MEMO TO ADVERTISERS for advertising, too! There are standards for advertising, too! What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values. We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations. WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals. WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper. WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.
