**S.H.S. NEWS**  
 It's fall again and time for the local High School Field and Track Meet. On Tuesday, Oct. 3, Stouffville High held their field day and the response was wonderful, especially from the first formers.  
 This year it was decided that awards would be given to the first five in an event instead of the first three as in previous years, and all points went toward your class. This gave more students a chance to show their ability and attain marks for their class.  
 The following are the champions of the meet for 1950-51:  
**Girls**  
 Junior—June Smith, 55 points; Marg Reid, 32 points.  
 Intermediate—Helen Snowball, 53 points; Isobel Keffer, 51 points.  
 Senior—Marion Atkinson, 56 points; Shirley Schell, 45 points.  
**Boys**  
 Junior—Graham Frisby, 85 points; Eric Davis, 72 points.  
 Intermediate—John Davis, 52 points; Jim Bodendistel, 43 points.  
 Senior—Willard Meyer, 56 1/2 points; Ron Smith, 42 points.  
 This is how the classes stand as results of all the points attained by its members.  
 The winner, Grade XIII with an average of 13.8; Grade XII, 13; Grade XI, 9.9; Grade XA, 7.9; Grade XB, 6.4; Grade IXA, 4.3; Grade IXB, 2.4.  
 All in all it was a wonderful success and we only hope we can hold our standard high at the Inter-School Field and Track Meet on Friday, Oct. 13.

 The Markham Fair classes for light horses and ponies were well filled and included several of the top show stock of the country. Mr. Charles Gilbert, who judged the ponies, and Mr. Sam Hastings who judged the light horses did a fine job again this year.  
 Miss Betty Rae again rode her outstanding pony "Lea of Daviburn" to victory in the saddle pony class.  
 "Tiny Babe," a young Shetland pony, owned by Lloyd Weatherill, was placed second in the single harness pony under eleven hands.  
 Mr. Gilbert Beck showed "Mitzi" in the single harness pony over eleven hands and won the class. "Mitzi" and "Sonny Boy" were placed first in the tandem and second in the team classes.  
 Mrs. L. F. Flaska entered her beautiful saddle bred Palomino "Sherry" which was ridden by Betty Rae. "Sherry" was placed first in the saddle horse class.  
 At the Woodbridge Fair on Monday, Mr. Lloyd Weatherill and Mr. Gilbert Beck entered their ponies in several classes. Mr. Weatherill's pony "Tiny Babe" was placed fourth in the single harness class. In the single harness class over eleven hands, Mr. Beck's pony "Mitzi" was placed second to "Ruby Jean Davigold," owned by Mr. Lorne Cousins. "Mitzi," a Welsh bred pony, is given credit for putting up such a grand show against "Ruby Jean," a Hackney bred pony, which we understand, only beat her by a slight margin. In the team class "Mitzi" and "Major" were placed first.

**Visits Ohio Farms**  
 By Claude Brillinger  
 manager of Stouffville Co-op.  
 On Sunday morning, October 1st, a group of 24 men and 3 ladies left London, Ontario for a tour through the State of Ohio, one of the most progressive states in the U.S.A.  
 The group was composed of Co-op directors, managers and the vice president of the United Co-Operatives of Ontario in Toronto.  
 For four lovely days with temperatures ranging in the 30's we visited farms, local and central Co-ops, fertilizer plants, dairies, creameries, Insurance Co's. and radio stations!  
 The state of Ohio from a viewpoint of a Co-operator is the essence of perfection. The Farm Bureau in the States is the same as our own Co-operatives in Ontario except they are in many more fields of merchandise and more extensive plants. For instance The Farm Bureau Insurance Co. is the 3rd largest in the states and is only covering 12 states. They have just completed building a new five million dollar building to house their activities and are growing so rapidly that another huge building will be started in 1951.  
 The farms in Ohio are almost entirely growing cash crops such as wheat, soybeans and corn. This according to Louis Bromfield of Malabar Farms, which we visited, is depleting the soil to such an extent that unless soil conservation is practiced soon, the top soil will be lost in another ten years.  
 On Malabar Farms by careful building up the soil with legumes over a period of 5 years the unbelievable growth is evident on 600 acres of the finest crops of Alfalfa I have ever seen. The roots go down in the ground for a depth of 20 feet which was proven to us at the time of our visit.  
 One Co-op fertilizer plant which we visited of which there are four in the state had a capacity of 400 tons per day and were working to the limit in order to supply all the fertilizer for wheat seeding which was just beginning on October 1st.  
 The farmers in Ohio have one great advantage over our farmers in this district and that is they have no milk quotas from the dairies of if they have do not have any second grade or any surplus milk. The Co-op has set up a dairy, creamery, and powdered milk plant which takes all the surplus milk off the market for powdered milk and also acts as a distributing agent even to large corporations such as Borden's. This seems to work beautifully for the farmer and he is not discriminated against to the degree he feels he is here in Ontario.  
 The trip covered a distance of some 1200 miles and took four days to complete. I felt that we can learn a great deal from our American friends and also they can learn many things more conservative in nature from us.

1. Raises or lowers headers or cutter bars without effort.
2. The one-way cylinder does not "freeze" the lift. Leaves it free to raise and lower over obstructions without damage.
3. Quick coupling—one hose, less bulk and weight to move from one implement to another.
4. Plenty of power for a quick, sure lift.

A small investment will make your farming a lot easier. Stop in and ask us about it.
