## Protection

...at your fingertips

The fireman's hat is a symbol of protection. So is your fire insurance policy.

When fire strikes, alert firemen are soon on their way, accepting risks themselves to protect your life and property. And when fire strikes, fire insurance steps in to offset disastrous financial loss.

Every week, some 1,400 fires break out across Canada. Companies writing fire insurance pay out more than one hundred million dollars annually in claims. And yet virtually all the fires which take the lives of more than 500 Canadians each year are preventable.

Fire insurance safeguards your property. But only you can guarantee against loss of life.

Safety pays dividends... saves lives, helps to lower your insurance costs. Be Careful.
