### BOGUS MONEY IN ALLISTON

Bogus money was being passed in the town of Alliston last week, police there allege. A man and his wife were charged. Stouffville-Markham district has been victimized since phony money was tendered recently at several stores. Keep your eye open when exchanging money with strangers. Restaurants, stores and gasoline stations, are the places mostly sought to pan off bogus bills on.

### 40 AFFECTED BY GAS AT EASTER SERVICE

An Easter tragedy was narrowly averted in a seldom-used church at Newton, near Listowel. A nine-year-old boy was overcome and 40 members of the congregation attending special Easter service in the Presbyterian church were affected by coal gas fumes which seeped through the building. Cameron Waddell, who was seated near a register, collapsed and fell from his seat before the service was halted.

### UP GOES DOMESTIC DRINKS

Tea is boosted 4c a pound, coffee 10c, so that the domestic cup will soon be as expensive as barroom beverage, says a mournful widow. It would be real news nowadays if we were able to report the price of something having taken a drop.

### Nursery School News

(by Kay Yearsley, supervisor)  
Quite often when discussing nursery schools, we are asked, "Isn't three and a half a rather tender age at which to begin school? I didn't go until I was six."  
The experts generally agree that a full day of social activity for any pre-school child is too much. The child needs the serenity of being alone during some part of his day. He also needs the security of being with his family who love him. This is a personal relationship for which there is no substitute. However, the child is also a member of society and must learn to accept responsibility as much. He has to learn to co-operate, to give and take. In the last generation these lessons were generally learned by being a member of a family. Because families were larger, there were nearly-always playmates a year or so apart in age. In other words, the family was a nursery school unto itself. The child, especially from a small family, will more readily follow the routine of a nursery school because he wants to be with and be like his fellows. The only discipline used is to isolate the child from the group. He is made responsible for his unsocial behaviour. We explain why he is put by himself and before he may come back into the playroom he is asked if he can "manage". To put a child by himself with a book or a toy may seem to be pretty flimsy discipline but to make a child responsible for his own actions is more effective than spanking or nagging. The approach at school is on an impersonal level, reasonable, logical. Mother may say "Get washed, because I want you to." We say, "Let's do it because it is time now and when our hands are clean we can have our nourishment." We consider the child as an intelligent human being who will respond to positive suggestion. This method is used with even younger children in the city nurseries.

### NO BARGAINS YET IN HOUSES

No immediate price drop is in sight for houses, says The Financial Post. In fact the pressure is still the other way. Cement, steel gypsum lath and wallboard, plaster materials, lumber, nails, brick are being subjected to strong price pressure. Some of them have moved up in recent months, could go higher. Few if any key materials will be down. Pressure is mounting again under building wages. Employees are determined to hold the wage line. All increases by unions have been rejected. Plumbers are on strike in Ottawa and threatening strike in Toronto and elsewhere. Other building trade unions seem equally determined.

Because of winter's extreme cold, the railroaders consider the Hornpayne division of the C.N.R., in Ontario one of the toughest on the continent. On completion of a 1,150 mile pipeline, it will take 26 days to move a barrel of oil between Edmonton and Superior, Wis.

The six Harding children, victims of the worst residential fire tragedy in Scarborough's history, were buried on Monday at Prospect cemetery. Six white caskets, covered with red roses and yellow daffodils, were carried by 34 school boys, all friends of the children. You'll want to buy something at the United Church W.A. home-baking sale this Friday afternoon. Sport Trousers, ready-to-wear Suits and Overcoats, at right prices at F. E. Rae's Tailor Shop, Spofford block.

Hamilton River in Labrador is 600 miles long.

A railroad's real worth lies not in the dollars and cents it earns but in what it means to the territory it serves.
