

Over 450 Dogs and Cats Receive Free Rabies Vaccination

"Laddie," a fine collie dog owned by Mr. Jack Palmer of Musselman's Lake, shows little fear of the large vaccination needle held by Dr. Dennis O'Connor of Stouffville. Dr. O'Connor, assisted by two Department veterinarians, handled more than 450 dogs and cats at the rabies clinic conducted in Stouffville on Thursday.

More than 450 dogs and cats were presented for rabies shots at the Stouffville clinic, conducted in the Fire Hall on Thursday morning. An additional 700 animals were vaccinated at Markham on Thursday afternoon.

Three veterinarians were in charge. Dr. Dennis O'Connor of Stouffville, Dr. Tom Dales and Dr. T. H. Spence of Toronto handled the influx of pets. A number of dogs were towed into town on the end of ropes that would capably anchor the Queen Mary. A few rabbits were also presented. One pet, "Thumper," escaped from its pen and vaulted down the Main Street. It was retrieved by its owner after a number of close calls from passing cars. Dr. Dales received a nasty cut on his right hand when one Persian cat objected to the injection. There were no other incidents.

"The vaccination is not a license that permits dogs to run at large," Dr. Dales informed the Tribune. "It's the best protection we have but it isn't guaranteed one hundred percent."

Dr. Dales stressed the reality of the rabies epidemic. He noted that the disease showed a marked increase in domestic animals during the past summer. He explained, however, that the main source of infection was in the foxes. He contended that hunters should make every effort to destroy foxes in the district in an attempt to stamp out the disease.

Double Presentation

Rev. M. R. Jenkinson (left) United Church Presbytery, is seen receiving the gavel as setting chairman of York United Church Presbytery. Rev. Douglas Davis (centre) is receiving the new official stole as the incoming chairman. The stole is being presented by Mr. Elgin Evans of Newmarket, the donor.

Jr. "C" Final At Pt. Dover

The third game of the OBA Jr. "C" championship finals between Stouffville and Wheatley will be played at Port Dover on Saturday afternoon, Oct. 4th at 2 o'clock.

Both teams have won one game. Wheatley took the opener here in Stouffville, 2-0 in twelve innings. The "Cards" squared the series, crushing Wheatley 16-1 last Saturday. It was agreed that the third contest should be staged on neutral grounds.

65 to 85 MPH Brings Fine at Vandorf Court

Marvin Comeau was fined \$36 or five days in jail when he appeared in traffic court at Vandorf, Tuesday charged with driving at speeds of 65 to 85 miles an hour on the Don Mills Road. The officer testified that he had followed the car for four miles.

Comeau pleaded guilty but stated that his speedometer was broken and he didn't know how fast he was going.

Magistrate Pearce advised the defendant that he shouldn't have been operating the car under the circumstances, but since he chose to do so, he should have been able to judge the speed by a side view.

"Tail Light" Improper Term

Five charges laid against motorists for operating cars "without tail lights". The Magistrate advised that there is no such term in the Act. In one case where a motorist had already paid the fine, the officer was ordered to refund the money.

50 Miles in 30 Mile Zone

James Johnston of Toronto charged with driving 50 miles in a 30 mile zone was fined \$21 when his case came up this week for the second time. Mr. Johnston arrived in court after his case had been heard, stating that he had been held up by a detour on the 4th concession.

The number of cases heard on Tuesday was small, being 38 in number, the majority for speeding.

N. Sorotuck of Toronto was assessed \$10 and costs for fishing with more than one line.

New Cadieux Studio Open

Mr. Ted Cadieux has opened his modern photo studio on Main St. and in an announcement in this week's issue, invites the public to visit the new premises. Mr. Cadieux, who carried on a photographic business for some years above the Ratcliff Bldg., acquired the former Miss Urquhart property and has completely remodelled the house and erected a new store next to the street.

The new business place is attractively lighted and finished with vitrolite front. The studio offers adequate facilities for wedding parties and other groups, as well as portrait photos. A full line of photographic equipment is being carried, and the latest items are attractively displayed. See the announcement on page three of this issue of The Tribune.

Mrs. Phyllis Baker Stricken Suddenly

The death occurred suddenly at Donnacona, Que., on Monday of this week of Mrs. Phyllis Baker, the former Phyllis Vanzant, daughter of Mrs. Chas. Vanzant of Stouffville. Mrs. Baker was taken without warning by a heart attack. She was in her 34th year. Besides her husband, Gordon Baker, formerly of Stouffville, the deceased mother is survived by three sons, Robert, Harvey and John and one daughter, Janice. The funeral will be conducted from the L. E. O'Neill Funeral Chapel, Thursday afternoon of this week at 2 o'clock with interment in the Stouffville Cemetery.

"The Fly", one of the most talked about suspense movies of the year, is coming to the Park Theatre here next Monday and Tuesday. See it.

Stouffer's Crest Hardware Ready for Grand Opening

On October 9, 10 and 11, Stouffville will witness the Grand Opening of Reg. Stouffer's Crest Hardware store.

Stouffer Hardware has been completely renovated, nothing has been overlooked, everything from the floor to the ceiling has been replaced or rebuilt with the most modern up-to-date counters and glass shelving available and topped with fluorescent lighting throughout, giving the store a bright, cherry atmosphere. The store from the beginning has been planned with the customers' convenience in mind. The spacious aisles will enable you to browse around. The complete line of hardware, appliances, housewares and plumbing

Goodwood's Flood Project Officially Open on Friday

The first water control scheme to have been undertaken by the Metropolitan Toronto and Region Conservation Authority is to be officially opened Oct. 3.

Known simply as WC-1 by the Authority, it is the \$35,000 project in Goodwood village, Uxbridge Township. It is designed to drain accumulated run-off water from the saucer-like area.

Due to lack of natural drainage, a section of the hamlet has been flooded periodically, usually during the Spring run-off.

The 380-acre drainage area served by the scheme has 60 homes and a population of 250. During peak flooding conditions, it is estimated that more than 22,000,000 gallons of water inundate the flood portion of the Goodwood area.

Residents have been plagued by flooded basements, and flooded and contaminated septic tanks and wells. MTRCA officials look upon the newly-completed scheme as a

health measure as well as a solution to the periodic flooding problem.

The scheme provides for the pumping of the surface waters over the height of land into a tributary of the Duffin Creek.

A system of ditches and culverts were constructed to carry the water to a pumping station which lifts it over the height of land at a maximum rate of 40 cu. ft. per second. Some 1,500 feet of main carries the water to a concrete spillway basin and then to a settling pond.

This is the first of a total of 14 water control schemes currently being undertaken by the Authority, to be completed.

Work commenced on the construction phase of WC-1 last October. Half the cost of the scheme will be borne by Uxbridge Township, with the MTRCA assuming the other 50%. Township and conservation authority officials will attend a brief opening ceremony at 2:30 p.m. next Friday.

York Presbytery of the United Church Opened Fall Sessions Here

York Presbytery of the United Church of Canada met in session in Stouffville United Church this week.

The Presbytery opened with the installation of the new chairman, Rev. Douglas Davis by Rev. Martin Jenkinson, past chairman. A beautiful white stole was presented to the chairman by Mr. and Mrs. Elgin Evans of Newmarket. This stole is to be worn by the chairman of Presbytery when on official duty. A walnut gavel was presented to Rev. Jenkinson in acknowledgement of his leadership as the first chairman of York Presbytery. Rev. Dr. John Line, formerly professor of Emmanuel College, gave a devotional message followed by the sacrament of holy communion.

Rev. Martin Jenkinson outlined the highlights of the United Church General Council in Ottawa. An expanding church has growing pains but its true spirit is seen in its growth of church members, almost one million. When that figure is reached, the church anticipates a missionary budget of \$10 million dollars. Each church is challenged to produce a recruit for the full time ministry of the church in order that in five years this can be matched with an ordained minister.

The next meeting of the Presbytery will be at Melville on October 28th.

Motorists Should Note Parking Regulations

The Department of Highways completed the erection last week of the new signs announcing the new parking hours recently passed by town bylaw. The new signs call for two hour parking only, from 8 a.m. to 6 p.m. each day except Friday when the two hour restriction is extended to 10 p.m. These signs have been erected on Main St. in the business section.

Additional signs restricting several side streets, including Main and Church to parking on one side only, are expected to be erected this week by town workmen.

The local police ask motorists co-operation in observing the new regulations. While warnings only are expected to be given out for a time until drivers become accustomed to the signs, the bylaw will be enforced following this preliminary period.

Bourne & Hunter Motors announce the showing of the new 1958 Oldsmobile at their show rooms this Friday.

Plan School for Retarded Children to Serve This Area

Plans to build a retarded children's school on the southern portion of York County were revealed this week with the announcement of a building fund campaign.

Donald M. Deacon of Blenheim Farms, Unionville, has been named Chairman of the local campaign committee. Present plans call for a preliminary educational campaign among the residents of this area on the growing need for adequate facilities to look after the increasing number of retarded children in this area.

At the present time the only place to train retarded children is the Thornhaven School on Bayview Avenue, south of No. 7 Highway. The Thornhaven School was started in September 1955, when the old Thornlea School house was turned over to the Thornhill Association for Retarded Children. Since that time, the facilities of the school have not been sufficient for the increasing number of people in this area.

It is proposed that the school serve the district encompassed by Stouffville, Markham, Thornhill, Willowdale, Richmond Hill, Maple King and Oak Ridges. The Association felt that Richmond Hill would provide a more central point than Thornhill to facilitate the transporting of students to the school.

The local building campaign will begin the first week in De-

ember following Retarded Children's Week which will be held November 16th to Nov. 27th.

The campaign steering committee is composed of Mr. D. M. Deacon, Unionville, Campaign Chairman; Mr. A. R. Michell, Richmond Hill, Local Proposals Chairman; Mr. H. C. Rogers, Thornhill, Local Resources Chairman; and Mr. John Graham, Richmond Hill, Local Public Information Chairman.

Police Nab Thief At Fenelon Falls

Sgt. Geo. Clayton and PC Don Dukes of Markham Twp. Police journeyed to Fenelon Falls on Sunday to pick up a Toronto man wanted for theft of a car on the Don Mills Road. William Stanley Smith, 22, of East York was nabbed over the weekend. He was found asleep in the stolen car.

Smith, according to Markham Police, took a car in Toronto but was involved in an accident south of Buttonville. He walked five miles and took another vehicle belonging to a member of the highway construction gang. He used the owner's credit card to purchase four tires, gasoline, etc. He was en route to Sudbury.

If you never have any luck at the race track, you'd be smart to cut out the horse play.

County's 20,000 School Children Immunized - MOH

York County's 20,000 school children have been completely immunized against polio, said Dr. Robert King, medical health officer, last week.

"The program of immunization against polio has been more popular among parents than that of any other," he said. "With very few exceptions, and these primarily for religious reasons, parents in York County have not resisted vaccination against polio for their children."

Dr. King said the health unit is now concentrating on basic immunization for pre-school children, six months and older. "The average number of children vaccinated at our centers is about 25 a day," he said.

The county has been free of

new polio cases for more than two years, said the medical health officer.

Dr. King greeted as an improvement which will save both time and labor, a recent announcement by Deputy Health Minister Dr. Brown that polio vaccine will be combined with vaccines for diphtheria, whooping cough and tetanus. The combined serum is not expected to be in use until early next year, he said.

"Until now we have had to have two immunization programs," he said, "one for polio and the other for diphtheria, whooping cough and tetanus, the latter three being already combined in one injection," said Dr. King.

Popular Local Couple Wed

A popular local couple were united in marriage in Stouffville United Church on Saturday evening. Mr. and Mrs. Eldred King are shown signing the register, following the ceremony. The bride is the former Beulah Juanita Rutledge, daughter of Mr. and Mrs. Guy Rutledge, Stouffville. The groom is the son of Mr. and Mrs. Albert King, Markham R.R. 2. The happy couple will reside in Stouffville.
