## Pickering Township Election Hearing

(continued from front page) Township election. Voted in Porch.

One voting booth it was reported was conducted in an unscreened sun porch where the people lined up waiting to vote could look through a window and see how a person was casting his ballot. Forty voters came in the last 35 minutes he said and some of these voted in a nearby bedroom.

This was the same voting booth where tickets on a prize doll were sold.

Another witness, Mrs. Joseph-Fairgrieve, a voter said that as she stood in line waiting to vote she noticed a card with a suggested slate of officers on it on a counter behind the Deputy Returning Officer. The names on the card, she said, were: Todd, Balsdon, Newman, Michell and Lawson.

She testified that she called attention to the card and the next time she saw it, it was torn in two and was in the hands of candidate Fred Hunt. Raised Objection.

Mrs. Frederick Drew, an agent for Colonel Stephenson at the "Altona" polling place, said she saw a man waiting to vote take a pink card, with a suggested slate of officers on it, from his pocket. She said she saw the name Todd on the top of it.

She objected to the use of the card and asked the clerk to register an objection. These cards were reportedly widely distributed before the election and were handed out at the Claremont Santa Claus parade.

Mrs. Ethel Dand, a scrutineer for Mr. Hunt in the council chambers in Brougham reported that the names of the councillors had not been removed from the desks.

Clerk Does Not Appear.

Mr. Brower introduced the case for the relator by stating that he was handicapped in that all records of the election had been destroyed on January 19. He further stated that he had called the Township Clerk, Lloyd Johnston, to appear in the County Court on Monday for an examination but he had not appeared nor had he given any reason why he did not do so. He therefore asked that Mr. Johnston, who was in the Court be called as the first witness.

Although Mr. Moore denied that he was there to represent Mr. Johnston he objected to this on the grounds that Mr. Johnston was not named on the notice of motion.

Mr. Brower argued that Mr. Johnston should be called as the official representative of the Township which had been named. Mr. Greer at this time announced that he would also object to Reeve Todd being called since he had not been named in the notice of motion.

Dr. Roberts reasoned that the Township of Pickering, a corporate body, had been named but could not obviously appear. If the clerk had authority to appoint Mr. Moore to appear on behalf of the township without the consent of the elected council, he should be allowed to give evidence.

Col. Stephenson claimed that as intervener, representing neither side in the issue, he was able to call Mr. Johnston. Judge Pritchard ruled, however, that Mr. Johnston could not be called at this time. Mr. Brower then asked that Mr. Johnston be excluded from the court while Col. Stephenson gave his evidence since, he said, this might give Mr. Johnston an opportunity to "improvise his evidence." His Honor ruled that Mr. Johnston would not be excluded.

Relator Called.

Gerald Allan, relator in the issue, was called. He began to tell of events at a political meeting in Whitevale prior to the election but following objection by Mr. Greer, this line of evidence was abandoned. He stated that following a meeting at the home of Deputy-Reeve Dr. Kenneth Roberts on election night, he had decided that he would lead an investigation and had delegated Col. Stephenson to make this investigation.

Col. Stephenson was then called. The former intelligence officer admitted in his evidence that he had made a thorough study of the Ontario Municipal Act following the election and it was also apparent from his evidence that he had heard about the evidence. Act because even the astute cross-examination by Messrs. Greer and Newman failed to shake him and in fact, he appeared to enjoy the verbal tug-of-war.

Col. Stephenson said that on Thursday preceding the election he had happened into the office of the Pickering News where the ballots for the water line question were being prepared. He said that he noted they were not being worded in the manner prescribed by the Municipal Act and he had relayed this information to Township Clerk Johnston in Brougham. On this visit, he said, he had told the Clerk that he had heard that voting cards might be used again and asked him if he would advise Reeve Todd of this. The clerk, he told the Court had stated that he would communicate this matter to Mr. Todd.

On the Sunday preceding the election he said he had again visited the clerk's office seeking authority for agents of candidates to vote in the booth where they were to act

as scrutineers. Mr. Johnston, he said had been unable to find such authority in the Act but he, the witness, had been able to find it. On this visit, also said Col. Stephenson he had again mentioned the voting cards and had asked if the clerk had been able to stop their possible use on election day. He had been informed, he said that no action had been taken. Col. Stephenson stated that the clerk had asked him and the other candidate who had accompanied him, if they would agree to certain irregularities in the election: viz., allowing one Deputy Returning Officer to leave the polling place for part of the day and his wife being allowed to take over; and allowing certain senior citizens to be present at the counting of the ballots.

"In view of knowledge I had of previous election," said Col. Stephenson, "I replied that this one should be run according to the rules."

Election Day.

At noon on election day said Col. Stephenson, Major E.M.D. Smith had brought to him a small voting card which was then introduced as an exhibit. On receiving this, said he, he had called the police and asked them to visit the place from whence this card was reported to have come and verify that such cards were being picked up. They were instructed he said to go to the store of J.S. Balsdon brother of the unsuccessful candidate for de-

puty-revee. That evening, he said, he had visited another polling place and had observed three persons throwing something away on the ground. His curiosity had been aroused, he said, and he had investigated and had recovered another voting card which was also made an exhibit.

During the day, he continued, he had occasion to visit the polling station at Fairport Beach, where he said, he had been urged by a person in the polling place to purchase three tickets on a doll which was to be raffled. "I bought three," said Col. Stephenson, "and did not win the doll." At that same polling station, he said, he had noted persons marking ballots in a room leading from the room where the officials of the station were seated. It was possible, he claimed, for persons other than voters to see how the ballots were marked. He added at this point that it was neither the Deputy Returning Officer nor the polling clerk who had sold him the tickets on the doll.

Ballot Counting.

After the polls had closed, said Col. Stephenson he had visited the Dunbarton polling place to watch ballots being counted. There, he said, he found the ballot box open, sitting on the floor at the feet of the Deputy Returning Officer. The DRO he said was at that moment holding in his hand a ballot and had stated "This
