Pickering Farmers Save Nearly Ten Cents a Can of Milk with Co-op Trucking

A net savings of \$2,633.81 for the year 1952 was proudly submitted by Secretary-Treasurer Henry Westney to the members of the Pickering Transport Co-operative at their General Meeting on Feb. 14th.

During 1952 the Co-op truck hauled 34,199 cans, an average of 91 cans per day, compared with 83 cans in 1951 and 69 cans in 1950, serving 23 active members, one of whom had joined during the year.

The income for the year was \$9,250.24; expenses, including 30% depreciation of the new truck, amounted to \$6,616.43. This means a net saving of 7 1/2c for every can shipped. In view of the fact that the trucking rates of the Co-op are already 2c below the official zone rate, the members actually saved 9 1/2c, trucking their milk for 19 1/2c instead of 29c, which is paid by farmers shipping on privately or dairy owned trucks. A patronage dividend of 5c per can was declared and the balance transferred to General Reserve.

The Treasurer reported that the first dividend certificates of those issued last year have already been redeemed in cash, further that the Co-op is now completely free from debt, having paid off a total of \$3,800 during the year.

On January 1st the Co-op lost six members who were shut off by the dairies because they shipped less than 200 lbs milk per day last September, October and November. Although the Milk Control Board at a hearing on Feb. 3rd ordered the re-instatement of all those producers who averaged 160 lbs. per day during the three months the dairies so far have not complied with this order.

Alan Lishman, Henry Westney and Ted Coates were re-elected as directors. The Co-op by-laws provide for a rotating board of directors.

The meeting discussed the questions of a milk advertising campaign carried out jointly by farmers, dairies and truckers; membership in the Automotive Transport Association; expansion of the Co-op; the plan proposed by the Ontario Dairy Commissioner, Mr. Everett Biggs, to the Annual Convention of the Ontario Whole Milk Producers, which includes zoning of the province, pooling of all milk and producer controlled trucking. These questions were referred to the incoming board for further consideration and action.
