Markham Bylaw To Regulate Gravel Pits

Markham Township Council passed a bylaw on Monday afternoon to regulate gravel pits within the municipality. The new law requires these pits to be fully fenced with barbed wire at the top of an

IT'S SUCKER TIME AGAIN—Spring sucker run attracts thousands of fishermen in Ontario as these fish move from lakes into streams to spawn. Percy Major uses dip net at Alliston, Ontario.

eight strand fence. In addition they are required to have gates at each entrance and to be placarded against trespassers every two hundred feet.

A considerable portion of Monday's meeting dealt with various restrictions and ways and means of regulating various activities within the township. There was considerable discussion regarding the dumping of septic tank waste in the municipality and solicitor J. D. Lucas who was present, advised that provision was now provided in the Statutes whereby such dumping could be completely prohibited or regulated as council saw fit.

"It would be hard for us to prohibit when we have hundreds of our own septic tanks which have to be emptied somewhere," commented Councilor Griffin.

Council agreed that prohibition was too drastic and requested the solicitor to prepare a bylaw regulating and designating where such dumping could or could not take place.

The monthly report of the Police Dept. revealed ten accidents investigated, sixty summonses delivered and a

total of 278 calls made by the force in all. A notation on the report also drew attention to a complaint regarding dogs running at large in Union School Area No. 1, the Police Chief stating that the handling of this problem could be made much easier if a poundkeeper was engaged.

CEDAR GROVE

Cedar Grove is divided this week, conversationally. The women are talking Easter bonnets and the men are talking bad roads. Some of the tractor owners in the vicinity have an almost full-time job rescuing motorists from the mire. Gordon Reesor of Port Perry and Austin of Cedar Grove absorbed the surplus volumes of Reesor Family Histories following the family reunion five years ago. They now report that there has been a brisk demand during the last 6 months and only four copies remain. The Ontario Department of Archives stated that this was the best family genealogy published in Canada and this edition will now become a collector's item. The above committee would appreciate learning of any available used copies.

The Gondoliers is rapidly reaching the final polishing this month. Our news of North Scarborough's Choral Society comes from Evelyn Lapp who is very enthusiastic about this year's production. Evelyn is singing the role of the Duchess. The tickets are now on sale and may be obtained from any member of the cast. This year the seats will all be reserved, so it will be wise to plan this outing in advance. Price: \$1.00. Dates, April 20, 21, 22, 23.

Wilfred Booth who lived in Richmond Hill but was very well known in our village, died suddenly last Friday. We extend our sympathy to his brothers, Albert and Levi Booth.

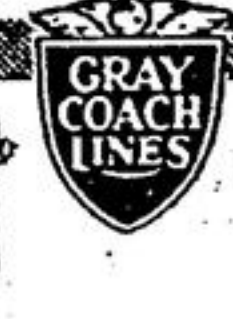

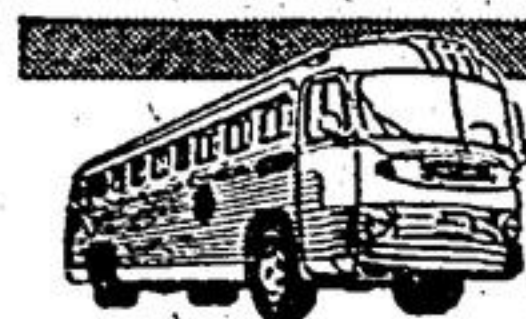

COUNTY FIELDS DRY RAPIDLY

Given a few more days of good dry spring weather, farmers will be on the land, local farmers said today. In all parts of the county, fields are rapidly drying, especially in the higher, hilly land in the Uxbridge area.

In other parts of Ontario, notably central western Ont., heavier, drifting snow which fell just 10 days ago, still lies in drifts along the fence rows.

Boy Killed by Silage Cavein

Eleven-year-old Terry Harrison, 5th concession of Gwillimbury west of Mount Albert, was instantly killed on Friday evening while working in his father's silo. A huge pile of frozen ensilage became dislodged and toppled down on the lad. His two brothers, Rodrick 17 and Elgin 12 attempted to rescue the boy by digging him loose with their hands. All attempts to revive him failed. The three brothers were cleaning out the silo when the accident occurred. The older boys were outside when they heard the roar of the falling ensilage. Local police and firemen were summoned. Terry is the grandson of Mr. Joe Harrison, well-known in Mount Albert.

STEADILY DON MILLS GROWS

More than 1,400 new homes and apartment suites occupied by 5,000 men, women and children. That's the Don Mills residential picture today. It is an accomplishment that has been achieved in less than two years... and it's only the beginning. As President Angus McClaskey of Don Mills Developments Limited reports, the 1955 residential program alone embraces 1,000 single family homes for sale plus further rental accommodation. All houses are designed especially for Don Mills... 100 distinct designs for the 1955 program... with construction being undertaken by 20 different builders. The above aerial photo shows part of the central northwest neighborhood in the foreground, part of the southwest neighborhood in the central background, the northwest elementary school at the middle right, part of the first apartment project at the middle left and, on the horizon, the skyline of Toronto.
