Use Water Carelessly

A great many householders in town treated the use of the town water very carelessly during the recent hot dry spell. It's apparently the same old story, when a thing's too cheap, no one appreciates it. The town pump was required to run almost continuously to keep up with the demand, much of which was entirely unnecessary. Lawn hoses were allowed to run day and night in many gardens and the benefit reaped was not too great, but the thousands of gallons of water consumed cost the system considerable expense. In former years some restrictions were always applied during hazardous periods and the use of the water was not allowed to run wild.

Oil Truck Smacks

Ringwood Garage
A large oil-spraying truck belonging to the Miller Paving firm crashed into the corner of the Ringwood Garage just opposite Grove's Store Tuesday evening. The big outfit was proceeding down the 8th con. from Ballantrae and was apparently unable to make the turn. The driver missed hitting the gasoline pumps by a fraction otherwise more serious damage might have resulted. Neither the driver nor anyone about the garage was injured in the crash. A number of motorists have sped across this intersection and into buildings and hydro poles on the opposite side. While the corner is abrupt, the county has placed additional warning signs on the 8th con. north in recent years.
