**Tenders Called For Ret. Children's School**

The May meeting of Thornhill and District Association for Retarded Children was held at the Thornhill School with Mrs. E. A. McClelland as guest speaker.

Mrs. McClelland is a teacher of music at the Metropolitan Toronto School for Retarded Children.

She spoke of the importance of music in the life of every child and suggested that parents should start at an early age to impress the importance of listening to good music on their children.

Mrs. McClelland went on to say that a child's taste in music is developed as early as three years of age and many children are fond of classical music this early in life. She told of her work with retarded children at the Toronto School and how well these children respond to music.

Many of them are capable of keeping time, right from the start, others acquire a "beat" after encouragement and practice with the other children. "Retarded" children, Mrs. McClelland went on to say, "are able to express themselves through music, more so than in any other way. Some children who do not have speech have been helped through the blowing of a "kazoo". Retarded children are capable of learning to play a musical instrument, and many have done so.

In conclusion, she expressed the opinion that it is wonderful to be able to appreciate good music and every child, normal or otherwise, could do so if helped and encouraged by parents, in the home.

A report of the O.A.R.C. convention at Smith's Falls, was given by Mrs. D. Marritt, of Willowdale. In the course of this report Mrs. Marritt mentioned that the Thornhill Association topped all others in their financial campaign for the building of a new school for retarded children in Richmond Hill. Mr. Harry "Red" Foster paid a glowing tribute to the job done by this small association in his remarks to the delegates at the convention.

Miss Ketola, principal of the Thornhaven School, and a member of the Building Committee, reported that all plans for the new school had been completed. Tenders were now being called for and the actual building due to start in a few weeks. Hopes are high that the school will be ready for opening in September.

How wonderful to know that the retarded children of this district will at last have a bright, well equipped school to attend!

A social hour followed the meeting, at which time refreshments were served.

by Mrs. Ito. Miss Judy Hart won a lovely towel set. Free tea and cookies were also served.

The proceeds amounted to more than \$145.00 with which the committee was pleased. The committee would like to thank everyone who in any way helped to make the bazaar such a success.
