the-fence complaints. It is rather un-

fortunate that such a position must

be created due only to a sheer lack

of co-operation on the part of local

citizenry. We create a nuisance and

we'll have to pay for it. With the

planting of flowers and vegetable

gardens only a few months away,

unleashed dogs are a real source of

destruction. Other municipalities

have discovered that a salaried dog

catcher is the only solution to the

problem. We feel that it is the only

answer to Stouffville's canine control.

We would contend, however, that it

would be much cheaper for everyone

concerned if all owners would pur-

chase one trusty leash. No one wel-

comes any needless additions to an

The one main objective behind

the move is, we believe, to remove

the police problem from the hands of

local municipal governments. Stouff-

ville does not stand alone in this

matter of strained police-council re-

lationships. We feel that a county

force would accomplish this purpose.

In losing the greater portion of our

control, however, might we also not

lose a share of police service. Like

in so many other instances, Stouff-

ville would merely contribute a set

figure into the county coffers only to

realize that when it is gone, we are

forgotten. One little cog can some-

times become lost among the big

Editorial

Chasing Stray Dogs Not Part Of Police Work

Stouffville Council will attempt, this week, to fill a position that has long been neglected here. They will seek a full-time candidate for the office of dog catcher. In past years this task has been tossed in the laps of the local police department and the results, apparently, have not been too satisfactory - at least the roving dog population has continued to increase rather than decline.

Rounding up stray canines should not be the unfortunate lot of a uniformed police constable. A dog catcher, if he does his job properly, will gain few friends but undoubtedly, will make dozens of enemies. A policeman, a public servant, cannot afford to become entangled in these across-

already overburdened tax bill. Too Big To Be Efficient?

The formation of a York County Police force would appear to be the prime objective of some members of County Council. Almost at every session, the subject is raised but to date, it has advanced no further than the minor discussion stage.

We can certainly see some merit in the plan but we contend that any enlarged department could lose its efficiency. Local municipalities now enjoy a personalized police service. They attend accident scenes within minutes; they check doors; they patrol both rural and built-up areas and perform numerous duties that could not be expected of a county-wide detachment.

Better Handwriting Would Help

wheels.

-How often do you see good handwriting these days? We venture to say, not very often. Many of us have examined old documents, and records and remarked at the fineness of the handwork done in those early days. Even in our schools, the blackboard writing of most teachers is not very artistic. We don't mean this as any reflection on their qualifications, but it does show that the trend over the years has been not to place too much attention on our writing habits. Our presonal recollection and one which is held by many readers, is that Mr. C. E. Watson, who was a principal in our public school for some thirty years, was one of the best penmen we can recall.

However, we cannot despair entirely, and are heartened to note in our recent reading that there is a move on foot to revive this art. Both in the United States and Britain, a group of enthusiasts is trying to bring back the interest and skill in calligraphy. One of the declining factors in the social grace of good penmanship, we believe, has been the

use of the typewriter, and possibly as well, telegrams and telephones.

To improve this sad state of handwriting, classes are now being given in England's top schools, and the form being taught is italic which is the form used by our former school principal, who writing we so admired. principal, whose writing we so admired.

In the United States, the American pen manufacturers, have formed the Handwriting Foundation to promote better penmanship. Great sums are lost every year from carelessly scribbled bills, orders, tickets and checks. They result in inaccurate ... charges and faulty services.

In years gone by anyone who could produce a well written document was held in high esteem and penmanship was considered a real accomplishment. History tells us that Henry VIII couldn't write, and he took pains to see that his children learned. The first Elizabeth was a superb penwoman, but the handwriting of one of her most famous subjects, Shakespeare, could hardly have been worse.

Put First Things First

Heart disease is our country's number one killer. Each year more than 66,000 Canadians die as a result of heart and blood circulatory disorders. In addition, there are in Canada some 1,250,000 persons including 50,000 children, who have been disabled by heart disease.

The Canadian Heart Fund is: your number one defense against this dread killer. With your Heart Fund dollars, medical science has made dramatic progress in saving and prolonging the lives of thousands of heart victims.

Research has already provided the knowledge needed to reduce recurrences of heart attacks, prevent rheumatic fever, repair damaged heart valves, develop heart-lung machines and perfect drugs which retard clotting.

. But more research is needed to find the answers to heart attack, stroke, heart failure, high blood pressure and other forms of heart disease.

You, your family and your business - all have a vital stake in the fight against heart disease. Give the Heart Fund your number one consideration.

Postal Dept. Holds Sale On Undelivered Parcels

Letters, Cash Stranded

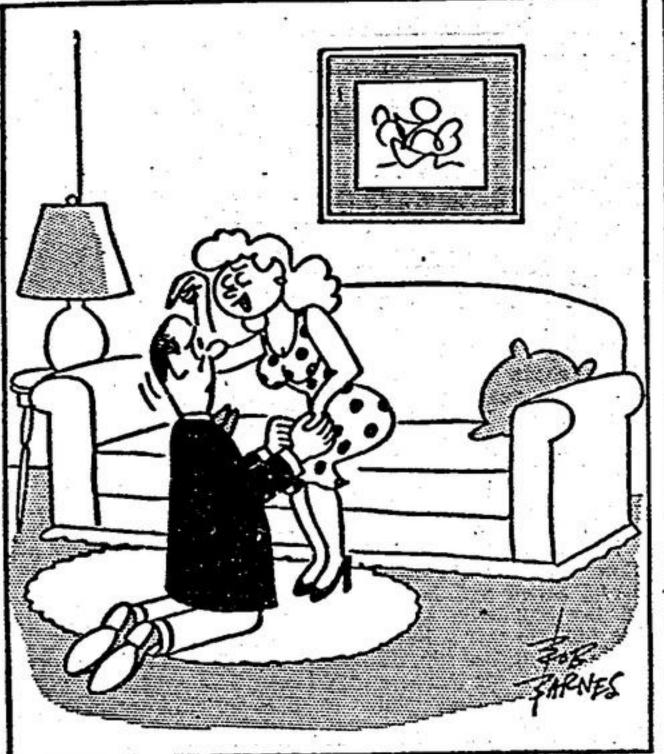

A total of 51,000 undelivered parcels passed under the auctioneer's hammer recently at the annual Post Office auction conducted in Montreal. In addition to the parcels, more than 14 million letters and cards failed to reach their proper destinations due to improper addresses. Cash, amounting to \$50,000 was coast to coast. The Postal Dept.ed improperly and contain no

this particular Oriental suit- taking a nice shine, that maker is the best in the world | bought for the same trip. and is anybody going to argue with Cary?"

that item calmly, I could only come to the . conclusion that Cary and I have a lot of different things on our minds. And I don't say that in envy. I have a perfectly good suit. As far as I'm concerned, it's just as good as the day I got it, four years

Every year about this time there's a newspaper convention, and every year it takes me about three weeks to talk my wife into going. She can't go wear. "So buy yourself a dress," I say. Turns out she has a dress, but she doesn't have a fur coat. That brings that conversation to an abrupt halt.

Then she tries to make me feel like a heel with the old reverse psychology. "I can't possibly ask Mother to keep the children again. And you know how worn out we are after a convention. I haven't a stitch to me. No more creaking hips, wear except that old black thing. My ironing is three weeks behind. I simply can't go, in fact I don't even want to go. Why don't you go alone? You'd enjoy getting away from us all for a couple of days."

ironing. You know I wouldn't go without you." What I say is: "O.K." When I get home at six, she has a dress ripped apart, her mother lined up, and is desperately ironing clothes for the whole family for the week-

This year, she tried a new gimmick. Instead of that timeworn antic about having nothing to wear, she assured me, with some coldness, that I was so shabby she wouldn't be seen with me at a rag-pickers' rally, bane, well-groomed newspaper

This was unfair and she knew it. I have that good gray suit. I have a genuine Harris tweed

return addresses. In 1959, the Postal Department handled 3 billion, eight hundred mail it-

The Post Office Auction Sale has a number of functions. I clears out the collection of undeliverable merchandise accumulated by the postal service during the year; it helps pay for the storage of all the material but most important, it gives the Postal Authorities an opportunity to impress on the mailing public the need for clear, correct addressing on all parcels

Bargain hunters crowded the sales rooms during the two-day auction. One lady from Alberta engagement ring set with a diamond chips - \$50; an engagement ring with a large diamond and two chips inset in platinum-\$125; a self-winding anti-magnetic wrist watch (waterproof) and a gold expansion bracelet-\$27; a package of traps for mink, skunk and muskrats - \$7.00. The net proceeds amounted to \$6,651.00.

Read in one of the gossip col- jacket, made in Montreal, that umns the other day that Cary I got at the same time, the year Grant, the movie actor, made a | we went to that convention special trip by jet 6,000 miles down east, about '56. And a to Hongkong, to see his tailor. good stout pair of black shoes, The item went on: "Cary thinks | resoled a couple of times, but

Proposed Flood Control Program to Cost \$35 Million

the massive \$35,000,000 flood flood-warning systems. control and water conservation chairman.

In his address to the annual meeting of the 53-member conservation body, Dr. G. S. Lord, P. Eng., said delay in carrying out the plan will make it more difficult and almost impossible to acquire reservoir sites and other needed lands.

floods is constantly with us and we are virtually without protection against such floods," warned.

The program is now awaiting Ontario government approval and then must receive approval from the Federal government, before being started. It calls for construction of 14 multi-purpose dams and reservoirs in the 950square mile region and acquisition of some 7,600 acres of vul nerable flood plain land. In addition, there would be channel improvements to the regional streams and extension of the
