Melville W. A. Celebrates Silver Anniversary

On Feb. 29th the Melville Women's Association celebrated its silver anniversary with an afternoon meeting and tea. Friends and former members from Stouffville, Ballantrac, Victoria Square, Unionville, Lindsay, King and Toronto were present. Mrs. R. Roxborough, the president, presided over the meeting. Rev. R. and Mrs. Chapin of Greenbank were present and Mrs. Chapin gave a very inspiring, devotional talk and led in prayer. Mrs. Thos. Kerr of Whitevale, a former member, rendered two vocal solos. Rev. H. Moddie, the pastor, extended greetings and a welcome from Melville, to the guests. Mrs. Woodstock of Toronto who is the treasurer of the Toronto East Presbyterian W.A. brought greetings from the Presbytery. Mrs. Prince, who is a past president of the Presbytery W.A., gave a very splendid message taking as her subject "A Basket of Fruit." The hymn, "To All the Saints Who From Their Labours Rest" was sung in memory of the members of the Association who have passed on.

Following the meeting all adjourned to the basement where tables were set up and tastefully decorated with spring-like daffodils. The head table was graced by a beautifully decorated anniversary cake, made and donated in memory of the late Mrs. Wesley Powell by her three daughters-in-law. It was in Mrs. Powell's home that the Women's Association was organized 25 years ago. Mrs. Moddie, our lady of the Manse, and Mrs. Topham of Stouffville who was the first president, poured tea.

Those who have served as presidents during the past twenty-five years are as follows: Mrs. Topham of Stouffville who was present; Mrs. N. Gayman, who is deceased; Mrs. A. Fleming of Unionville, present; Mrs.

T. Popham of New Toronto, who sent greetings; Mrs. H. Forrester of Melville, present; Mrs. Alf. Miller of Headford, present; Mrs. Wm. Brodie of Melville, present; Mrs. H. Forrester, a 2nd term; Mrs. John Nigh of Melville, present; and Mrs. R. Roxborough who is serving at the present time. Each one spoke briefly of her term of office and extended her best wishes for the future success of the W.A. Rev. R. Chapin extended his congratulations and best wishes. Everyone present felt it had been a most successful and enjoyable occasion and the committee in charge wishes to thank everyone who helped in anyway.

Organize Cubs in Musselman's Lake Area

Mrs. J. Wylie

The last Home and School meeting was one of the most interesting to date. The school nurse, Miss Campbell, outlined the structure and function of a Health Unit and then introduced Dr. D. A. Hutchins. The doctor gave a very informative talk on the danger of rabies in this area. It was an eye opener to almost all present to learn that the disease had become so acute. He stressed the importance of reporting any dog bite immediately, and if possible to impound the animal for observation. The wild life in this area is highly infected and unless precautions are taken it may spread the disease to the pets.

The meeting of parents interested in the formation of a Cub Pack in this district was well attended. Unfortunately the speaker, Mr. Pillings, was unable to attend, but he gave his O.K. to carry on and organize. The first meeting for registrations was Tuesday, March 8th, and the meetings of the Pack are to be held each Tuesday thereafter at 7:30 p.m. The boys will meet at the school (Ballantrac). A very able group committee has been appointed to guide the Pack and it is wished much success in this new endeavor.

Don't forget the euchre tomorrow night at the school, 8:30. Come and have a good time. The prizes are tops and the lunch terrific.

Mr. and Mrs. G. Villere, Musselman's Lake Bowling Alley, are off to Sudbury for a few days on business.

Mr. Jack Wylie, Lakeshore Rd., spent last weekend visiting his father-in-law at W3saga Beach.

We hope you are planning to go to Parents' Night at the school to-night. It's an excellent opportunity to meet the teachers and discuss any problems you or your child may have concerning school. The rooms will be open for inspection at 8 o'clock, and the teacher will be there at that time to chat with you and show you the work done by your child and others. Your child will appreciate your interest and so will the teachers if you attend. Tea will be served.

The Bowling Alley has a special inducement for bowlers on Thursday and Saturday nights. The high single for the two nights will win a lifetime Zippo Lighter. This week's winner was Bruce Forfar. Congratulations. Here are the Men's League scores: Cards Excavators 51, Lees Sandmen 49, Cartwright Fishmen 42, Toppers Smoke Eaters 42, Childs Whirlwinds 39, Browns Rockets 36, Overs Rifles 35. High single, Evert McNeley, 300. High triple, Frank Cartwright, 740.

Research Proves Minerals 'Must' in Livestock Feeding

George Timbers and Stouffville Co-op and Acme score another first. George, always conscientious and progressive minded, your friend and Manager of Stouffville Co-op is now handling the complete Acme line of combined Minerals and Conditioners, which are beyond question the Finest Quality Products of their kind (Reasonably Priced as well) ever manufactured or offered for sale in Canada.

"Minerals are the Most Important Single Feed Fed to Livestock." This is no idle statement, but made by a leading authority, a Professor of Animal Nutrition in Florida, USA, who in fact, received his Doctor's Degree on research work done specifically on Minerals. It is of such importance that it bears repetition - "Minerals are the Most Important Single Feed Fed to Livestock."

Leading Authorities are in agreement with this statement and many feel that approximately 90% of livestock disease troubles originate from nutritional deficiencies. Even slight mineral deficiencies (which in turn automatically results in Nutritional Deficiencies) can affect the animal hormone balance, thus paving the road for trouble and disease.

Since Minerals affect the Feed Assimilation of the entire ration, and therefore the general nutrition and well-being of the animal, one can readily see why they are considered of such major importance.

Although these same authorities freely admit that they don't begin to know all the answers or cures, or preventive therapy, they do know that nutrition is the key to so many of our livestock diseases and problems. And that proper supplemental mineral feeding (of a Pure and Quality Product - one that is fully assimilated by the animal) and proper nutrition are inseparable. Proper nutrition is not possible, no matter how plentiful and good the ration, when Minerals are lacking.

Therefore Supplemental Mineral Feeding becomes a "must" and is of course the answer.

When Minerals are lacking, even slightly, feed efficiency goes down and feed costs go up. For although only about 2% minerals are required for even the best livestock ration, they critically affect the nutritional value of the remaining 98%. Even when minerals are only slightly deficient, animals can't make the most profitable use of home-grown feeds and supplements, no matter how plentiful. Minerals affect the assimilation of the Entire Ration.

The importance of Minerals now being an unquestionably established fact, it is only logical to go on and see what makes a Quality Mineral and Conditioner. Many factors must be considered, but the major ones are -

1. Scientific Knowledge
2. Careful and proper blending under hygienic conditions
3. Meticulous and infinite care in mixing
4. A high Phosphorus content which can be fully assimilated by the animals
5. A product that is palatable to the animal (especially Mineral and Conditioners for Cattle)

Now the first five factors mean practically nothing if Pure and Quality Ingredients are not used, for - "The value and Quality of any bag of feed or combined Mineral and Conditioner, is only as good as the ingredients that go into that bag. The only value and benefit to livestock of any combined Mineral and Conditioner is that part which is available and assimilated by livestock. What they don't assimilate is of no value to them. It does them no good.

Let us now see why ACME is the finest. All the factors necessary for a Quality Mineral and Conditioner are taken into consideration in its manufacture. For example, Acme Brand Products are Pure, are Fully Available to the Animal and are Fully Assimilated by the Animal, because ACME Uses Only the Purest Ingredients. Acme Products contain NO Rock Phosphates, NO Soft Phosphate and Colloidal Clay, NO Sea Coll and NO Bone Char. As sources of Phosphorus, ACME uses instead of the four above mentioned products, such pure products as Calcium Phosphate, Dibasic and Di-Sodium Phosphate.

Let us for example take Acme Super Mineral and Conditioner Combined. A truly outstanding product, combining Minerals with Vitamins A & D and Cod Liver Oil. It is Reasonably Priced. Very Palatable (the cattle really like it), and contains NO SALT. It contains 10% Phosphorus. This Phosphorus is 100% Available to the Animal and 100% assimilated by the animal.

Farmers in your own interest, because it is to your advantage, George Timbers suggests that you try 100 lbs. or even 50 lbs. of Acme Super Mineral and Conditioner Combined - with Vitamins A & D and Cod Liver Oil. Prove it to yourself in your own barn - once you've tried it, you'll NEVER feed any other kind.

BLOOMINGTON

The March meeting of the Ladies' Aid was held at the home of Mr. and Mrs. Percy Brown on Thursday afternoon with Pres. Mrs. E. Lemon in charge and reading a letter from Miss Marie Neal, missionary at Sault Ste. Marie, for whom we have a monthly missionary offering. Greetings were sung to Mrs. O. Baker, Mrs. E. Lemon and Mrs. H. Mills as they contributed their birthday offerings. Several of the ladies have been busy making bonnets for Mrs. Memple's mission work in Africa and over fifty very attractive bonnets were contributed. Verse of scripture with word "must" was given in answer to the membership call. The program by Mrs. A. Smith included a reading and solo by Mrs. Jos. Winterstein and guest speaker Mrs. W. Wideman. Mrs. P. Brown and Mrs. Gordon Brown were hostesses.

A quilting and pot luck dinner was held at the home of Mr. and Mrs. E. Lemon.

The Lilly family have moved from the E. A. Storry farm to Claremont.

Mrs. E. A. Storry was in Toronto over the weekend.

Mr. W. Carnegie and Mr. and Mrs. J. Carnegie of Uxbridge were Sunday guests with their daughter, Mrs. Tate.

Our private statistician reports that the average wife wastes four months of her life asking her husband what he wants for dinner.

RINGWOOD

Mr. Gordon Holden is home again, we hope soon much improved in health.

Mrs. Fred McNeil was speaker at the C. E. missionary meeting last Monday night. We enjoy the fellowship of those who visit us from sister churches.

Mrs. Ross Vague spent a few days last week in Toronto with her daughter, Mrs. Tew, also while there she called on Mrs. Rae Steckley, finding her slightly improved in health.

Mrs. Harry Kennedy entertained Rev. E. Morton who visited her and her father Mr. E. Sinclair on Thursday. Rev. Morton officiated at Doris' and Harry's wedding some years ago.

A few church friends, relatives and neighbours gathered at the new home of Mr. and Mrs. Lorne Morgason on Wednesday evening to shower them with gifts, good wishes and a welcome to the neighbourhood.

Our Sunday School was well represented at the Rally on Friday night held in the Gormley Church. Rev. Adams was the speaker and the musical numbers and a recitation were provided by the township Sunday School pupils.

Mr. and Mrs. Fred Steckley, Mr. and Mrs. Jacob Grove, Miss Ada Grove and Mrs. T. Grove had Sunday dinner with Mr. and Mrs. Floyd Steckley.

Instead of the regular 2:30 p.m. time, our church service will be at 7:30 p.m. on Sunday March 11, as the speaker for the evangelistic service, Rev. Norman Street, will be with us at that time.
