**CEDAR GROVE**

Last Thursday night the trustees of Cedar Grove School were the guests of the Markham Township Council at But- tonville. It is at these annual meetings that the Council, in co-operation with the Public Schools Inspector's office, present to the trustees the up-to-the-minute news and developments of Provincial and Municipal grant structures. This enables the trustees to determine the needs that are expected from these sources when budgeting for the coming year. Two interesting bits of information were presented at this meeting. The first, and not necessarily the most important, was that due to sections of Acts being amended and repealed, effective the 1st of January, the Township Grant will be discontinued. On the face of it, this was a startling announcement but when it is examined closely it means that the Township will no longer levy for this amount and instead, the local school section will. Therefore, on the next tax bill the Township levy will be lower by 2.5 mills and the local school section levy will be up 2.05 mills.

The second bit of news picked up at this meeting was that the Township Planning Board is again talking in terms of Township school areas in Markham Township. A pamphlet was distributed to all Trustee Boards for them to study. It is not a proposal for them to accept or reject, since this is a decision that only Council can make. Splitting Markham Township into school areas would be a major project. One which would take years to perfect, with a great deal of careful investigation into the merits of those already formed.
