

**Christian Living—Temperance**

**ILLUSTRATED SUNDAY SCHOOL LESSON**

By Alfred J. Bueschew

Scripture—Acts 20:17-35; Romans 6:12-14; Ephesians 5:1-21; Colossians 3:1-11; Thimotheians 4:1-5; Peter 1:15-16; John 2:1-17.

On his last missionary journey Paul went to Miletus and called the church elders from Ephesus to come to him. He talked to them of his manner of life when he was among them and of his preaching. He told them that they would see him no more.

Paul told his friends in Ephesus that he was going to Jerusalem, "not knowing the things that shall befall me there; save that the Holy Ghost witnesseth in every city saying that bonds and afflictions abide me; but none of these things move me."

After telling the elders of the Ephesian church that he had shown them in his own life how to live righteously, Paul knelt with them and prayed. Then they wept and fell on Paul's neck and kissed him, grieving that they would see him no more.

Peter, the apostle of Jesus Christ, wrote to the various scattered churches, telling them to be sober, hope for the grace of Jesus Christ as obedient children, and to be holy in all things, even as Christ is holy.

MEMORY VERSE—1 Peter 1:15-16.

**CHRISTIAN LIVING — TEMPERANCE**

We are told how we can live like Christ.

Scripture—Acts 20:17-35; Romans 6:12-14; Eph. 5:1-21; Col. 3:1-11; 1 Thess. 4:1-5; 1 Peter 1:13-16; 1 John 2:1-17.

By Newman Campbell  
If we would learn how to live our lives as Christ would have us, we should carefully study the lesson assigned us today. We are given so many references that we can mention them only briefly but, of course, the teacher will study them all.

Paul was on his third missionary journey. It was to be his last. When he was in Miletus he sent to Ephesus, 20 miles away, and called the elders of the Ephesian church to come to him.

"And when they were come to him, he said unto them, Ye know from the first day that I came into Asia, after what manner I have been with you at all seasons.

"And now, behold, I go bound in the spirit unto Jerusalem, not knowing the things that shall befall me there.

"And now, behold, I know that ye all among whom I have gone preaching the kingdom of God, shall see my face no more.

"I have shewed you all things, how so laboring ye ought to support the weak, and to remember the words of the Lord Jesus, how He said, It is more

blessed to give than to receive. "And when he had thus spoken, he kneeled down, and prayed with them all. And they all wept sore, and fell on Paul's neck, and kissed him, sorrowing most of all for the words he spake, that they should see his face no more. And they accompanied him unto the ship."

This parting will remind us all, even small children, of partings from some one beloved, with the possibility of never seeing him or her again. That is one of the deplorable facts about divorce when there are children.

Youngsters usually love both parents, and suffer when one leaves the home and they may see him or her no more. It is proven that children of such broken homes more often take to crime than those who have a normal home life.

Especially is it true of older persons who have had a beloved pastor who comforted them in sorrow, rejoiced with them in happiness, and helped them spiritually for many years. We all have memories of such a loss to ourselves, our fellow church members and the town or city where he lived.

We may weep, too, if such a one leaves us to be seen by us no more.

In the days of Paul, almost 1900 years ago, the same sins were committed as plague our modern world. We are still battling them. We must still

"Mortify our members which are upon the earth," as Paul writes to the Colossians, and he further writes:

"But now ye also put off all these: anger, wrath, malice, blasphemy, filthy communication out of your mouth. Lie not one to another, seeing that ye have put off the old man with his deeds; and have put on the new man which is renewed in knowledge after the image of Him that created him.

"Put on therefore, as the elect of God, holy and beloved, bowels of mercies, kindness, humbleness of mind, meekness, longsuffering."

"Furthermore then we beseech you, brethren, and exhort you by the Lord Jesus, that as ye have received of us how ye ought to walk and to please God, so ye would abound more and more.

"For ye know that commandments we gave you by the Lord Jesus. For this is the will of God, even your sanctification, that ye should abstain from fornication; that every one of you should know how to possess his vessel in sanctification and honor;

"That no man go beyond and defraud his brother in any matter: because that the Lord is the avenger of all such, as we also have forewarned you and testified."

We have six different books of the Testament in which we are given references in this lesson, and our space is limited. We close, therefore, with the

**NEWS FOR THE FARMER**

**Grow Right Things In The Right Places**

A popular pastime for the amateur gardener at this time of year is studying seed catalogues. Humorists suggest that the pictures in the catalogues often excel the results in the garden. If this is so, the blame can often be laid at the door of the gardener, because he didn't study the catalogue well enough.

Practically all nursery catalogues, in addition to giving specific planting instructions, indicate whether a particular plant or shrub is hardy or only semi-hardy in different geographic areas; whether it grows best in sun or shade; whether it likes heavy or light soil, or has a preference for wet or dry places in the garden.

With this information available there is no reason why the amateur gardener cannot arrange his plantings in such a way that they will grow to best advantage. He knows that he has put the right plants in the right places and proper attention and care throughout the growing season will bring satisfactory results.

words of John: "My little children, these things write I unto you, that ye sin not. And if any man sin, we have an advocate with the Father, Jesus Christ the righteous;

"And He is the propitiation for our sins; and not for ours only, but also for the sins of the whole world.

"And hereby we do know that we know Him, if we keep His commandments. He that saith, I know Him, and keepeth not His commandments, is a liar, and the truth is not in him.

"But whoso keepeth His word, in him verily is the love of God perfected: hereby know we that we are in Him.

"He that saith He abideth in Him ought himself also so to walk, even as He walked." 1 John 2:1-6.

MEMORY VERSE: "But as He which hath called you is holy, so be ye holy in all manner of conversation; because it is written, Be ye holy; for I am holy."—1 Peter 1:15, 16.

**What Happens To Canada's Milk Supply**

Milk production in Canada has increased 7.4 percent during the past fifteen years, most of the increase taking place in the last two or three years when conditions favoured such increase. D. M. Beattie, Associate Chief, Dairy Products Grading and Inspection Service, states at the annual convention of the Saskatchewan Dairy Association.

Use of fluid milk as such increased 11.4 percent in the fifteen-year period, said Mr. Beattie, due to increases in population and continued education and publicity on the food value of milk.

Over the same 15-year period milk utilized for manufacture of butter decreased by 7.0 percent. In the years 1935-39 over 53 percent of Canada's total milk supply was made into butter, in 1953 only 46 percent. Butter continues to be the largest single outlet with fluid milk next at 30 percent.

Milk for cheese has followed a similar trend to butter. In the 1935-39 period 9 percent of the milk went into cheese. In 1953 only 5 percent was so utilized. There is a trend toward larger and fewer factories, many of them occupied to manufacture other dairy products as well as cheese, depending on market conditions.

Consumption of cheese by Canadians is disappointing. There has been a slight increase in per capita consumption the past few years, mainly attributed to improved packaging and a genuine desire by many retailers to sell cheese of better quality. Canadians do not yet seem to consider cheese as the main dish of a meal, but rather a sandwich proposition or the small partner of some varieties of pie, says Mr. Beattie. Practically all Canada's cheddar cheese is graded by Federal graders, and the results for 1954 show over 94 percent to be of Canada 1st Grade quality.

Concentrated milks and ice cream required considerably more milk by 1953 and their combined requirements of milk increased by 5 1/2 percent.

Of Canada's total make of butter, 66 percent was graded

by Federal inspectors in 1954, and of this amount 93 1/2 percent was of Canada First Grade quality. The percentage of the total make graded is increasing each year, and there was 5 1/2 percent more butter graded in 1954 than in 1953 — an indication butter manufacturers are paying increased attention to quality. Unfortunately per capita consumption of butter has decreased by 10 pounds in the past 10 years, and the surest way to regain this lost ground is for cream producer to furnish the highest possible quality of raw product, and the manufacturer to process this raw product to the best of their ability at all times. If responsibility does not end with the making of a fine product, unless this product is packaged neatly, cleanly, and attractively, the work has been in vain.

Mr. Beattie stated he had recently been shown through a paper factory in Carp specializing in making parchment butter wrappers. Papers for four different varieties are printed in one operation on one large sheet, later cut into the correct size for their wrappers.

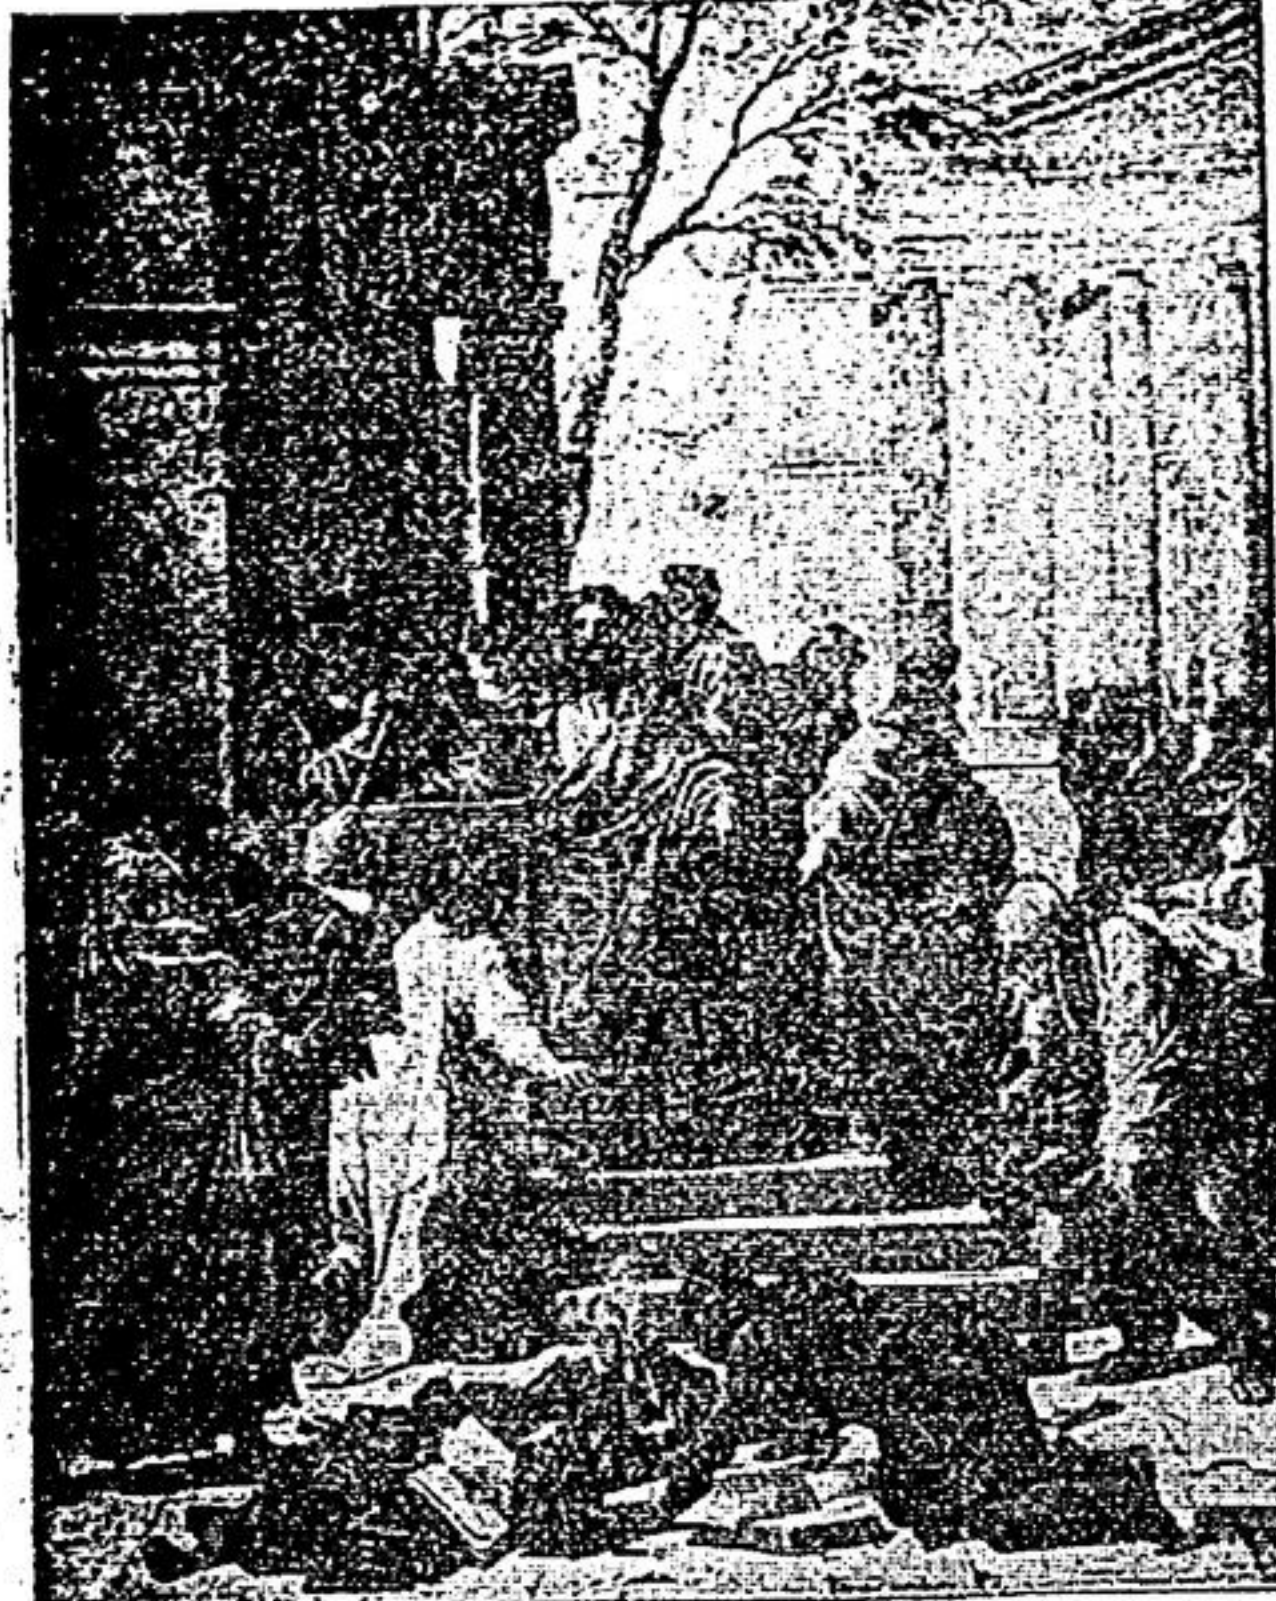

On the large sheet of the brands was outstanding. It had a very attractive four combination, the lettering was effective, and it deftly denoted good taste in design and general make-up. Two of the others were satisfactory, but the fourth wrapper was atrocious and should not have been designated to cover food for human consumption. The main panel was a dull less green with the lettering in black. "Eye-sore" rather than "eye-appeal" is the description in this case. Butter manufacturers would be well advised to examine their wraps to see if there is an opportunity to brighten up their product.

More than nine-tenths of all energy produced in mineral fuels and water in Kentucky is supplied bituminous coal.

**The Golden Text**

St. Paul preaching at Ephesus.

"But as He which has called you is holy, so be ye holy in all manner of conversation, because it is written, Be ye holy; for I am holy."—1 Peter 1:15-16.

A wife is sometimes proud of what her husband stands for, but more interested in what he helps with.

Among the many illusions of minors, the greatest is that they'll be able to do as they please when they're grown.

Be sure your insurance fully covers all expenses in connection with a broken jawbone before you turn the other cheek.

Tiny flashlights for women's purses are becoming popular, but wouldn't it be smarter to keep all the junk in the dark?

**New 4-H Tractor Club To Be Formed in County**

Farm boys and girls in York County are eagerly looking forward to the beginning of the 1955 4-H Club season. It is anticipated that all former clubs will be organized and new clubs may be formed where necessary to serve any area, provided there are a minimum of ten members.

4-H Clubs have as their emblem, a 4-leaf clover with the letter H in each leaf, signifying the development of Head, Heart, Hands and Health, while the motto of the 4-H Clubs is "Learn to Do by Doing". This principle is applied throughout the Club season whether the project involves raising a calf or a plot of grain and final awards are made on the basis of the work of the member through the season to a greater extent than on the stock or produce exhibited at the fair. Other special features of the club year are the summer bus trip, the Kiwanis luncheon in the fall and the regular summer monthly meetings.

4-H Clubs in York have been largely Calf Clubs and many boys and girls are carefully looking over the eligible calves in the barn or hoping that their favourite cow may yet present them with a heifer calf for use in the Calf Club. For those wishing to purchase calves, usually good calves may be bought at reasonable prices for club work. Other types of clubs may be formed in any area where there are ten members. These include swine clubs, grain, poultry and potato clubs, and many other types of clubs. Calf Clubs to be organized this year include the Sutton Club already under way, the Schomberg, Woodbridge, Markham and Sharon Clubs. A Baby Beef club will also be organized on a county basis.

A Tractor Club will be organized in the east central area of the county and open to boys in East Gwillimbury, Whitchurch and east King. Only one

Tractor Club can be organized in the county each year and because of this, boys in the above area should take advantage of the club this year. Tractor Club members must be 14 years old by May 1st. A few of the rules for joining are as follows: Members must be farm boys and girls 12 years old by May 1st and not over 21 by November 1st. Calves must be grades or purebreds (not cross bred) but must be sired by a purebred bull. Calf Club calves must be heifers born between Jan. 1st and May 1st. Baby Beef Club calves may be steers or heifers born between May 1, 1954 and Feb. 1, 1955. Calves must be owned on the farm where the boy resides.

Organizational meetings will be held early in April and boys and girls interested in joining a 4-H Club are invited to get in touch with W. M. Cockburn or Ed. Pearson at the Dept. of Agriculture, Newmarket.

**THIS PEDAL** does more than just feed gas to an eager and high-powered V8 engine.

When you give it the extra nudge that moves it beyond the full throttle position, something happens that never happened before in an automobile.

You hear a businesslike purr, which tells you that twenty power vanes, deep inside the 1955 Dynaflo Drive, have changed their pitch—just like the variable pitch propellers on a modern airliner.

And with the same result in the way you get-up-and-go, with a safety-surge of power for pulling out of a tight spot on the highway.

Words can't describe it. It's a new sensation—something you simply must try for yourself.

There's nothing like it on the 1955 new-car horizon.

Fact is, there's a lot to see at your Buick dealer's. There's fresh new styling. There's higher horsepower in every Buick V8 engine. There's a new Airpower carburetor. And there's good old-fashioned

integrity in every nut, bolt and rivet. But, this year, don't simply make a visit to the showroom where these trim and thrilling new beauties are on display.

The smart thing to do—if you want to know what's what in new automobiles—is to get behind the wheel of a 1955 Buick and drive it. How about doing that soon?
