Charge Ottawa Failed To Aid Ajax Industry At Claremont Meeting

Charging the Liberal government had made "empty promises" to the crown-owned village of Ajax during last June's federal by-election, Frank McCallum, Progressive Conservative candidate for the Ontario riding said only federal and provincial co-operation could help Ajax secure industries to support her population.

Mr. McCallum, who was address-

"We just got out of the house in time," said Mrs. Cooney. "My daughter fled in her nightgown. I ran down the street to telephone the fire department while she carried the children out. The youngest, Sandra, seven months, was sound asleep when it started." The Butterfields have another daughter, Susan, two.

"Neither my daughter nor her husband had time to dress. They ran out without any shoe. Everything they owned was burned. They haven't a stitch of clothing other than what they had on," said Mrs. Cooney.

Neighbors gave them clothes and sheltered them while, firemen, under Deputy Chief Mitchell, tried vainly to save the house. It burned to a shell in 15 minutes.

Mrs. Cooney said her daughter and son-in-law rented the house. They were married three years.

"The heat was so terrific it just melted their new washing machine," she said. "They also lost the radio, stove, beds, living room suite and everything."

The family was given shelter with Mrs. Cooney's other daughter and son-in-law, Mr. and Mrs. T. Thompson, Milverton Ave., Toronto. Miss I. Fletcher, who lives across the road from the cottage, is also organizing help for the stricken family. Only a small part of the loss is covered by insurance.

Deputy Chief A. W. Mitchell said a good supply of water from two wells and the wind blowing from the north saved a whole row of cottages nearby.

ing a meeting in Claremont Saturday night, explained that such co-operation had not been forthcoming from the Liberal government.

"The CCF was not and never would be in a position to aid the war-born community," he said.

Arthur Williams, former CCF MP for Ontario riding told a meeting at Uxbridge that if the CCF were elected, Canadians would receive a real Christmas present by the end of the year in the form of a national health insurance scheme that would only cost income earners 50 cents per week.

"Under present private hospitalization scheme Canadians pay approximately \$34 a year for only limited hospitalization in contrast to complete medical and hospital care in Britain for \$35," he said.

Liberal candidate, Walter C. Thompson, spoke at Oshawa.

Wilson Farm Near Balsam Is Sold

The sale was completed this week of the 100-acre farm on the 8th con. of Pickering, 1 1/2 miles south of Balsam, belonging to Richard Wilson. The new owner will be John Empringham of Scarborough Twp. who takes possession in April 1950. Mr. Wilson plans to retire to Whitby. Sale price of the place is reported at \$7,500, and the deal was negotiated by H. W. Moyer, Willoughby real estate agent, Stouffville.

It is an interesting fact that Mr. Wilson and the new owner's father were school chums many years ago. Mr. Wilson has occupied the place for quite a number of years although he did have it rented for some time.

How many things made of aluminum can you see on a street corner?

UNLESS you look at the pictures on the right, you'll hardly believe there can be so many.

Yet this is only a few of them. For aluminum has so many advantages that you may see hundreds of other things made of it — on the streets, in store windows, almost anywhere you look.

This is because aluminum is so very light, and strong, does not rust and has lots of other special features. Today more than 1000 Canadian

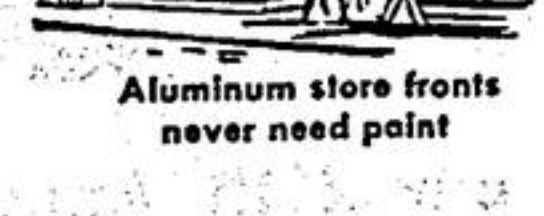

companies are making aluminum into so many kinds of useful and beautiful articles that no one can keep track of them all.

Why is this so? Because so many people all over the world want things made of aluminum we have been able to make more and more.

Because we have been able to make more, we have been able, over the last ten years, to reduce the price of aluminum ingot by 25%.

ALUMINUM COMPANY OF CANADA, LTD.

Producers and Processors of Aluminum for Canadian Industry and World Markets
MONTREAL • QUEBEC • TORONTO • VANCOUVER • WINDSOR

ALSO, aluminum traffic lane markers, parking meters, street light brackets, direction signs — and eaves troughs, roofs, window sills, awnings, shades — and railway cars, airplanes — and new things are being made of aluminum every day.
