Sugared Schumacher Feed

Cut your feed costs with

Quaker Schumacher Feed

Sugared Schumacher Feed is a great utility feed.

It serves for all types of stock.

Every ration for every type of stock on every farm can be built around it.

Sugared Schumacher Feed is better than corn, better than oats, better than barley, better than wheat feeds, because it is a blend of all four of them. It is better than all four of them combined because it carries in addition special minerals and molasses.

William Vanzant, 75 Buried Here Sunday

Native of Altona and for 50 years a resident of Stouffville, William Vanzant died in a Toronto hospital on Friday. The funeral on Sunday afternoon proceeded from L. E. O'Neill's chapel in Stouffville to the cemetery here for burial. Mr. Vanzant was in his 76th year, and suffered from cancer.

He was a son of Ludwig Vanzant and his wife Martha Lehman. William was a stationary engineer, and a steady worker. He lived in the west end of Stouffville but went to Toronto nine years ago, where he lived until last May when he went to Oak Ridges, Yonge St., where his son and one daughter reside. Twice married he is survived by his second wife, and by four of a family to his first marriage and two to his second marriage. They are Cora, Mrs. Bert Hopkins; Maud, Mrs. Robinson; Ann, Mrs. H. Hutchinson; and Rhoda, Mrs. E. A. Fournier, also Budd Vanzant. Rhoda and Budd are the children of the second marriage.

The family is well remembered and was highly respected by a wide number of friends here.

Now We Have Found "Smithy"

Last week the radio reported Sid Schmidt of Stouffville was overhauled by an unknown person in Toronto, and we were quick to report that it wasn't our Mr. Sid Schmidt of the Stanley Theatre. However, since last press day we have found the right Smithy. He is Sidney Smith of Dunville who is employed on the 6th concession of Whitechurch by Mr. Neil Weir.

Smith was in Toronto, met up with a young lad who appeared in need of a meal. He was hungry and Smith fed him, and in gratitude the young lad offered to conduct Smith to the street car line he was trying to locate. Enroute to the supposed car line, and in a quiet part of the street around the Allan Gardens, four men suddenly appeared from nowhere, grabbed Smith and proceeded to shake him up. Smith was battered unconscious, robbed of \$50 and was sent to hospital after police arrived. His youthful conductor escaped.

Cliff Hisey was forced to take a few days off when he sustained severe burns from escaping steam that unexpectedly went over part of his shoulders and arms while at work in Maple Leaf Dairy. Fortunately the burns were not deep, and no ill effects will be left. However, a burn is a terribly irritating painful injury.

Motorists waste many thousands of dollars paying fines for speeding to say nothing about those who become involved in accidents with endless cost to pocket book and health, but they never learn to keep within speed limits it seems. In Newmarket court last week 117 were charged under the Highways Traffic Act by York County police whom the Newmarket Era states are cracking down on speeders. Most of the offenders were charged while travelling over Yonge street way.

Visits Brothers and Sisters First in Eighteen Years

Mrs. Reg. McKay who with her husband occupies part of Mr. and Mrs. William Birkett's residence on Main Street west, has returned from a ten weeks' holiday to her native England. Naturally she was elated with the trip, and while delighted to visit the home folk for the first time in 18 years Mrs. McKay has no desire to become a permanent resident of the British Isles. She toured England, Ireland, Scotland, and visited Paris. Contrary to what many people think, food is fairly plentiful. The real trouble is the terrible lack of variety. For instance, there will be ample supply of oranges for a period, then they will pass off the market entirely, same can be said for bananas and other fruits. Reason for this is that when a cargo of one kind of fruit reaches them, that will be all to come for a year. Mrs. McKay enjoyed visiting her two brothers and two sisters in England whom she had not seen for a goodly number of years. The trip was made both ways by flying. On the return journey Mrs. McKay left the flying field in Scotland, and made Montreal, but had a stop in Iceland for a short time. It was learned after reaching Montreal that their ship had circled the landing field in Iceland for two hours before it could land owing to a storm in that region. Passengers were not aware of this fact however, and Mrs. McKay hadn't taken notice of the storm in the night hour.

Monday, October 10, will be set apart as Thanksgiving Day this year.

Little Terry Greenwood, who makes his home on Main St. east with Mrs. A. Smith had the misfortune to fall from a farmer's wagon on Thursday, sustaining a broken left arm. The little lad had the broken member in a cast on Friday and seemed to be accepting his plight with comparatively good grace.

More shareholders are needed for the Stouffville Arena. Have a part in your town's progress by investing today in a share. You'll be proud of your town's new ice palace, but you'll be more proud if you have a share in its being. Farmers too, who consider Stouffville "their town," are appealed to; to invest in years of recreation, both for themselves and their children. Call at the Company office now, (McCullough & Button), and pick up an application form.

A peculiar and unusual accident fell to the lot of one of our grocery proprietors in town, when Mr. Glen Ratcliff met with car trouble in Toronto last Friday. It seems that the hub cap from a car proceeding ahead of him came off, struck another car passing in the opposite direction, and then bouncing up into the air to come down on Mr. Ratcliff's new DeSota that is scarcely broken in. In fact it will never get accustomed to such an attack. The accident could have had serious results, since the hub cap came down on top of the sun visor, which saved the windshield. Had their been no sun visor, the cap would have crashed right into Mr. Ratcliff's face. As it is the sun visor can be repaired at much less expense than installing new glasses or perhaps suffer severe injuries to the driver.

Mrs. A. Fuller has returned to town after an absence of two years in Toronto. Mrs. Fuller has taken up residence in her own house on Main Street just east of the Presbyterian Church a few doors. During her absence the place has been occupied by Mr. and Mrs. Elmer Bentley who have secured accommodation at Mongolia.

One or two awkward situations have arisen where residents in Stouffville failed to obtain a building permit before adding a woodshed, hen house or garage to their property. It is always necessary to consult the building inspector before adding additions to buildings. The law provides that a permit shall be issued for each and every job, so do not proceed to build without a permit.

A wave of rumors concerning "bloody Toronto," has been circulating in town for some days. It was said that over a dozen provincial police cruisers invaded Main St. last week on a tipoff that one of the wanted slayers was in this vicinity. A local truck driver is said to have picked up a hitch-hiker who was minus his shoes. Another story had it that a well-known Unionville lady, had discovered a stranger seated on one of her lawn chairs in the wee small hours, and that he had hustled away into the night when she appeared. Some friendly folks at Agincourt gave lunch to a nervous stranger who came begging, and he took to his heels through the fields immediately the meal was finished. Provincial squad cars landed on the scene shortly after, but found no trace. Such were the street corner tales in Stouffville during the weekend, and just how much truth there is in any of them, we're not prepared to say.
