Lad Burned in Odd Mishap

Three-year-old Keith Call, 9th con. of Markham, was severely burned about the face when he stuck an electric ironing cord in

his mouth. Rushed to Dr. R. M. Pilkey he was given first-aid treatment.

The child's mother, Mrs. William Call, had been ironing. She pulled the plug from the iron but not from the wall. The cord dropped to the floor and the child picked it up.

MOVIES at their BEST!

Some married men can give a tramp both food and work by handing out his wife's biscuits. Like everything else, funeral expenses have increased—one more thing to live for.

Picture News from C-I-L

TEMPER SAVER is this new polythene plastic tray that releases ice cubes in a jiffy, all at once or one at a time. No more jabbing with a knife or holding under the tap. "Just flick the wrist," says this pretty miss. Polythene is odorless, tasteless... won't freeze in the refrigerator tray compartment.

DAUGHTER'S SUITCASE is a junior edition of mother's in this happy holiday picture. "Fabrikoid" and "Fabilite" are very popular for luggage. The chances are these versatile materials were used for the little girl's shoulder bag, mother's handbag and the car upholstery, too. These chemical materials are easy to clean, inexpensive and resistant to scuffing.

CAPTURING summer activities with your camera gets a lot of help from Du Pont "Varigam" projection paper now available in Canada. Provides ten contrast grades in a single paper, gives high quality prints of the right contrast from every negative—thin, normal or dense. Ask your dealer about "Varigam" or write C-I-L, P.O. Box 10, Montreal.

Did you know?

Between 1945 and the end of 1951, the general wholesale prices index in Canada increased 82 per cent. During the same period, the selling prices index of C-I-L manufactured products increased only 35 per cent.
