

## B-A SOLAR HEAT BUDGET PLAN Heating Oil Costs

Over 10 Full Months

Payments will be in ten equal monthly installments spread over the normal budget period of Sept. 1 to June 1. Payments on budget arrangements made after September will be equalized over the remaining months of the normal budget period. For example, payments on a budget agreement entered into in November would be divided equally over the seven remaining months.

The amount of each payment will be based on the estimated oil consumption for the season. A handy cheque book will be supplied to help you keep an accurate account of all payments made.
