## Stouffville Ladies Second in Quilting Competition

The annual meeting of York East District Women's Institute was held at Zion United Church, Wexford, Ont., with the Wexford Branch as hostesses. The president, Mrs. G. Francy of Gormley, presided.

Mrs. R. J. Marshall, the Canadian Representative to the Sixth General Assembly of the United Nations in Paris, addressed the meeting.

The following reports were given: Agriculture & Canadian Industries, Mrs. G. Weidmark, Agincourt; Citizenship & Education, Mrs. J. Snider, Victoria Square; Community Activities & Public Relations, Mrs. E. Graham, Markham; Historical Research & Current Events, Mrs. G. Kelly, Buttonville; Home Economics & Health, Mrs. W. Bartlett, Malvern; Langstaff Junior Branch, Miss S. Thompson, Langstaff and Resolutions, Mrs. A. Toogood, Unionville.

An event of the meeting was a quilt competition in which all branches of the district were eligible. Prizes were awarded to: first, Agincourt, and second, Stouffville.

The following officers were elected: Mrs. G. Francy, Gormley, President; Mrs. J. Bruce, Toronto, Mrs. J. Cattanaach, Markham, and Mrs. W. H. McCowan, Scarborough, as Vice-President, and Mrs. P. Tredway, Highland Creek, Secretary-Treasurer.

## Village of Stouffville BYLAW No.731

OF THE CORPORATION OF THE VILLAGE OF STOUFFVILLE

A By-law for submitting to the electors of the Corporation of the Village of Stouffville for their assent a By-law for establishing the Public Utilities Commission for the Village of Stouffville;

WHEREAS the Municipal Council of the Corporation of the Village of Stouffville deems it advisable to submit to the electors of the Corporation of the Village of Stouffville for their assent a By-law for establishing the Public Utilities Commission of the Village of Stouffville, and entrusting to the said Commission the control and management of the electric and water utilities undertaken by the Corporation;

NOW THEREFORE the Municipal Council of the Corporation of the Village of Stouffville enacts as follows:

1. THAT there be submitted to the electors of the Corporation for their assent By-law No. 730 of the Corporation for establishing the Public Utilities Commission of the Village of Stouffville and entrusting to the said Commission the control and management of the electric and water utilities undertaken by the Corporation and of the construction, maintenance and operation of all works connected therewith.

2. THAT the votes of the said electors shall be taken on the said question at the following times and places and by the Deputy Returning Officer and Poll Clerks, hereinafter named, that is to say:

The voting shall take place on the 7th day of July, A.D. 1952, from 10 o'clock in the forenoon until 8 o'clock in the afternoon.

1. Polling Subdivision No. 1, comprising all that part of the said Village of Stouffville, lying south of Main Street, with E. R. Good, D.R.O. and H. O. Klineck, Poll Clerk.

2. Polling Subdivision No. 2, comprising all that part of the said Village of Stouffville, lying north of Main Street, with K. R. Davis, D.R.O. and A. C. Davis, Poll Clerk.

3. A true copy of this By-law shall be published in the following newspapers on the days hereinafter mentioned, that is to say: The Stouffville Tribune, on the 5-12-19 days of June, A.D. 1952.

4. On the 7th day of July, 1952, at the Council Chamber, on Main Street, in the said Village of Stouffville, at six o'clock in the afternoon, the Reeve will in writing signed by him appoint two persons to attend the final summing up of the votes by the Clerk of this Corporation, and one person to attend each Polling place on behalf of the persons interested in and desirous of the passing of the said By-law; and a like number on behalf of the persons interested in and desirous of having the said By-law defeated.

5. The 8th day of July, 1952, at the said Council Chamber at 10 o'clock in the forenoon, is hereby appointed as the time and place for summing up by the Clerk of this Corporation of the number of votes given in the affirmative and in the negative, respectively.

FINALLY PASSED AND ENACTED this 20th day of May, A.D. 1952.

Henry Ogden, Reeve,  
Garfield D. Brown, Clerk,  
Village of Stouffville

## Plant To Handle Surplus Milk A Possibility

The possibility of a plant to handle surplus milk in the Toronto area may become a reality next year. A motion, made by George Jackson and Charlie Cooper, passed by a large majority at the Semi-Annual Meeting of the Toronto Milk Producers' Association, held Wednesday, May 21, in the King Edward Hotel, Toronto. The motion instructs the Board of Directors to take immediate action in preparing a cost report of either building or purchasing a plant suitable for handling milk. This report is to be presented to the Annual Meeting next December.

Mr. Jack Rouse, check-tester for the Association, in his report told of four dairies who were taking resazurin tests. Mr. Rouse explained this was a quality keeping test and warned the members of the necessity of taking all precautions to keep their milk in a first grade condition.

Mr. Alan Lishman, Director for District No. 4, asked that the differential between quota and open quota milk be increased from 5c to 15c. He said, in his opinion, this would assist distributors who wished to go on open quota but who were operating on such a small margin of profit, that to go on open quota at the present price might be disastrous to their business. He went on to say he had been a delegate at the recent meeting with distributors and observed that it was only the smaller distributor who was interested in this increased differential. He said these distributors amounted to about 20% of the market and therefore could not alter conditions to any great extent. In reply, Mr. Ken Betzner, chairman for the afternoon session, said while it might not affect Tor-

## Village of Stouffville BYLAW No.730

OF THE CORPORATION OF THE VILLAGE OF STOUFFVILLE

A By-law to establish the Public Utilities Commission of the Village of Stouffville;

WHEREAS the Corporation of the Village of Stouffville has entered into a contract with The Hydro-Electric Power Commission of Ontario for a supply of electrical power or energy in the said Village;

AND WHEREAS it is deemed advisable that the control and management of the construction, operation and maintenance of all works undertaken by the corporation for the distribution and supply of such electrical power or energy should be entrusted to a commission under The Public Utilities Act;

AND WHEREAS it is deemed advisable to entrust the control and management of the construction, operation and maintenance undertaken by the corporation for the supply of water to the same commission;

NOW therefore the Municipal Council of the Corporation of the Village of Stouffville enacts as follows:

1. THAT under The Public Utilities Act, a commission be and the same is hereby established for the control and management of the construction, operation and maintenance of all works undertaken by the corporation for the distribution and supply of electrical power or energy and water and for the control and management of the distribution and supply of electrical power or energy and water;

2. THAT the said commission shall consist of three members;

3. THAT the said commission shall be called The Public Utilities Commission of the Village of Stouffville;

4. THAT the control and management of the construction, operation and maintenance of all works undertaken by the corporation for the distribution and supply of electrical power or energy and water and the control and management of the said distribution and supply be and the same is hereby entrusted to the said commission.

I declare the above to be a true copy of the proposed By-law to establish the Public Utilities Commission of the Village of Stouffville; If the assent of the electors is obtained to the said By-law; it will be taken into consideration by the Council after the expiration of one month from the date of the first publication of the said By-law such date of first publication being the 5th day of June, 1952.

The votes on this By-law shall be taken on the 7th day of July, 1952.

On the 7th day of July, 1952, at the Council Chamber, Main Street, Stouffville, at 6 o'clock in the evening, the Reeve will in writing signed by him, appoint two persons to attend the final summing up of the votes by the Clerk of this Corporation, and one person to attend each Polling place on behalf of the persons interested in and desirous of promoting the proposed By-law and a like number on behalf of the persons interested in and desirous of opposing the proposed By-law, respectively.

The 8th day of July, 1952, at the said Council Chamber, at 10 o'clock in the forenoon, is hereby appointed as the time and place for summing up by the Clerk of this Corporation of the number of votes given for the proposed By-law and against the proposed By-law respectively.

Garfield D. Brown, Clerk,  
Village of Stouffville

onto too much we had to consider other markets throughout the province. He said there are many markets outside of Toronto that are on open quota and paying top price, and these distributors follow closely Toronto's agreement and any change in this respect would naturally be sought by them to the detriment of the shippers in these markets.

## To Help The Mothers And Save The Babies

The motto of the Mothercraft Society.

Mothercraft has a fascinating background which reaches to the pioneer days of a young country—New Zealand—and the efforts of the first B.Sc. in Public Health from Edinburgh University, through research, to reduce the high infant death rate of his country. This doctor—Frederic Truby King—had been a mental specialist for years before he tackled the problem of infant mortality, but he felt something must be done, so he turned his own home into a licensed research centre with his wife and a nurse to assist.

He had learned the ways of Nature and followed them in managing the thousand acre farm and animals of Sealife, the mental institution of which he was head; so with infant welfare he found natural methods and proper nourishment surpassed his highest hopes. The most important source of nourishment, of immunity and of healthy development for any baby was found to be breast milk.

At that period, the early years of the present century, breast feeding had largely been replaced by bottle feeding. By persuading mothers to prepare themselves to breast feed their babies Truby King's preventive health teaching brought down the infant death rate in amazing fashion; in fact New Zealand led for many years with the lowest mortality rate the world over. A Society was formed, known as the Society for the Health of Women and Children of New Zealand, shortened to Plunket Society in honour of the wife of the Governor General who had been most helpful, but the aims and objects and the teaching were the same as Mothercraft seeks to impart in every corner of the Commonwealth today.

## George Abell's Letter

(continued from page 2)

mumming play which was first enacted in 1350 is a highlight of the evening. The street dance at night includes old fashioned morris dancing as well as modern and is very interesting to watch. The proceeds all go to charity and there is keen competition between the various organizations to gather and sell the greatest amount of children's clothes, books, toys, flowers, plants, canned goods and many other things. The stalls, booths and amusements did a roaring trade and the only thing missing was "Bingo" which was just as well. If anybody reading this (all right, I know, just call it stuff then) stuff should ever find themselves in the London area in May by all means go to the Cheam Fair and see what England used to be like in the old days.

While still reeling financially from the effects of these two evenings out in one week, our little memo pads reminded us, very forcibly, that the next day was their school fair and we were expected to finance some more amusements, ice cream and soda pop so the school could buy some much needed playground equipment. The night before I went to bed in the hope that the day would dawn wet and miserable but no such luck. We are in the middle of a heat wave such as has never been known before this early in the year and the sun was boiling down as usual. This combination of circumstances seems to set off a chain reaction in five year old children making an ice cream or drink of "minerals" (bottle of pop) a necessity every fifteen or twenty minutes. This school fair was very well attended and was apparently quite a financial success. The teachers and parents worked hard to set up booths and get everything running correctly.

So that's the story of three fairs in one week. Looks like we won't do much eating till next pay day but it was worth it. Who feels like eating when it's 90 in the shade.
