### CPR Had First Domes

A long forgotten genius in the Canadian Pacific Railway's motive power and rolling stock department came up with an idea at the turn of the 20th century that blossomed into additional passenger revenues for rail lines throughout the continent.

It was the first "dome" car to be used on railway lines and was designed to give passengers a bird's eye view of Canada's spectacular Rocky Mountain scenery.

Today the idea has spread throughout the world, particularly in the United States where railway dome cars are a feature of several lines.

In a recent \$38,000,000 order for 155 new stainless steel cars, the C.P.R. included 36 scenic dome cars, such as the one shown above in top picture, which will give travellers an unmatched view of this country's scenery from coast to coast. The cars will be placed in service on transcontinental trains next year.

Although the designer of the dome car prototype, shown in bottom picture above, remains unknown, he gave Canada's first transcontinental rail line a head start in railway design. In July, 1902, the world's first dome car rolled out of the shops and into service.

In it, railway passengers could sit in revolving parlor car chairs or reversible seats and have a clear view of Canada's scenery.

The car proved an immediate hit and three others, with modified improvements, were put into service. But the C.P.R.'s unknown designer had outstripped his era.

Air conditioning and Polaroid glass were unknown and the sun's ultra-violet rays proved uncomfortably warm. The cars were replaced with open-air observation cars, several years later.

The railway reverted back to its original idea recently when it ordered the 36 dome cars—more than 50 years after it first had them on the road.

"Canada's scenery is hard to beat in any corner of the land," a railway official said. "We admit the Rocky Mountain area is the most spectacular, but we believe the cars can be used to advantage from coast to coast."

### CEDAR GROVE

Thursday, Sept. 10

Whenever Cedar Grove Community Club plans a party it is sure to be a good one. The corn roast they have planned for this Friday night will be no exception. There will be lots of corn; a good old fashioned sing song and plenty of dancing on the lawn to John Petrie's square dance records; fun for everyone. If you live in Cedar Grove plan to attend the corn roast. It is Friday evening and will be held at the Bert Tapscott's farm.

Last Tuesday after the summer's recent heat wave was over and the exhibition well underway, school reopened. A new fence has been erected during the summer, a new back stoop and a revarnish job on the desks, along with a lot of little improvements to the school house. Our little red schoolhouse looked very nice for the opening of the new term. Our new teacher is Mrs. Cliff Barkey of Markham who is resuming her premarital profession after a few years of being a wife and mother. We welcome her warmly to our school and hope she will enjoy teaching our children.

Mr. and Mrs. Gus Trand celebrated their 40th wedding anniversary a week ago Sunday in their new home just outside Orillia.

Ruby Reesor celebrated her birthday last Tuesday. Many more, Ruby.

Marg and Jack Walton and Jack's brother and his wife took off last weekend for a brief holiday in Katrine. The idea was fishing but the fish was singular.

Doris and Harold Lapp and Jim and Jean Crichton spent the Post harvest weekend at Clear Lake. Their greatest pleasure — long uninterrupted sleep.

Despite the busy season many of our villagers have found time to visit the exhibition. We hope no one missed the handicrafts exhibits in the woman's building this year. It was certainly the best yet and very tastefully and artistically arranged.

### "Reaching From Heaven" A Magnificent Picture.

The best motion picture to be shown in Jackson this year is that entitled "Reaching From Heaven," currently on the screen at the Malco Theater. It is best from the standpoint of the powerful impact that it leaves upon the audience. Ministers will agree that it preaches a magnificent sermon.

The picture is great because it knocks human selfishness into a cocked hat, because it leaves avarice and greed without a leg to stand upon, because it makes hypocrisy and sham feel like going into hiding, because it places child-like faith in the goodness of God in its proper perspective, because it lifts prayer to that level to which it rightfully belongs, because it teaches that Christianity is a seven-day business, not just Sunday, because it exalts the practical and realistic in Christian living, because it exemplifies the teaching of Saint James, "Be ye doers of the word and not hearers only."

If you wish to be lifted out of the humdrum of materialistic living and get a glimpse of what God intended in the brief span of years allotted us on earth see this picture.
