NEWS and VIEWS

Jim Thomas

Murray Miller, sub outfielder for the Athletics this season, will commence studies at O.A.C. in the fall.

Aurora let a contract last week for the installation of artificial ice on their arena, to the John Ingalls. The plant will be a direct expansion type requiring a building entirely separate from the arena proper in which to house the equipment. This is necessary due to the hazard of ammonia fumes in a type of refrigeration. However, once installed, the direct expansion system is believed to be economically operated than the brine system, predominately used.

With the abrupt ending of baseball our local towns will soon be turning their minds seriously to hockey. Bill Conlin reports that it still too early to state anything definite about Markham hockey intentions although a team is most certain for the coming season. A committee meeting will be held in the near future and from we should learn the details for publication.

It is reported that both Bob and Dick Bangay intend sticking around this winter instead of returning to the coast. They could add strength to any team. Last season Bob played senior hockey for Sidney, N.S., while Dick handled the rubber for Portland in the Pacific Coast League.

Hockey teams are on the move. Erie has just completed the improvements and enlarging of its arena, and Eddie Shore's ringfield Indians of the American League are moving in next week. The Leafs move into St. Catharines this week for fall training.

Pitcher Fined \$75

A charge of assault occasioning bodily harm arising from a "disrespectful" baseball game at Agincourt resulted in a \$75 fine for William Craven, 20, before Magistrate Hollinrake in county court. Craven was charged by Edward Crouch, 19, of Agincourt, who had a jaw broken and several teeth knocked out in a fracas at the ball game July 13. Crouch was pitching Agincourt and Craven was substitute pitcher for the West Hill team.

"Craven jumped on my back and strangled me," Crouch said. "Then I told him to keep his hands off me, and he asked me if I wanted to fight. I said 'no'." "Then I turned around and was going to sit down. It was then he hit me. I didn't strike any blows myself."

The game had developed into a ruckus following a contested decision by the umpire, it was said.

Old Stouffville Boy Still in O.B.A. Race

We were more than pleased this week to receive the following note from a well-remembered Stouffville district lad, who is still continuing his baseball career which he started here in town. We refer to Bruce Lehman of Delhi. We quote:

"I have been doing a great deal of relief pitching this year. We have a very promising young staff of pitchers, four in all. Just this very evening we took the 3rd game of a 3 for 5 series from Port Dover to win the Inter-County C. Score 5-0. The youngest member on our pitching staff pitched a one hitter. I relieved in the first game and second in the series. We have the makings of a splendid pitching staff. It is a pleasure to coach these youngsters."

On the whole we have a splendid team of local boys and with luck should go quite a distance in the O.B.A. 'C' playdowns.

The win today gives us the Inter-County Championship for the 3rd consecutive season.

We are sorry the Stouffville Intermediate boys were eliminated. We follow the local news in The Tribune with eager interest each week. Best regards."

Victoria Square Wins First Game from Elgin Mills

Victoria Square girls have their eyes on the championship this year as they took the first game from Elgin Mills 10-7. Catherine McArthur seems to be the mainstay for the 4th concession girls and has always been known at Markham for her pitching power. June Collard, back of the plate, aided in the winners' victory. They meet again on Tuesday and the result will be given in next week's issue. The series is the best two out of three.

Seek Aid from Province As Mills Close

With half of the lumber mills in Fort William, Ontario, closed, more closing every day, and five hundred men already out of work Fort William officials are looking to Queen's Park for aid to the lumber industry.

Officials say the bottom recently fell out from under the lumber industry, (not the retail price however), and experts agree that a new Provincial Government policy on timber is urgently needed.

Officials in Fort William say if something isn't done soon there will be two thousand five hundred men out of work in Fort William alone.

Open Season on Ducks, Geese, Are Extended

Ontario open seasons on migratory game birds:

Regulations under the Migratory Birds Convention Act have now been established setting the open seasons and bag limits on migratory game birds in Ontario. They contain several changes which will be welcomed by Ontario sportsmen. One is an extension of the open seasons on ducks and geese to fifty-five days.

The later opening (October 15th) of the duck season throughout all of Southern Ontario will be of great interest to sportsmen who have expressed a strong approval of such a change. It is hoped that by October 15th migrant ducks from the north will be mingled with the locally hatched birds of Southern Ontario and this will prevent the burning out of the locally nesting waterfowl in the first day of two of the season.

The season for Wilson's Snipe throughout the Province is October 1st to October 31st. Woodcock season is from October 1st to November 7th. The inclusion of seven days of woodcock shooting in November, will give sportsmen a chance at the flight birds which were missed last year because they came after the season closed. The same complaint applied to last year's duck season and should be taken care of by the extension of the season to December 8th.

Bag limits for ducks and geese remain the same as last year, namely 7 ducks and 5 geese per day, with a possession limit of 14 ducks and 10 geese, and a season bag limit of 25 geese. The season bag limit for woodcock has been abolished and in its place a possession limit of two-days' bag or 16 birds. Established bag limits for Wilson's Snipe remain unchanged at 8 per day, and 50 per season.

It should be noted that there is a close season throughout the year on Swans, Cranes and all other shore birds except Woodcock and Wilson's Snipe, and all migratory non-game and insectivorous birds. The possession of migratory game birds killed during the open season is allowed in Ontario until March 31st following the open season.

Fish Ponds on Farm Said Good Investment

Lake Success, N.Y., Aug. 25 — Every farmer would do well to be a fisherman right on his own property, Canadian and U.S. experts recommended at a session last week.

Fish ponds on farms reap large benefits in food, recreation and good farming practice, they told the United Nations scientific conference on conservation and utilization of resources at Lake Success.

Those from the Far East among the 450 scientists, engineers and administrators gathered at U.N. headquarters invited experts from the Western Hemisphere to make a first-hand study of fish farming, which is new to North America but has been used since at least 650 B.C. in China.

O. Lloyd Meehan of the U.S. Interior Department stressed that in North America the major benefit is in soil conservation.

A. L. Pritchard, Canada's director of fish culture, was chairman of the sectional meeting on management and cultivation of freshwater fish, and generally supported Meehan's statements.

He said fish farming is not practised extensively in Canada, but the Prairie Farm Rehabilitation Administration is investigating the possibility of seeding ponds with fish.

Need Regular Fishing Meehan explained that regular, heavy fishing of farm fish ponds is essential to maintain proper balance between food fish, such as bass, and the little fish on which they feed.

"Fishery management technicians and soil conservationists have a large educational job to perform," he said. "It is very difficult to convince the fisherman that ponds must be fished heavily to obtain maximum production."

Wrongly Educated "For more than half a century he has been educated to the idea of protection by closing areas to fishing and by regulation of size and bag limits."

What he needs to learn, he said, is that on small, artificially-stocked waters such as farm ponds, true conservation calls for heavy fishing.

Meehan said the U.S. government is highly in favor of the voluntary fish-pond program which got its start with the failure of many fresh-fish sources in rivers and lakes during the droughts of the 1930's. It believes work on pond construction will increase farmers' interest in and practice of soil conservation through good drainage, for example.

Bowmanville Juveniles have ousted Aurora from O.B.A. contention in this minor ball division.

Messrs. Bob McLeod, Bill Browning and Tom Hammond are displaying a handsome bowling trophy won at the big tournament in Agincourt recently.

Eight years were spent trying to lay trans-Atlantic cables. They snapped in mid-ocean.

Wingham Cow Has 2 Calves Month Apart

Believed to be the only case of its kind in Canada, a Red Poll purebred three-year-old cow has given birth to calves one month apart, on the Sunny Acre Farm of T. P. O'Malley and Sons, Culross Township.

One of a herd of 34 purebred Red Polls, the cow calved on July 19 and one month later gave birth to another calf. The event has attracted many prominent cattlemen to the farm.

According to Dr. John Fisher, Teeswater veterinarian, he knows of no other such case in Canada and only one other, which occurred in Australia.

McLAUGHLIN'S OSHAWA HORSE FARMS FOR SALE

Oshawa, Aug. 30 — Parkwood Farms, R. S. McLaughlin's show-place thoroughbred horse breeding establishment at Oshawa has been listed for sale, it was announced today.

The sale notice does not include the extensive racing stable operated by the automobile magnate. For sale are three farms, totalling 475 acres, equipment and a herd of Jersey cattle.

Officials said that if the property is sold, it would be necessary to sell the racing stock.

Mr. McLaughlin, who has made an outstanding contribution to horse racing and breeding in Canada, will be 78 next month.

Mr. McLaughlin now has most of his stable and two trainers at Toronto's Woodbine race track, and plans to race his horses this fall and possibly in the spring. He started racing and breeding thoroughbreds 9 years ago.

BLOOMINGTON

Mr. and Mrs. McGhee and family and Mr. Beckett of Coppercliff were guests of Mr. and Mrs. Elmer Spence on Saturday.

Mr. and Mrs. H. Kee and children, and Mrs. J. Kee of Orangeville, Mr. and Mrs. J. Rowe and son Ross, Miss C. Hill of Merlin and Mrs. G. McFadden of Durham were visitors for a few days last week at the homes of E. A. Story and O. H. Tranmer.

Mr. and Mrs. B. Shibley of Toronto were at Mr. J. K. Tranmer's on Saturday.

Mr. and Mrs. Blikey attended the C.N.E. on Saturday.

The well wishes of the community are extended to the newly-weds, Mr. and Mrs. Norman Lehman. The bride was the former Anna Hummel.

Mr. and Mrs. Gordon Ramer and son Alvin of Colborne were with his parents, Mr. and Mrs. Malcolm Ramer last week.

Mr. and Mrs. Eugene Baker have returned from their 10,000 mile trip to Alaska. It was an event of a lifetime, and happy to say the long journey was without the slightest mishap.

Mr. and Mrs. H. Shantz and Mrs. Tranmer motored to St. Catharines on Wednesday.

Barbara Brent's BUYS AND WHYS

MONTREAL.—There's a glorious feeling of accomplishment in a well-stocked jam cupboard. And with CERTO Fruit Pectin you get up to 50% more jam or jelly from the same amount of fruit. With Certo, too, results are sure if the simple directions under the Certo bottle label are followed exactly.

For Certo is the natural jelling substance in fruits, in concentrated form. So perfect jams and jellies can be made with Certo in about one-third of the time it formerly took by the long boil method.

Surprise For Your Youngsters' Back-To-School Lunch Baskets! . . . the special treat of these scrumptious Peanut Cookies made with FIVE ROSES FLOUR. That's the famous "for all-purpose baking" flour thousands of home-makers insist on. And you can be sure your Peanut Cookies will be the height of mouth-watering perfection when you make them with "Five Roses" like this:

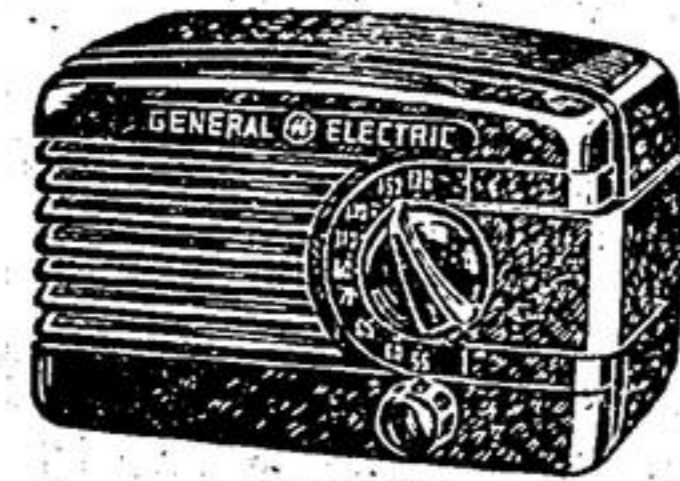

2 cups sifted Five Roses Flour 2 eggs
2 cups sifted Five Roses Flour 1/2 tspn. vanilla extract
2 tspns. baking powder 1/2 cup milk
1/2 tspn. salt 1/2 cup chopped peanuts
1 cup sugar

Sift together flour, baking powder and salt. Cream together shortening and sugar until light and fluffy. Add eggs and vanilla extract. Beat well. Add flour mixture to creamed mixture alternately with milk. Add peanuts. Drop by teaspoons on ungreased baking sheet. Bake in hot oven 300 deg. F. for 10 minutes. Makes 4 dozen cookies.

The Crop's In! . . . The Soup's On! Yes, every year at Leamington and Wallaceburg, Ontario, thousands of pickers gather a rosy, rich harvest of specially grown tomatoes for Heinz and you! So that all year 'round you can have the deliciousness of HEINZ TOMATO PRODUCTS . . . Heinz Cream of Tomato Soup — Heinz Tomato Juice — Heinz Ketchup and Heinz Chili Sauce! I'm stocking up now on these "famous four" . . . and counting on them to live up meals from this September to next! The soup as a steaming first course — the juice as a cocktail — the ketchup and chili sauce to add zest to the flavour of main dishes . . . your family will love them all! That's why I suggest you keep well supplied . . . "pick" the pick of the Heinz tomato crop from your grocer's shelves now!

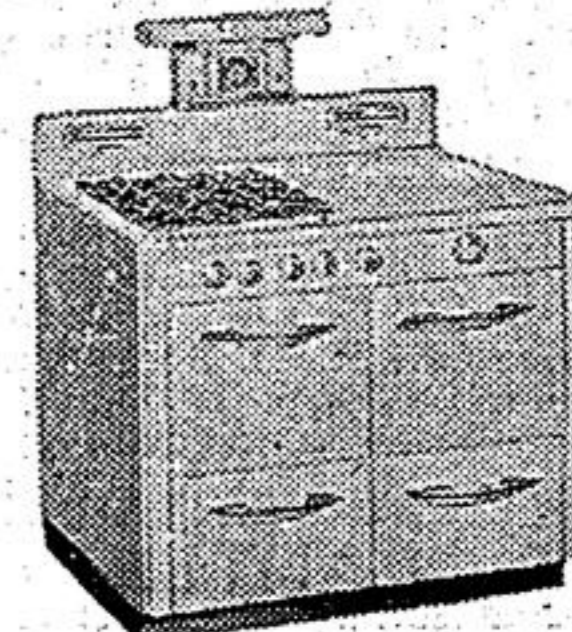

Plums, Pears, Grapes . . . all the autumn fruits are at their best now — full of wonderful, sun-ripened flavour. Enhance their flavour in a sparkling JELL-O mould, such as this: Dissolve 1 package of Lemon Jell-O in 2 cups hot water. Chill until slightly thickened. Fold in 1 cup diced pears and 1 cup diced plums. Turn into mould; chill until firm. Unmould at serving time; garnish with whipped cream. Fresh-fruit tanginess, gay colour, perfect consistency make Jell-O combine beautifully with a variety of fruits . . . make it delicious served plain, too. There are seven grand "locked-in" flavours of Jell-O Jelly Powders.
