

Hello Homemakers! Relishes add zest to a meal, possessing a spicy tang that does just what their name implies. Vegetable relishes may be moist but not juicy, since the chief ingredients should be firm rather than mushy. Fruit relishes are more the consistency of jam, with a slightly pungent aroma.

Pickles, the parent group of the piquant recipes, are usually whole or sliced vegetables (or fruits) "cured" in a vinegar solution for storage.

**TAKE A TIP**

1. Too much salt or sugar or too strong vinegar may make pickles that are tough or shrivelled.
2. A weak brine will tend to soften pickles. The recommended solution of brine is one pound of iodine-free salt to five quarts of water.
3. Keep pickled cucumbers green in a crock by placing a layer of fresh green grape leaves on top of them.
4. To prevent a relish sauce from burning grease the preserving kettle with salad oil and then during the last half hour of cooking, place the preserving kettle in a moderate oven, leaving the door ajar.

**TOMATO CATSUP**

- 1 cup vinegar
- 1 1/2 tps. whole cloves
- 1 1/2 tps. broken cinnamon
- 1 tsp. celery seed
- 32 medium tomatoes
- 2 cups water
- 1 tps. minced onion
- 1/2 tsp. cayenne
- 1 cup sugar
- 4 tps. salt

Combine first 4 ingredients and bring to a boil then let stand. Scald and crush tomatoes then add water, onion and cayenne. Boil 15 minutes then press through a sieve. Combine the tomato juice with sugar and then boil until about half the volume (about 40 mins.).

Combine strained vinegar (discarding spices) salt and tomato juice. Simmer this mixture for 30 mins. stirring frequently. Pour into sterilized bottles and seal. Makes about 2 pints.

**COIN RELISH**

- 12 ears corn
- 2 green peppers
- 2 red (sweet) peppers
- 1/4 cups chopped onions
- 1/4 cups chopped celery
- 1/4 cups sugar
- 2 tps. prepared mustard
- 1 1/2 tps. mustard seed
- 1/2 tsp. salt
- 1 tps. celery seed
- 1 quart vinegar
- 1/2 cup water
- 1/2 tsp. tumeric

**THE QUESTION BOX**

Mrs. T.J. asks: For recipe to make the vinegar for pickles.  
 Answer: We have mailed raspberry and apple cider vinegar directions to you. May we suggest that readers don't use this year's vinegar for pickling as it requires aging.  
 Miss J.A. asks: Whether a blended vinegar is stronger than white kinds?  
 Answer: Labelled vinegar on the grocer's shelves is standardized to a uniform strength although some cider vinegars have more aroma. Usually the white vinegar is a blend made from corn, barley, malt and rye.  
 Mrs. C.L. asks: Why should celery relish turn dark after the celery and onions were put through the food chopper?  
 Answer: We suggest that you put a slice of dry bread through the food chopper before using it for raw vegetables.

**Yes, there's a GMC specifically engineered for you!**

Experienced truckers know there's no such thing as an "All 'Round Truck". Each type of trucking job has its own special problems and its own special approach—each requires a truck that's been designed with the particular job in mind: That's why there's an extra measure of usefulness and an extra capacity for work in every GMC Truck, because GMC's are specifically engineered for the job. They're engineered with a choice of axles, with a choice of transmissions and with a choice of engines, so that your GMC will stand up longer, give better service, and cut operating costs to a minimum. Your GMC Truck Dealer can save you money by specifying a GMC truck that will fit your needs. Visit him soon and "get a real truck!"
