End of Fox Bounty Decreed For Ontario County

Long a matter of controversy in Ontario County, the \$3 bounty, paid for foxes, was discontinued on February 1st. A subject of many debates in the county council over the past years, the bounty was last week thrown out and was paid only until the end of January.

Members learned that last year the county had paid bounties on 1,515 foxes, or a total of \$4,545. It was noted that neighboring counties have also discontinued the bounty.

In one phase of the discussion, it was suggested that the \$3 bounty on wolves also be discontinued. County Clerk W. Manning observed that the province pays \$10 of that amount but stipulates that the counties must pay at least a \$25 bounty on wolves. The wolf bounty will continue.

Report from Parliament

By Michael Starr, M.P., Ontario Riding

The most interesting aspect of the whole Throne Speech Debate has been the objection to the shipment of Harvard Trainers to Egypt. It seems that in June of last year the Cabinet decided to sell fifteen Harvard Trainers to Egypt along with some other war materials. Three of these were shipped recently and when this was found out, quite a burst of criticism arose because of the fact that there is great tension in that area, particularly between Egypt and Israel.

When questioned in the House of Commons, members of the Cabinet, who presumably did not seem to know or were loath to divulge any information, but the pressure from the Opposition benches was too much and eventually they admitted the sale and the shipment. The Honourable Lester B. Pearson in his speech endeavoured to explain the situation and Canada's part in the sale of this material but the Government was again severely criticized for the fumbling and evading of questions which were being asked in the House of Commons.

The Liberal Party promised National Health Insurance to the people of Canada immediately after the First World War. To date nothing has been done despite the concentrated efforts of many organizations and the Conservative Party. This pressure has been intensified in the last two or three sessions of Parliament and some action is now being taken to implement a plan of Health Insurance that would be acceptable to all concerned. During this week the Provinces have been discussing this matter with the Federal authorities here in Ottawa and it is

AN APPLE A DAY

It seems only a short time since almost every home had a barrel or two of apples in the cellar during the fall and early winter. They don't sell apples in barrels any more, so the fine old custom has passed.

Unfortunately, most families don't seem to eat so much native fruit either, which is not a good thing. The old-fashioned lavish way of using apples to eat most evenings, and making apple pie two or three times a week, is a rarity. We find the curious situation in which oranges are about as common as apples in a great many homes.

It is fine to eat plenty of oranges, but it is unquestionably even better to eat plenty of apples. For one thing,

CLAREMONT GOSPEL CHAPEL

On being asked, Why is it that the Spirit of God is convicting and converting so many older people in the Gospel Chapel at Claremont, when the emphasis in our day seems to be on youth for Christ, I said it could be that those interested in the Chapel are brethren and sisters in Christ well over middle age, drawn from many denominations, all striving together for the faith of the gospel. "They have also a young peoples group reaching children that do not go to Sunday School," or it could be, that the preaching is such, that the individual is made to feel his or her need of repentance, or it could be, and church going people for while some are well known, and church going people that have taken Christ as their saviour, the majority are those without church affiliation, seemingly the forgotten ones, and God in His great love is fulfilling Psalm 9:18 "For the needy shall not always be forgotten." One of the converts went home with her new-found joy, wrote her testimony to the saving grace of God, set it to music, and sang it before the congregation. Doubtless the Spirit of God is putting His approval on the effort, by adding to The Church such as are being saved. Yes, to those that will hear, the word is, The Master is come, and calleth for thee.
