Daily Dusting

YEARS of medical research sponsored by the Ontario Mining Association may have found the answer to silicosis, the disease which attacks the lungs of miners exposed to silica dust. Curiously enough, the treatment consists of breathing very fine aluminum dust directly into the lungs; the aluminum renders the silica particles harmless. The treatment has been adopted in gold and other mining areas in Canada and throughout the world.

Aluminum, long used in hospital kitchens, today serves the medical profession in many ways — from aluminum foil for covering serious burns, to aluminum acetate for medical dressings, to aluminum blenders for the preparation of sterile biological products. Aluminum Company of Canada, Ltd. (Alcan)

Pickering Holstein Gold Seal Producer

Joining the select class of Holstein cows that have qualified for a Red Seal Certificate of Longtime Production by producing in excess of 175,000 lbs. of milk in their lifetime is Pauline Jemima Hermes, owned by W. Teffy & Sons, Pickering, Ont. In twelve lactations, all on twice-a-day milking, she has given a total of 184,562 lbs. milk containing 6427 lbs. fat, average test 3.45 percent butterfat.

Milliken Holstein Highest Record Of the Month

The leader in the class of 186 Holstein cows from all parts of the Dominion that completed records in the mature section of the yearly division on twice-a-day milking during the past month was Fairwood Posh Myrtle owned by H. Fairly, Milliken, Ont. Myrtle was actually in milk for only 295 days and in that time produced 14,450 lbs. milk containing 856 lbs. fat, average test 5.92

Zurich	Sept. 28, 29

International Plowing Match Durham-Northumberland Cobourg

Oct. 6-9

Crosier Family Reunion

The twenty-second reunion of the Crosier family was held at the home of Mr. and Mrs. Frank Vernon, Prospect, near Port Perry.

There was an attendance of approximately one hundred and ten.

A lovely afternoon was spent in visiting and enjoying the sports that were ably handled by Eddie Maynard.

Pres. Stanley Ploughman brought greetings to all and the minutes of the last reunion were read and approved. The prize for the youngest child present went to Baby Vernon, son of Mr. and Mrs. Ron Vernon. Congratulations were expressed to Mr. and Mrs. Wright Crosier of Manchester who will celebrate their 50th wedding anniversary on Jan. 20, 1954.

The election of officers was led by Jack Crosier. Moved by Dave Crosier and seconded by Clara Shot that Stan Ploughman continue as president for 1954.

Moved by Lou Kennedy and seconded by Mrs. Prentice that Shirley Ann Crosier be secretary-treasurer, 1954.

Moved by Stan Ploughman, seconded by Maude Crosier that Alan Crosier be vice-president for 1954.

Moved by Stan Ploughman, seconded by Maude Crosier that picnic committee be Ellisworth Kennel, Geo Samuels and Bob Vernon.

The oldest couple present were Mr. and Mrs. John Albright.

Many people put on rose-coloured glasses and look through the large end of the telescope when they have to face unpleasant facts.

A Mother Welcomes a Sailor-son Home From Korea

A warm welcome from his mother greeted Bill Chervak of Kenora, Ont., following his arrival at Esquimalt, B.C., aboard the Canadian destroyer Crusader which had tallied up 65,000 miles and 247 days spent in Korean combat zone before returning home. Only 362 feet long but packed with firepower the Crusader's assault on enemy's rail supply lines of the east coast won the acclaim of British and U.S. fleet officers for her daring shore approach and deadly

salvos of 4.7-inch guns. The raking clean-up of her anti-aircraft weapons usually completed her missions. Known as the ace train-buster of the U.N. fleet, the destroyer is credited with four-and-a-half kills and six trains damaged in latest operation.

30% more get up and go

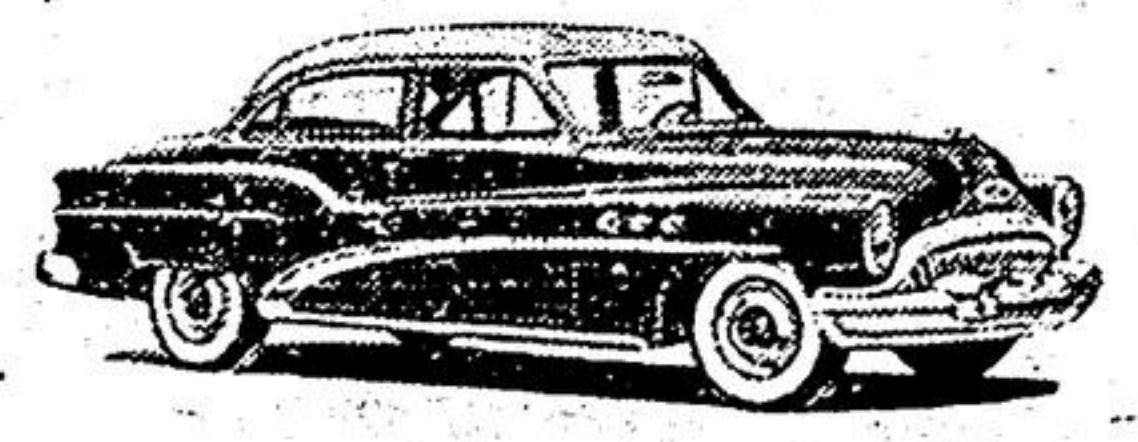

with New Twin-Turbine DYNAFLOW

This you will discover: No other car gets away from a standing start with the combined quickness, quiet and smoothness of a 1953 Buick with Twin-Turbine Dynaflow Drive.*

With two turbines instead of one — and with engineering advances all through this miracle automatic transmission — you can get from zero to 30 mph before you take two breaths — and with more silence and efficiency than ever before.

Beyond this, there's new power that makes the entire range of performance more electrifying.

In every 1953 Buick SUPER and ROADMASTER you'll find the world's most advanced V-8 Engine — the first Fireball V-8. In every 1953 Buick CUSTOM

Buick Custom 4-Door Sedan

you'll find the famed F-263 Fireball 8 Engine redesigned to provide record horsepower and compression for this budget-priced Buick series.

But all this flash-fast getaway, this new quiet, this stepped-up efficiency, this more spirited performance, can be judged only from the driver's seat of a Golden Anniversary Buick with Twin-Turbine Dynaflow.

Will you stop by and try one — with our compliments?

*Standard on Roadmaster, optional at extra cost on other Series.
