Bored By It All

That look of boredom on the face of Miss Silver Domino, owned by W. S. O'Neill of Denfield, Ont., stems from fact that she is used to all publicity and fussing she is receiving

here at Canadian National Exhibition by Joyce Bellamy. After all she's a queen. She won top honors in Hereford show last year at C.N.E.

similar equipment for larger tractors.

Many farms are using a one-plow tractor in place of two or three horses. This size of tractor will haul most two horse equipment under normal field conditions. In addition, the tractor will supply belt power for various operations.

Large farms that use two tractors or more, may find the one-plow tractor useful, as it will do many of the lighter jobs which are always numerous on a large farm.

When operating a one-plow tractor it should not be overloaded. For example, some operators endeavour to draw a 5-foot tandem disc harrow, and greatly overload the tractor which may be designed to pull a 5-foot single disc. This results in reduced efficiency and dissatisfaction.

These few observations leave little doubt as to why the one-plow tractor has become popular. It is really a small unit as versatile as the large tractors.

Whitchurch Resident Thirty-Five Years Wm. Botham Dies

In ill health for the past year, William Botham died quite suddenly at his home, concession 2, Whitchurch, on Sunday, September 4th. Mr. Botham who was born at Lansing had lived for the past 36 years on his farm in Whitchurch. Just recently Mr. and Mrs. Botham had celebrated their 45th wedding anniversary. Surviving are his wife the former Annie Leeder; three daughters, Mrs. R. J. Monkman (Evelyn) of Lansing, Mrs. R. C. Bayeroff (Gertrude) of Gormley, Mrs. W. R. Milne (Margaret) of Toronto; one son Harold of Aurora, 10 grandchildren and one great grandchild.

Conducted by Rev. E. C. Moddle assisted by Rev. William Clements of Minnesing, the funeral service was held from Thompson's Funeral Home on Tuesday. Pallbearers were Lambert Willson, Chesley Ball, Leo Nidderly, Prof. E. Smith, Herb Smith and Archie Monkman. Interment was in Aurora cemetery.

"Chemistry?"

... I KNOW HOW TO SPELL IT!"

WITH LITTLE GIRLS, chemistry is just a collection of letters. To them it's smart to be able to put them together correctly. But chemistry means much more than just a classroom spelling triumph.

A turn of the tap brings water purified by chemistry. The farmer grows good things to eat because his land is fertilized by chemistry.

Frocks and other wearing apparel are coloured with dyes; their fabrics are improved by chemical treatment. Chemistry helps make many other things... brushes, paint, book-bindings, "Cellophane", nylon. Those colourful, useful plastics are also products of this great science.

And it's going to make others, for the chemical industry is always forging ahead on the trail of newer and better things... with the C-I-L Oval as the symbol of an organization devoted to serving Canadians through chemistry.

For instance:

"CELLOPHANE"

THE SMART, modern packaging material that protects foods, cosmetics, fabrics and so many other things, shows them to advantage at the same time. "Cellophane" is

a typical product of Chemistry, made by Canadian Industries Limited, Head Office, P.O. Box 10, Montreal.
