The Crosby Memorial Community Centre has granted the property for a new Curling Club rink which is to be built directly north of the present rink. The project to raise the necessary funds for the new arena is planned for. A prospectus has been prepared and will be mailed to all members. It was agreed that a building 15'x60' with cement block walls 14' high, also a club room 30'x60' would be the most satisfactory. This will provide four sheets of ice at a total cost of approximately \$45,000. A saving of \$5,000 could be made by voluntary labor and material donations. The Curling Club agreed to allow \$5.00 for every \$100 donated, from curlers' fees each year for 20 years. The donation certificate would be transferable. Assurance has been given the Club, from Ottawa, that donations made to the project may be claimed by the donors for income tax purposes. All cheques should be made payable to the Crosby Memorial Community Centre and mailed to Mr. Clarke Young, Unionville.
