To Consider Hospital Grants of \$185,000

Reeve Morley of Pickering village claimed that if the county made any such grants, that through their equalized assessment this would be the fairest means of helping the hospitals. "I agree with Reeve McIntyre that no one hospital serves the entire county and any hospital serving any part of the county deserves our consideration. Why make grants at the municipal level? What a problem and what a pittance! Take a look around at the various public or play services. People have voted for them in a large majority. Here we can build something which will serve the county for 50 years and will provide for thousands of sick in those years. For posterity, let us do something today and hope that future councils will follow the lead."
