The Rouge Conservation Authority Members

Shown in the photo are members of the Rouge, Duffin's, Highland Creek and Peticocat Creeks Conservation Authority. The group meets monthly at Graham House, Markham.

Formed a year ago, the Authority is making good progress in laying plans for flood control, preservation of park lands and general conserva-

tion in the respective watersheds. Hurricane Hazel and the resultant flood damage has added tremendously to the problems that face the Authority. This year the Authority has purchased a tree planter which may be rented for a very small fee. Farm ponds is another project that is creating interest among

many farmers.
