

Escape from Perilous Adventures

(Continued from front)
Stouffville Co. should build into Unionville. We built into Unionville in June, 1906.
Early in 1909 a public meeting was advertised—to be held in Vaughan Township Hall at Vellore—for the purpose of discussing a proposal to build a telephone system to serve the

people of Vaughan Township. Being advertised as a public meeting, our Directors attended the meeting. Several directors of The Markham & Pickering Co., also a representative from The Bell Telephone Co. were present.
The people who were most vitally interested—that is the rural dwellers in Vaughan Township—had very little to say; they were seeking information. No one among the independent men had met the

Bell man until that day.
It was not long ere a lively discussion developed: each side endeavoring to win the people of Vaughan. The Bell man was not diplomatic as was T. H. Ashley. He declared that The Bell Co. had never been hostile to independent companies, and endeavored to contradict some of the statements that had been made by stating that no responsible Bell Telephone man would manifest such an attitude. When asked whether he regarded Mr. A. T. Smith as a "responsible" official he had to admit that Mr. Smith was his superior. He declared that we must have misunderstood Mr. Smith.

While the meeting at Vellore, came to no formal conclusions, we "Independent Telephone" men were well satisfied, and at our first meeting our Directors took important action, by deciding to move towards development of that portion of Markham that was untouched by independent telephone development, and which could be considered as lying within the Richmond Hill district: to this end we drafted a circular letter to be circulated among farmers in the area.

We also decided to seek a conference with The Markham & Pickering Company, for the purpose of clearly defining the boundary between our system, should we both build into the western part of our Township. In April we communicated with the newly formed Woodbridge & Vaughan Telephone Co. and suggested an exchange of business between our respective systems and made two proposals: First that they establish an Exchange in Richmond Hill, and rent switching service to our Company, in which case we would refrain from soliciting subscribers in Richmond Hill, or—as an alternative—that we establish an exchange in Richmond Hill: develop the village, and rent switching service to The Woodbridge & Vaughan Co. The Woodbridge & Vaughan Co. decided to establish their Exchange at Maple. Following receipt of this information, we applied for—and obtained from the Municipal Council at Richmond Hill—permission to erect poles, and wires on the streets of the Village, and we wrote to The Bell Co., requesting resumption of negotiations, for long distance connection.

When negotiations halted in 1908—the reason had been that Mr. Ashley, for The Bell Co. had insisted that we accept connection, with The Bell System, at Stouffville; also that we agree to not extend our lines, towards Richmond Hill, beyond the point that they had reached, at the time of our negotiations. In 1909 when Mr. Ashley arrived to resume negotiations, we were in a very strong position: we had obtained permission to erect our lines, on the four streets of Richmond Hill, and—as several merchants in that village had expressed a hope that they could obtain our service—there was a strong probability that we might get many telephone subscribers; this was doubly true with prospective free exchange with the Woodbridge & Vaughan subscribers. We again requested connection with The Bell Co.'s long distance circuits at Richmond Hill, upon the regular long distance rate. Mr. Ashley informed us that we could have the connection at Richmond Hill, provided we could arrive at an agreement concerning division of territory.

In the meantime The Vandorf Telephone Co. intimated to us that we could buy their system, and their charter, if we could continue to their subscribers the long distance connection that they had had with The Bell System. This brought into the negotiations consideration of that part of Whitchurch Township that was adjacent to Aurora. All parties had a mind to reach an understanding, and we made rapid progress: it was mutually agreed that to The Bell Co. would be committed the development in Richmond Hill, and in Aurora, and along Yonge Street and to The Bethesda & Stouffville Tel. Co. would be committed the rural areas, excepting Yonge Street lying adjacent to Richmond Hill and Aurora.

With the execution of this agreement our Company was relieved from the danger that was associated with our dreams of expansion.
Our boundaries were now clearly defined, on every hand, excepting along a few miles, of prospective contiguity with the Markham & Pickering Co. But this is another story.

CEDAR GROVE

Two things were outstanding after Tuesday's meeting on the planning of Markham Township. A great deal more time and a great deal more work has been spent on the planning of this township than any of us realized and the work has been done by men who, realizing their inability as planners, nevertheless have the sympathy and interest of Markham very much at heart.
Dr. Douglas Tanner spoke informally and frankly of the problems facing a Planning Board and gave a clear picture of a well guided, progressive future for the township.
Zoning the area (covered by a by-law) seems the most sensible way of allotting space to industry, housing, commerce and agriculture. The difficulty of controlling these zones is burdened with headaches. What does one do with large areas which have been used as gravel pits, leaving great excavations bereft of topsoil and vegetation? How can subdivisions

Norm takes part in the plowing competition held on Wednesday. We wish him every success.
and gas stations be controlled and conveniently placed; property fairly assessed for both farmers and residents; industry be sensibly brought in without frustrating trustees with frantic needs for schools to educate the children of numerous workers?

The job is a big one—a very big one. It has been well and wisely begun but now the need for a Town Planner is imperative. It will take professional wisdom, experience and full time to put the land in Markham Township to its best and most profitable use.
Myrna Burkholder and Geo. Bennett are both on the sick list this week, but Mrs. Tapscott was able to return home on Tuesday feeling very well again after her enforced rest with Bert and Ida.
Here are the Euchre results: Mrs. Percy Brown, Winnie Elson and Lella Burkholder; J. Elson, Jack Walton and Fred Connor. Don't forget there will be another euchre in 2 weeks.
Surprising how quickly that last and sudden burst of winter was eliminated by a determined spring. It was rough while it lasted but certainly settled our village into a beautiful peace for a few days. Some

of my informers tell me there has been nothing like it for fifteen years. I have waited seven to be snowed in, finally got my wish and enjoyed every minute of it thoroughly.

Births

ARNOLD—Mr. and Mrs. Gordon Arnold, Stouffville, happily announce the birth of their son on March 29, 1955, at Brierbush Hospital.
