Dan has now taken a position with the Devon firm in Toronto. Always an ardent sports follower he was in town on Saturday night for the Clippers' title victory.

Monday afternoon Mrs. Harold Spofford was "at home" to the six young models and their mothers at a tea party where place-cards, party baskets, gingerbread men, gift favours and lunch seemed to be enjoyed by all. Twenty costumes were displayed by the young models around the "May-Pole" in the window on Friday and Saturday.

We have wrapped a dime securely in cardboard, as instructed, and enclosed it in an envelope addressed to Tropical Round Robin Associates, Guayaquil, Ecuador, South America. The result of this activity, we trust, will be a packet of Passion Flower seeds. The dime is to cover mailing and handling charges, after the time-worn formula. Editors are used to receiving a variety of proposals through their daily mail, and usually manage to cultivate a scornful appraisal of them. This particular offer, however, rather appeals to us and a dime isn't too much a gamble. The Tropical Round Robin Associates are described as modern Johnny Appleseed men. It's a happy thought. Johnny Appleseed is a legendary figure of early American history who used to walk the hills of New England scattering apple seed. Passion flowers, so named because of its symbolistic markings (the corona representing Christ's crown of thorns, the stamens and pistil the nails of the cross, the five sepals and five petals the ten faithful apostles), seem infinitely more exotic than apple trees despite the latter's economic advantages. Will they grow in this northern climate? We don't know but with the instructions, included with every packet of seed, we hope to find out.

May 24th this year falls on Saturday and will be observed on that day despite rumours to the contrary. The House of Commons has however, approved of holding the holiday on a Monday starting next year.

Workers from the Ontario Fire Marshall's Department have completed the work in town of standardizing all the local fire hydrant connections. A total of fifty-four hydrants were changed here in the process. The move is part of a large-scale plan to standardize the entire area about Toronto as a civil defence precaution in case of enemy air attack.

If you know a spring where you can get watercress, now is the time to tie yourself down to it. While the water is cold and fresh you will find the watercress at its best. We came across one in Pickering the other day while trying to round up a trout dinner and it was full to the brim with crispy cress. Usually where you find a spring, you find watercress.

**Sirens Heralded
Championship**

Through the co-operation of the Stouffville Fire Brigade, the fire sirens sounded both in Stouffville and Markham on Saturday night to herald the winning of the senior hockey championship by the Stouffville Club. While some residents were suddenly aroused from their slumbers, a great many anticipated the outburst of pent-up enthusiasm which followed the win. Since there are very stringent regulations concerning the use of the local siren without the Chief's authority, the gesture of the Stouffville Fire Chief and his men in providing this extra flurry to the proceedings was really appreciated by the Hockey Club.

"They're getting better all the time" was the comment heard repeated after pictures were shown at the Horticultural meeting on Monday night. Mr. Eugene Baker, Mr. Lloyd Weldon, Mrs. H. Dixon and Mrs. W. Timbers combined their latest pictures to make an evening of real entertainment for the great turnout. The pictures shown included some south to St. Petersburg, Fla., west to Missouri, north to Sault Ste. Marie, and east along the Atlantic Coast.

**Home Town Paper
Enjoyed by All Family**

"I am enclosing bank cheque for \$3.00 to cover renewal of our 'Old Home Paper,' as it is enjoyed by all the family—we even read all the ads and they compare favorably with ours. Water is still reasonable in Milwaukee as Lake Michigan is full of it. It is a pleasure to know that good old Stouffville is going ahead in every way, and the Lions Club sure is doing a wonderful work. In short one would not recognize the Stouffville we used to know—congratulations," A. E. Pipher, Milwaukee, Wis.
