And I'm particularly attracted to the very definite economy of Jell-O Jelly Powders. At a few cents a serving, I know of no more delicious dish to serve to family or friends.

Hello Homemakers! This is the season when holiday folks come to visit for the afternoon or the evening. The emergency calls to mind the modern song "If I'd known you were coming I'd have baked a cake." Perhaps this may be timely reminder for you and me. It is so easy to beat a hatter made from a packaged cake mix and pour into paper baking cups, then into a preheated oven of 375 degrees for twenty minutes.

Small cakes do not have the same tendency to fall that a large potatoes, whole tomatoes, green square one does and so you may pepper rings, refrigerator cake. open the oven door after fifteen minutes to sprinkle nuts on each one. A topping of chopped nuts or shavings of candy will save the time to frost the cakes.

For company meals during the summer there's nothing better than a "cold" plate. Don't be afraid of plain fare when its tasty and attractively served. For instance if you planned to serve a bread and milk pudding, make it and top with a spoonful of jelly or garnish with a mint leaf. If you haven't enough milk in the house use 1 cup condensed milk and 3 cups water. If there is not sufficient time to bake bread pudit in a pan in the pressure cooker and steam for 10 minutes.
