NOTES and COMMENTS

Up to the Workers Unless Canadian Government policies are careful, tariffs on goods imported from Japan are going to be too

low to protect the interests of Canadian workers. Believers in free trade as an economic theory will not go to the extent of arguing that the plan should be carried in practice to the point of admitting to Canada the pro-

ducts of workers paid a few cents per hour - as in the case in Japan. Remember, these Japanese workers have available the same machines and tools with which to produce as are at the disposal of the Canadian workers. They have, or can

that the Japanese worker is paid a pittance, while his Canadian competitors have a decent standard of living. There are plenty of interests in Canada eager to exploit the cheap labor of Japan. There are importers who would like to handle Japanese goods. There are consumers who do not care what happens to Canadian workers, if they can

develop, the same skill. The difference between them is

buy goods a little more cheaply. Unless Canadian workers take a stand about all this they need scarcely be surprised to experience the unemployment, unless they are willing to take such cuts in wages as will permit them to compete with Japan.

Municipal Bodies and the Press

Partly because there are a number of new members - on municipal bodies this year, and party because we feel the matter should be re-stated for all, we publish below some extracts from a booklet, "The Municipal Council in Ontario," which outlines in clear manner the question of the relationship between municipal government and the

"While it holds no official position in municipal government the press plays an important and useful part in its operation. It is largely through the columns of the newspaper that the citizens obtain their information with respect to what matters are being dealt with by their council and their disposition. In this way the press serves as a connecting link between the council and its people and serves to protect the electors and taxpayers by keeping councils under close scrutiny.

"While the representatives of the press have no special rights they have the same right of attendance at council meetings and access to public records as other inhabitants of the municipality. Although the representatives of the press may be excluded from committee meetings experience shows in the long run, in most matters, it is better to have the representatives of the newspapers get the correct story first hand than to ge a garbled version of the proceedings by indirect means.

"Most newspapers can be relied upon not to publish information which it is clearly not in the public interest to have published. In fairness to the representatives of the press, however, it should be remembered that their business is to get news and not necessarily to print only what the council or a member of council wants to be published.

"There is probably no other agency in a community that can do more to promote or obstruct good municipal government than the local press."

CONFIDENTIALLY YOURS, the popular new week-end newspaper column, presents this Great and Easy Contest. This is all you have to do: Find and circle 19 letters of the alphabet in this column, which if placed in order, would spell CONFIDENTIALLY YOURS. Here's a winning tip, just read back a few lines and you will find the word "Contest". Circle each of the first three letters and you are on your way to the Big Prize Money! You will find the remainder of the letters scattered throughout the column. The order in which they are circled does not matter. You may circle the letters in this column or on a separate slip of paper write the complete words from which you took the key letters which spell out your solution. These key letters must then be circled. In this way you can send in as many entries as you wish! Contest closes March 31st, 1952. Be sure to include your name and address. Only first class mail with sufficient postage accepted. Remember \$2,000.00 is the First Prize if correct solution contains a box-top, label or facsimile from any of the above products. THERE ARE 143 OTHER PRIZES FOR A GRAND TOTAL OF \$5,000.001 Major prize winners' names will appear in this column within a few weeks. A complete list of winners will be furnished on request. Mail your entries and enclosures to CONFIDENTIALLY YOURS, P.O. Box 350, Station H, Montreal. Increase your chances of winning by rushing as many entries as possible.

Only The Very Rich could afford to drink tea in the days of Queen Elizabeth. Tea taxes in England were so high that tea smuggling was a common occurrence. The King's men whipped and hanged the daring smugglers, but they were regarded more as heroes than as criminals by the people. For tea, even then, was a much-sought-after beverage. In those

days, it wasn't blended and would be almost unrecognizable as tea to us today. So I can't help thinking how lucky we are to have, within "pocket-book reach" of all of us-a tea blend as superb as RED ROSE TEA. Ever tasted it? Well, dol And, by the way, you'll like Red Rose Coffee as much as Red Rose Tea!
