 (April 16)
 Mrs. J. Wylie
 We would like to say a belated Welcome Home to Fred Jaynes who has had a long term in a Toronto Hospital. Two younger members are on our sick list this week—Andrew and Ronny Watson have both been battling the flu bug. We were sorry to hear that Mrs. C. Badgerow has been ill. Deepest sympathy from the whole community goes out to two bereaved families this week. To Mrs. Forfar and family on the death of Mrs. Marie Forfar-Spang, and everyone was much saddened at the news of the death of Mrs. Marshman, mother of Mrs. H. Storry, Aurora sideroad. The Cubs have been given a special assignment and we hope the parents will encourage their boys. They are to make something—a toy or bird-house or anything of this sort, or start something growing by May 11. On Monday, May 11th, they are to bring the results of their work for all to see. Another boy has been successful in obtaining all his proficiency badges. Young Jim Wylie received the last one on Monday night. Still a third is almost ready—Frank Plummer has all but one. He has another reason to be proud. His young brother Miles successfully passed the first star test and received his star. We have Happy Birthdays wishes for two very gracious ladies—Mrs. S. Symms, Lakeshore Rd. celebrated her birthday last Saturday, with a gathering of family and friends in the evening. The second birthday was for the "Lady of the Lake," Mrs. C. Paxton, Lakeshore Road. Paxie celebrates on April 15th. To both ladies, a very Happy Birthday with health and happiness for many years to come.

Cat Veal
Calf Costs
 Most farmers agree that nothing beats whole milk as a feed for growing out veal calves quickly. Packers pay top prices for the creamy white flesh that straight whole milk feeding produces. But two questions often arise: Is whole milk the most profitable feed, and what's the best way to feed milk?
 O.A.C. dairy researchers tried 8 different feeding systems on 32 Holstein bull calves. The treatments tried were whole milk, pail fed; whole milk fed for three weeks, then re-constituted skim milk; milk replacer and nurse cows. These 4 treatments were tested with and without supplements to make up the full eight systems. Here is what they found.
 Calves on nurse cows made the fastest daily gains (2.44 lbs.)
 Calves on milk replacer made the slowest gains.
 Average gain for all treatments was 1.70 pounds per day.
 Hay and concentrate supplements increased the daily gain of milk replacer and skim-milk calves, and increased the dressing percentage of skim-milk calves the most.
 Nurse calves had the highest dressing percentage, 60%.
 Average dressing percentage for all other calves was 54.2%.
 Market prices were highest for the whole-milk fed calves—\$22.72 per 100 lbs. live weight.
 Calves fed skim-milk supplemented with concentrate and hay made the biggest profits.
 Uranium has been used for years, as a colorant in ceramics and glass, but not until World War II did man learn how to control the reactions in order to derive a net output of energy from the atom.

Merlin Grove Among Bible School Grads
 The Annual Graduation Exercises of Toronto Bible College will be held on Friday, April 24, at 8 p.m. in Varsity Arena. Fifty-three students will receive degrees, diplomas and certificates. This number includes 13 who will receive the degree of Bachelor of Theology, 33 who will be awarded the College diploma for their 3-year course, two who have completed the special one-year course for outgoing missionary candidates, and two from the Toronto and three from the Hamilton Evening Class three-year courses. Among those receiving diplomas and certificates will be Mr. Merlin Grove, of Markham. The present Graduating Class has a wide international and inter-denominational personnel. Eight countries are represented among the forty-eight Day Class students—England, New Zealand, Mexico, British West Indies, Germany, China, The United States and Canada. The entire student body is drawn from twenty-two different church denominations. There are twelve denominations represented in the Graduating Class of 1959. These young people represent all walks of life, though many come to T.B.C. from the professions of medicine and teaching. A large percentage of them will be entering full-time Christian service as ministers, missionaries, deaconesses, Sunday School teachers, and as leaders in their churches. Since last Graduation, an additional four T.B.C. graduates have sailed for Africa; five to South America, two to Free China, two to the British West Indies, one to India, and one to Germany. The College Principals, the Rev. E. L. Simmonds, will lead the Graduation Service, and will assist the President, Mr. Wm. Inrig, in the presentation of diplomas. On the basis of outstanding proficiency and character, McNicol scholarships and scholarships from the Alumni Association, will be awarded. Degrees will be granted this year for the first time in T.B.C.'s long history. These will be conferred at a special Convocation which will be held in the College auditorium on Thursday, April 23rd, at 8 p.m. Founded in 1894, Toronto Bible College is the oldest Bible College in Canada. Of its 3,000 graduates, hundreds are serving in fifty-four countries, and nearly two hundred occupy pulpits in Canada and the United States. Local Toronto Missions, such as Yonge Street, Scott, Evangel Hall, and Railway, all serve to give the undergraduates needed experience in practical work while they pursue their studies. The sound-colour film entitled "Word of Life," is available to churches, young people's groups and other meetings upon request. This film vividly portrays student life, and embodies in its title an excerpt from the motto of the College, "Holding Forth The Word of Life." Suva, the capital of Fiji, is one of the busiest cities in the Pacific. A center of trade and commerce, Suva straddles air and sea lanes between Australia and the North American continent. Its population numbers 37,000.

Deep in high protein pasture
 up to 3 weeks ahead of schedule!

New, active AERO UREA* helps you grow lush, nutritious grass pasture... get your animals grazing profitably up to 3 weeks ahead of the normal time.
 Aero Urea is a 45% nitrogen fertilizer, prilled for easy handling. Top dressed in spring, it releases immediately available nitrogen to get the pasture off to a quick start—with higher protein content. Pasture is your cheapest feed. So let Aero Urea get your animals grazing sooner... they make profitable weight gains and bigger milk cheques... while you save on feeding costs!
 Ask your fertilizer dealer for Aero Urea.

YOU GET MORE OUT OF LIFE WHEN YOU GET THE MOST OUT OF ELECTRICITY

Bathtime's a happy time for the kids! And it's a happy time for a mother, too, with an automatic electric water heater to provide all the hot water necessary to look after a growing family! An electric water heater is convenient, safe and economical... costs only a few cents a day on a special Hydro Flat Rate... has abundant storage capacity and quick recovery when more hot water is needed.
 You get more out of life when you get the most out of electricity!

Household Hint
 by Anne Allans.
 To remove grease and wax crayon marks from wallpaper, place a blotter over the spot and press with a warm iron.

HYDRO is yours Electricity does so much... costs so little
