## Must Halt Friction in Twp. Office - Council

The apparent friction between employees in the Township's Municipal Offices at Brougham was re-opened for discussion at a special meeting of Council on Monday night. Each of the members expressed concern over the lack of co-operation between employees.

The discussion centred around the picking up, opening and distribution of mail. At a previous meeting, Council stated that a party from the Clerk's Office should be responsible for these duties. Council learned on Monday that both the Assessment Dept. and the Collection Dept. were picking up mail at the post office.

"I think that there are personal problems with in the office," stated Councillor Robert Stewart.

"There's no doubt about it," agreed Reeve Lawson.

"Let's stop it now," said Councilor Sid Pugh.

"We experienced the same hassle twelve months ago," stated Councilor Stewart. "I believe it stems from the Assessment Dept."

Reeve Lawson suggested that the Management Committee should discuss the problems with the Heads of Departments.

It was agreed by Council that a clerk from the Clerk's Office should pick up the mail, open show and deliver it to the various Departments and that the Post-master should be instructed to give the mail only to that party.

## Plan Swank Country Club Development Near Atha

Well-known bandleader, Mr. Art Hallman, accompanied by Messrs. Stan Patton and Jack Hemmings appeared before Pickering Township Council on Monday evening to request permission to erect eight summer cottages near Atha at lot 29, conc. 5. They verbally informed the members that their proposed homes would be only 800 square feet in size.

Their application was refused by Council. The delegation was informed that the minimum size of homes in the Township was 960 square feet. Mr. Patton, the spokesman for the group, said that his company would consider bringing their proposed structures up to the Township's building standards.

Dep. Reeve Sherman Scott was insistent that no homes should be permitted in the municipality under the 960 square foot limit. He feared that the summer cottages might become year-round dwellings in future years, as had occurred in other sections of the Township.

Mr. Hallman stated that it was his intentions to erect nice houses and not shacks. The men also plan to build a \$10,000 swimming pool on the eight acre site. He admitted that homes of 960 square feet were larger than his company had anticipated.

## Ratepayer Suggests 5% Discount for Early Tax Payment

Mr. Wm. Fairgrieve, Spruce Hill Road, Dunbar, appeared before Pickering Twp. Council at a special meeting on Monday night and requested that the members give some consideration to a 5 percent discount on early payment of taxes. The present discount is 1 percent.

The ratepayer also suggested that the Second Division Court should be used to collect delinquent taxes rather than a Toronto firm of collectors.

Reeve Lawson informed Mr. Fairgrieve that an increase from 1 to 5 percent in discount for early tax payments would mean an indebtedness of \$16,000 in Township tax receipts for one year. He said it would be necessary for Council to increase the mill rate in order to make up the difference.

We would be penalizing the man who pays his taxes when they are due," said the Reeve, "and compensating the ratepayer who is able to pay his taxes in advance. The rich would get richer and the poor would become poorer," he noted.

With regard to the use of a Toronto firm of collectors, Reeve Lawson informed the ratepayer that this was the method used by Mr. Baker, the Twp. tax collector and was out of Council's hands.

Clerk Lloyd Johnston informed the Reeve that Mr. Baker was quite satisfied with the firm's work. The Reeve noted that the Second Division Court was still used in certain cases. He informed the ratepayer that if he wished to take further action on the matter, he should consult his Solicitor.

## Drive with Lights On Through Dense Dust

Some roads in Pickering Twp. have become so dusty that drivers have been forced to use their car lights during the daytime. This information was revealed at a special meeting of Council on Monday night.

Councillor Mrs. Jean McPherson said that the Valley Farm Road was extremely dusty. She said that the condition was aggravated due to the heavy gravel truck traffic.

Councillor Sid Pugh agreed that a similar condition prevailed on the fifth concession.

Reeve Lawson said that it appeared that more calcium should be ordered and applied to the roads. Councillor Hawthorne suggested that a Road Committee meeting should be arranged. Council agreed that they should meet on August 9th at 9 a.m.

## To Honor Former Reeve

The concession road east of the Village of Greenwood between No. 2 and No. 7 Highways will be legally named the Westney Road. Council agreed that the Clerk should prepare a by-law for presentation at their next meeting in honour of Mr. W. H. Westney, a former Township Reeve. Mr. Westney resides on this road.

The suggestion was made by Mr. Edgar James, Ward 2 Councillor. Council supported the idea. "Mr. Westney has done much for this Township," agreed Reeve Lawson.

Mr. Westney is still active in municipal work. He is Chairman of both the Conservation Board and the Assessment Appeal Board.
