on high land in our north country. It runs down as rivulets and creeks. It becomes tumbling rivers. By trapping it behind dams, and guiding it through powerhouses, Alcan develops electricity—and uses it to make aluminum.

Smelting aluminum eats up vast quantities of electricity. Enough goes into making a single ton to light your house for fifteen years!

Today Alcan is prospecting for still more waterpower because Canada needs more aluminum for use at home and to sell abroad.

**RAIN MEANS DOLLARS FOR CANADIANS:**

- Alcan jobs for 15,000 Canadians
- Alcan pay envelopes holding \$35,000,000 a year
- Alcan aluminum for more than 1,000 independent Canadian manufacturers—some 50,000 more jobs.

**ALUMINUM COMPANY OF CANADA, LTD.**  
Producers and Processors of Aluminum for Canadian Industry and World Markets
