

THE 1953 PONTIAC brings Canadians a completely new line of automobiles with 29 body styles in five series. New styling inside and out, new colors, improved riding qualities, greater vision and roomier interiors are among the highlights. Available are eight and six cylinder engines, the latter with substantially increased power. Options such as Powerglide or Hydra-Matic automatic transmissions, depending on the series; Power steering; and the Autronic Eye, an automatic headlight dimmer, are available at extra cost. Shown here is the Custom Catalina.

Uxbridge Folks Get Special Invitation For Coronation

Uxbridge town council has received a blanket invitation for any Uxbridge residents who will be in England for the coronation to stay in Uxbridge, Middlesex, where "accommodation and hospitality will be provided" them by the English town council.

A letter to this effect was received this week from the town clerk of Uxbridge's English namesake. It read:

"I am instructed by the council of the urban district of Uxbridge, England, to send messages of good fellowship to the governing body of the townspeople of Uxbridge, Ont., to tell you that we are preparing for the coronation. In particular, I am to say that if any of the townspeople of Uxbridge, Ont., should be in England (for the coronation) they will be assured of a warm welcome here. We should be delighted to arrange for accommodation and hospitality."

As usual the infant new year arrived with crying needs.

We consider it within the range of possibility that a turtle-neck sweater would be fairly becoming to a turtle.

An old-timer is one who remembers when an automobile accelerator was called the "foot feed." You can't blame 1952 for being glad to step out of the world picture. It's especially later than you think when Christmas is just around the corner.
