RINGWOOD

Where's there a man that can equal the length of years lived by Mr. Ab. Summerfeldt, who can show the alertness of this individual who last week celebrated his 88th birthday. Monday he was seen being ordered away from the woodpile by his good wife because the wind was raw and it wasn't fit to be there. Ab. was bent on sawing wood, but did decide to retire until the weather man becomes more comforting. In honor of his birthday friends gathered at the home here in Ringwood, from Toronto, Unionville, and hereabout, to offer congratulations and enjoy a few hours with this couple who know how to make friends welcome. Mr. Summerfeldt is the oldest living ex-reeve of Markham township, and gave long years to public service in the capacity of councillor and to his church at Unionville.
The funeral of the late Louis Brownsberger, who died at Newmarket on Thursday of last week, took place on Tuesday afternoon, from the Chapel of L. E. O'Neill, Stouffville to Dixon Hill cemetery. Mr. Brownsberger was a resident of Ringwood for many years and is survived by an only son Earl of

Feed the Babies

No matter how busy you are, this Spring, don't lose sight of the importance of giving your "young stuff" an extra-good start. Those first few weeks are the time when they set their course in life, for life; and the time too when they make best use of their feed.

Did you start your chicks on Chick Startena Checker-Etts last year? If you did, we don't need to tell you what a "flying start" these Checker-Etts give chicks — high vigor, high livability, fast growth. If you didn't, ask someone who did — he will tell you! Start your chicks right — feed...

The pigs that make you money are the growthy fellows who get away to a good start, and keep on going. That calls for good feed for both the sow (she has to have it to milk well) and the litter. Balance your chop with the additional protein, minerals and vitamins they need...

Once field work opens up, you haven't much time to spend on feeding calves. Here's a way that will save you time — save you milk and money, too, and raise real dairylike youngsters, growthy and thrifty. Many of our best dairymen follow this Purlina Plan, and report first-rate results.

and Turkeys too!

So many turkey raisers start their poults on Turkey Startena Checker-Etts that if you raise turkeys you are almost sure to have heard about their results, first-hand. Now, while you're laying your plans, bear in mind what you've heard, and decide that this year you are going to have results like that! Ask for...

100 lbs. gain in firm condition while she's dry usually means 2,000 lbs. more milk in a cow's next lactation. Build her up with Purina's special ration...

At present grain prices, you want all the milk you can get out of your grain ration. Balance it with Cow Chow — or, if your bins are low, try Milk Chow, straight.
