THREE-LEGGED TURKEY
Woodstock, Oct. 25—A turkey being fattened up on W. H. Williamson's farm near Eastwood has one extra leg attached to the knee of one normal one.
The five-month-old bird is otherwise normal, but has difficulty walking and will not likely bring a higher price because of the extra leg.

Ontario County Junior Farmers

The Ontario County Junior Farmers met at the Whitby Township Hall, Brooklin, October 25th, with members from four Junior Farmer Clubs present, the Uxbridge Junior Farmers; the Brooklin Junior Farmers, as well as the Unionville Junior Farmers from York County, and the Orono Junior Farmers from Durham County, who were guests of the Ontario County Junior Farmers for this meeting.

The meeting was in charge of Mary Boyes, Pickering, president. The guest speaker was Mr. Ross Beattie of South Simcoe County, the Past President of the Provincial Junior Farmer Association. Ross has just returned from a Rural Youth Conference in West Virginia, which was attended by delegates from the American States, Korea, Germany, Sweden, etc. He gave a talk on ideas and views which he had picked up at this conference. Ross also led in a singing.

Doris Risebrough, and Maustyn McKnight, Uxbridge, both gave good reports on their experiences at Provincial Junior Farmer Camp at Geneva Park, Lake Couchiching. They also entertained the crowd with a few ideas which they brought back from Camp.

Jack Pearson, Uxbridge, conducted a few amusing contests. The entertainment was concluded (while lunch was being prepared by the girls), by passing around in the darkened hall many queer objects which he announced as various parts of the anatomy of the remains of one of Brooklin's

Closing Dates for Christmas Overseas Mails

This year, gift parcels of food-stuffs and comforts will be just as welcome as ever at Christmas for those overseas who are still living under "austerity" conditions.

The Canadian Post Office, again urges the public not to delay, but to mail for Christmas overseas just as early as possible.

For the guidance of the public it announces that the following closing dates have been set for the overseas Christmas mails:

November 8th—The Continent—Letters and Parcels.
November 15 — The United Kingdom—Parcels.
November 29th — The United Kingdom—Letters.

Mailers are reminded that Gift parcels, if bona fide and unsolicited, may be mailed up to 20 lbs. weight to individuals in the United Kingdom, but must be plainly marked, "Gift Parcel."

Parcels containing food cannot be insured.

To expedite the delivery in the United Kingdom of gift parcels containing only food, discarded wearing apparel or soap, a Yellow Label (No. 61) obtainable at Post Offices, should be attached. The usual Customs Declaration Form (91B) fully completed, must be affixed to all parcels addressed abroad. Care should be taken to see that the non-adhesive Customs Declaration Form (15B) and Dispatch Note (16B) are completed and forwarded with the parcel where necessary.

Customs Declaration Form (91B) should bear in the space provided an alternative address if possible, or an indication of disposal desired i.e., return at mailers' expense, or abandon, in case of non-delivery; otherwise such undeliverable parcels containing food or used clothing will be distributed through charitable organizations in the United Kingdom.

The total value of the contents of parcels sent to the United Kingdom or other countries without an export permit must not exceed \$25.00.

Mailers are urged to pack all parcels firmly and securely in strong corrugated containers, wrapped tightly in several folds of thick wrapping paper, and securely tied with strong twine.

prominent Junior Farmers, a native of Locust Hill, I believe.

OTTAWA LETTER

(By Jack Smith, M.P.)

The Abbott budget presented last Thursday evening as expected contained few surprises. First presented last March it released about 750,000 citizens from income tax rolls and reduced total income taxation for Canadians by some 270 million. The reductions gratefully received could hardly be expected to be increased now.

This budget which in large measure went into effect last March is unique in that before discussion or adoption it has had seven months trial and more than that has had a pretty general endorsement by the voters in a general election.

The Finance Minister in his review of general economic conditions said he expected the present high level of income to continue throughout 1949.

The surplus for last year was 595 million dollars which was 20 million dollars more than estimated in March, and the surplus for the current year is estimated at 87 million, which if it is realized will be taken from the national debt.

During the past three years the national debt has been reduced by 1,730,000,000 which is a notable achievement. Nevertheless it must be remembered that the total national debt still stands at 11,690,000,000 — certainly a sizeable figure.

"Doug" Abbott as the Minister of Finance who made his fourth budget speech last week is familiarly known around Parliament Hill as a popular Minister of the Government. Fifty years of age, he looks younger, and is a very personable fellow with an easy and off-hand manner and very easy of approach. Born at Lennoxville, Que., he was a practicing lawyer in Montreal before his election to Parliament in 1940. He joined the Cabinet first as Minister of Defence in April 1945 and became Minister of Finance in December 1946. He is married, has one daughter and two sons, and in religion is an Anglican.

Famous Visitors

Many famous people visit Ottawa, but no visitor in many years created so much interest as Monday's visitor Prime Minister Nehru of India. This talented, scholarly and spiritual man is today an important world figure and as successor to Ghandi is revered by India's teeming millions. Monday he addressed the members of the Senate and the House of Commons and his words were listened to with interest and attention by more than 400 who crowded the Parliamentary galleries. I was very much impressed by his sincerity and apparent devotion to his people as were all who heard him here.

Another word figure who made a favourable impression here recently was British Foreign Secretary Ernest Bevin. He is a big man, plain spoken and of few words. He started life as a farm laborer and worked as a shop clerk, dray driver, and dock worker. He worked his way up to a place of leadership in the trade unionist movement and first entered the government of Winston Churchill during the war. Today as Foreign Secretary in the Labor Government he is a leader in world affairs.

Phone Bills

The Bell Telephone Company has made application to the Board of Transport Commissioners for an increase of from 20 to 25 per cent in telephone rates. The government is interested not only because such an increase would affect so many Canadian citizens, but also as a very substantial customer. The Government's phone bill for Ottawa alone in 1948 amounted to \$373,052.90, and in addition there are telephone accounts for government offices all across Canada. The proposed increase would mean an additional \$80,000 in the Ottawa phone bill. M.P.'s are supplied an office telephone but are personally responsible for all long distance calls.

Rental Control

A decision on the subject of rental control is likely to be announced soon. The housing situation in all parts of Canada has been the subject of an intensive government survey and it is apparent in many places an emergency still exists as far as housing accommodation is concerned. It is very unlikely Parliament will remove controls as long as the conditions remain but there likely will be amendments to make allowance for changed conditions and with the view to correcting existing cases of inequality and hardship.

As the session settles down routine business the regular standing committees have been organized. The regular standing committees are as follows: Privileges and Elections; Railways, Canals and Telegraph Lines; Private Bills; Banking and Commerce; Public Accounts; Agriculture; Standing Orders; Marine Fisheries; Mines, Forests & Waters; Industrial Relations; Debates; External Affairs; Printing.

Committee membership ran from 10 to 60. They meet throughout the session and discuss detail matters which may be referred to them. Witnesses called and questioned, briefs sent and in general consideration of bills and resolutions is a much more thorough and detailed manner than in the Committee. A great deal of the important work of Parliament is done in Committee.

BROTHERLY LOVE DIDN'T SAVE THEM

Two brothers in South Carolina last week were instantly killed when their two cars collided head on. The killed were identified Henry Walker 25, and Carl Walker 24. Henry was driving south and Carl was driving north on the same highway, but the instant they were both before Pearly Gates."

8000 yearly growth of population is overcrowding Malta.

You can Save and be Safe

A driver carefully trained to drive in all sorts of weather and all sorts of traffic—a bus equipped with the best safety devices and regularly inspected—these are the added safety features you enjoy at low cost when you travel by bus.
