Markham Village tax rate has been struck this year at 39 mills with expenditures along the line much the same as Stouffville. Several thousand dollars less is being spent there on general purposes such as roads and sidewalks and police protection. The operation of schools is about parallel. Markham's county tax is about \$2,000 less than Stouffville due to the differentiation in assessment as to real property and business assessment. The great difference in the mill rate is caused by the difference in the long run makes for little difference in the actual amount of taxes. Markham last year entered upon the new basis of assessment, the square foot basis of measured assessment, which gives a much more accurate picture of value. This new system added nearly a million dollars to the assessment or, in other words, nearly doubled it, thus the rate dropped to nearly half. Under Stouffville's assessment system the Markham mill rate would be about 75 mills. However, the amount of dollars and cents in taxes for each taxpayer will be little different, but there is more equality throughout.

Everyone has agreed that this year's show was tops for all time and the weatherman, bless him, presented a perfect summer evening. And now, when the weary workers responsible for the entertainment have recovered, Cedar Grove will turn its thoughts toward next year's Garden Party.

The ladies are asked to bring a few light refreshments and, as usual, the drinks will be provided.

Here are Monday night's Euchre results and don't forget there will be another two weeks from the last one: Mrs. Walter Booth, Mrs. Dight, Mrs. W. Hollinger and Bill Hollinger. Howard Plaxton, Levi Booth.
