## PASSENGER BREAKS LEG IN CAR TRUCK CRASH ON 10TH CON.

Mr. Bill Crawford of Whitby suffered facial cuts and a broken leg on Friday evening when the car in which he was riding was in collision with two gravel trucks on the 10th concession, south of Stouffville. The auto, driven by Ivan Goudie of Stouffville was proceeding north and the two vehicles met on a narrow cement bridge. Goudie's car was thrown into the ditch by the impact and badly damaged. Another truck then struck the over-turned car and added to the damage. The car had been driven less than 350 miles and was purchased only five days prior to the accident.

## Marconi

From Canada's Largest Electronic Specialists

The advent of television just a few years ago was perhaps the most spectacular new development many of us will ever witness. Today, although still in its infancy, television is bringing to millions a new realm of entertainment and education. And a completely new series of "life-tested" TV sets, made by Canadian Marconi — Canada's largest electronic specialists — is adding to the enjoyment of thousands of Canadian viewers.

What do we mean when we say that every Marconi TV set is "life-tested"? Well, we're talking about that extra test given to every set by highly trained Marconi engineers before it leaves the factory.

You see, the great majority of TV set failures occur within the first few weeks of their operation. This is the critical period. Now, Marconi makes sure that every TV set they sell will give trouble-free operation from the moment it is installed. Marconi can do this because they've already subjected every set they manufacture to strenuous tests equivalent to weeks of average home use. Every receiver sold, then, has already passed the most critical stage with flying colors. This is what we mean by "life-testing" — our customer's assurance of continued trouble-free performance from the moment they purchase their new TV set.

Marconi is also proud to feature cabinets that are handcrafted from selected wood veneers right in their own furniture factory, with beautiful and functional designs by internationally famous Federico.

For your own protection, look for the "life-tested" seal — it appears on the safety glass of every Marconi TV receiver and it's your assurance of top performance and exceptional reliability.
