Harmony Club Bazaar

On Saturday afternoon at 2 o'clock, Mrs. A. F. Binnington will open the Harmony Club Bazaar. All the booths sound interesting and White Elephant should be a nice treasure chest.

We knew it was to be a Tuesday — but for those readers who were confused by the statement in this column that the Markham Fair Board Banquet would be held Dec. 2, we apologize, for of course it is the evening of Tuesday, Dec. 1, at Buttonville Hall.

There was a breezy note from the Gardners in last Saturday's mail. They are enjoying their trip west immensely and have been visiting Ted and his family this week.

Ran into Mrs. Joe Easton and Cynthia in Eatons last week. The Eastons were here for the Royal Winter Fair, from their Pennsylvania home, and were interested in Buttonville news.

Mrs. Carruthers, who spent much of the early autumn in bed, is able to be around again, we are happy to report.

We were sorry to learn that Mrs. B. K. Wilson has been so ill, but happy she is able to be home again.

Another community member

who is at the Weston Sanatorium, Mr. Wilfred Turner, spent Tuesday of last week at home with his family.

School principal Mr. Howard Atkinson was ill with a heavy cold last week and Mrs. Wilfred Turner supplied in the senior room for three days.

The neighbourhood will miss Mr. and Mrs. A. G. Terry and Michael. The Terrys sold the greater part of their property here and will move to Michigan.

More hunters returning — Mr. Elmore Hill's party had good hunting near Farry Sound, but Mr. Dick Jones and Bruce who went to Elliot Lake found the weather too cold for deer.

Miss Ethel Chapman, Editor of Home and Country, the W.I. magazine, was guest speaker at Buttonville Hall on Wednesday afternoon of last week when Buttonville W.I. Members were hostesses to visitors from Unionville, Markham, Richmond Hill, Vic. Square, Markham and Vaughan at the November meeting.

Miss Chapman attended the ACWW convention in Scotland last summer, and her talk last Wednesday described the convention and a subsequent trip to Europe.

Mennonites Solicit Clothing Drive Aid

The Mennonite Central Committee is this year enlisting the aid of families from churches of all faiths, during the annual drive for good used and new clothing.

The drive, formerly among Mennonite church goes only, began Monday and ends Nov. 21. Clean clothing—usable for six months—for men, women, children and infants—will be collected.

The items will be sorted and baled at the MCC depot in Kitchener and will be distributed on the basis of need, regardless

of race, color, creed or political affiliation. The countries where the MCC is already active include Austria, India, Viet Nam, Korea and Indonesia. Since Dec. 1 last year the Kitchener office has shipped \$9,034 pounds of clothing for overseas relief. The shipments had a value of \$106,412. In addition, more than 5,000 Christmas bundles valued at \$35,000 have been sent. Last year 302,000 tons of clothing were contributed in North America. At present the MCC of both Canada and the United States has 500 workers, with 100 coming from Canada. With the exception of a permanent core of administrators, the MCC employs persons who give between one and three years of their time without payment. The first communities to be come organized for the drive are Baden and New Hamburg. Similar drives will be conducted by Mennonite churches across Canada, it is hoped.

HERE'S Corvair BY CHEVROLET WITH ENGINE IN THE REAR WHERE IT BELONGS IN A COMPACT CAR. We knew Corvair's engine had to go in the rear if we wanted a compact car with big car ride, big car room, big car performance — and maximum efficiency. And that called for the most drastic revolution in auto design and manufacturing Canada has ever seen. What does a rear engine mean to you as driver or passenger? BETTER BRAKING — Corvair is designed to put an almost equal brake load on every wheel; the rear end maintains solid, sure traction for smooth, straightline stops in virtually any situation. LESS NOISE, LESS HEAT — Engine noise, heat, fumes are behind the passengers; carried away by the wind stream as you drive. LESS MAINTENANCE — Corvair's air-cooled engine never needs antifreeze, never boils in the hottest weather. It warms up quicker in cold weather, so there's much less cold-start wear. BETTER HANDLING — Corvair's "flat" engine and lower floor gets the centre of gravity 'way down; it rides rock-solid through the tightest turns. Steering is light as a feather, will never need power assistance. LESS NEEDLESS WEIGHT — Corvair's power plant is mostly aluminum. And it's air-cooled — no need for a radiator, water pump, hoses or even THE RIGHT ANSWER — It took a terrific amount of engineering and Chevrolet's tremendous resources to design, test and set up production on a precedent-shattering car like Corvair. But the first time you get behind the wheel—you'll agree it was worth every penny and every hour! *Optional at extra cost. There's nothing like a new car... and no compact car like the de luxe Corvair 700. A GENERAL MOTORS VALUE. See Your Local Authorized Chevrolet Dealer. Bourne - Hunter Motors Limited
