Mr. Harry Maynard, chairman of the Community Centre Board, said that a recent amendment to the Act governing Community Centres made it possible for a building program such as the one proposed for Crosby Arena. He said, however, that it was the feeling of the board that plans should be more fully presented to the general public to get their reaction.

Minimum size must be incorporated into the plan, when the grant would be \$5,000. A question is whether the community feels the need for such a hall. Also better drainage is necessary to improve the ice surface before next season.

Many a man owes a lot of his success to the cool, level head on his wife's shoulder.
