

# Ask Unemployment Ins. For Farm Workers

In a policy statement on radio and television, the Canadian Federation of Agriculture delegates declared that the "CBC has for the most part done an outstanding job in the discharge of its very great responsibilities." The Canadian Federation of Agriculture also has endorsed privately owned radio stations in Canada.

The Canadian Federation of Agriculture's 1957 five-day annual meeting will be held in Winnipeg next year commencing January 21st. The annual presentation of the CFA's brief to the Federal Cabinet will be made February 14th. Some of the highlights of the five-day meeting were as follows:

Addresses — (1) President H. H. Hannam said that apparently the only notable exception in Canada's picture of record prosperity is "that of the farmer and his family".

2. Insufficient university research in agriculture and inadequate study of advances being made in agriculture in European countries are the two major weaknesses of Canadian agriculture, stated Dr. G.S.H. Barton, former federal deputy minister of agriculture.

3. World trade in farm products, which since World War II, has lagged behind trade in non-farm products, will continue to lag behind, said L. A. Wheeler, consultant of the International Federation of Agriculture Producers.

Policy Statements — (1) A general easing of government credit to Canadian farmers was urged.

2. Canada should continue to pursue a national policy aimed at achieving the freest flow of trade between nations.

3. The meeting noted with regret a press dispatch reporting a speech made by the Rt. Hon. James Gardiner, Federal Minister of Agriculture, at Winnipeg. He is reported to have said that farmers' cash income in the past five years has been the highest by far we have ever had. It was pointed out that in the past five years farmers have experienced a sharp decline in farm income.

Resolutions

4. Wheat: It was urged that the domestic price of wheat be established at a price of not less than \$2.05 per bushel basis No. 1 Northern Lakehead. Every effort should be made to bring about a satisfactory renewal of the International Wheat Agreement.

5. Dairy Products: The Canadian government will be requested to continue its floor price of not less than 58 cents on butter; it will be asked to include a 3¢ cent a pound duty on milk powder from New Zealand and Australia; adequate protection against the importation of edible oils will be urged; and an upward revision of the special tariff agreement on cheddar cheese will be asked.

6. Poultry: The government will be asked to place a floor price on poultry meats, and to stiffen its qualifications on Grade A eggs.

7. Unemployment Insurance: The Unemployment Insurance Commission will be asked to institute a form of voluntary unemployment insurance for farm workers.

8. St. Lawrence Seaway: The CFA was requested to give consideration to holding periodic meetings of representatives from all parts of Canada's economy to study the probable effect of the St. Lawrence Seaway on the economy.

Officers for 1956

H. H. Hannam of Ottawa was re-elected president of the CFA; W. J. Parker of Winnipeg was elected first vice-president; and J. B. Lemoine of Montreal re-elected 2nd vice-president.

Outside the school, High School students are very active in sports. In figure skating, three high school students, Graydon Manuel, Carol Hoover and Pat White belong to the Stouffville Skating Club. The Minor Hockey teams from Stouffville have many high school students playing. The Midgets, who upset Unionville 5-1 on Tuesday night, featured Murray Holden, Gord Eckardt and Norm Hendricks. **BROOKLIN IN BRAWL AT RICHMOND HILL**

In a home and home series between Brooklin Juniors and Richmond Hill last week, the two clubs divided the set. In the game played at the Hill, a wild brawl broke out in the late stages of the contest and police were called in to quell the outbreak. One of the constables was on the receiving end of a wild right hand thrown by one of the Brooklin players. The game was delayed for some minutes by the fight. Brooklin edged their rivals in overtime.

One of the basic factors in the rise of auto accidents is the fact that the speed and acceleration of the auto has increased greatly, with no corresponding increase in the reaction time of the driver.

# Revise Junk Yard Rules in Pickering Tp.

The application of Charles Wilcox for renewal of his permit to operate a wrecking yard in the township of Pickering was allowed recently by council after a lively discussion was held to debate the matter. On a recorded vote, approval was given, with Mr. Lawson dissenting, subject to certain conditions.

Mr. Wilcox will be required to sign an agreement in which he will limit his wrecking yard to five acres. On the west side of his property he will not be allowed to cut trees closer than 500 feet to the lot line, and will agree to plant three rows of trees near the other three sides of his lot. The trees must be no further than ten feet apart, and must be planted before the end of May.

Agreeing to the issuance of the permit with the terms as set out were Messrs. Scott, Newman, Pugh and Mrs. McPherson.

# This is National Health Week

National Health Week is being observed this week and as Patron of the Health League of Canada I would again call on all Canadians to support the important work of the League.

The Health League, in co-operation with Departments of Health across Canada, sponsors this campaign as part of a continuing programme to stress the importance of good health.

Medical science has made great strides in recent years, as we know, but undoubtedly the surest way to good health is by the prevention of sickness through sound practices.

Let us assist the Health League of Canada in its efforts to make known to as many Canadians as possible the principles for which it stands, and thus contribute to the happiness of the individual and the well-being of the community.
